# Domestic Delivery Area Surcharge

## Destination ZIP Codes Requiring A Surcharge For UPS Service

UPS provides service to every address in the United States. Providing service to less populated or less accessible areas carries higher operating costs. The Delivery Area Surcharge is assessed to more accurately reflect the cost of providing service to these areas.

### When Does This Surcharge Apply?

A Delivery Area Surcharge applies to each package delivered to locations in the ZIP Codes listed in this book. Refer to the *UPS Rate and Service Guide* for the effective rate per package.

### How Do I Use This Listing?

To determine if the Delivery Area Surcharge applies to your UPS shipment, look for the destination ZIP Code™ in this publication. The ZIP Codes are listed sequentially.

If your destination ZIP Code is listed, the Delivery Area Surcharge applies to each package in your shipment.

### Example:

ZIP Code 01071 falls within the range 01070-01074.

A Delivery Area Surcharge applies to each package going to destination ZIP Code 01071.

## International Extended Area Listing

### For UPS Worldwide Services

UPS provides service to more than 215 and from more than 185 countries and territories worldwide. Providing service to and from less populated or less accessible areas carries higher operating costs. The Extended Area Surcharge (EAS) is assessed to more accurately reflect the cost of providing service to and from these areas.

#### When Does This Surcharge Apply?

An Extended Area Surcharge of \$20.00 per shipment or \$0.20 per pound, whichever is greater, applies to UPS Worldwide Express Plus<sup>SM</sup>, UPS Worldwide Express<sup>SM</sup>, UPS Worldwide Saver<sup>SM</sup> and UPS Worldwide Expedited<sup>SM</sup> shipments to all destination countries and from certain origin countries listed in this book. For countries served by UPS that are not listed in this book, there are no areas where the Extended Area Surcharge applies.

#### How Do I Use This Listing?

To determine if the Extended Area Surcharge applies to your shipment:

1. Locate the destination or origin country. All countries in this listing are destinations; countries with asterisks are origins as well. Countries are listed alphabetically.
2. Locate the postal code (listed sequentially) or city (listed alphabetically). If the postal code or city is not listed, the entry "All Other Points" will apply.
3. If "Yes" is indicated in the "Extended Area Surcharge" (EAS) column next to the *destination*, a surcharge applies to the export shipment. If "Yes" is indicated in the EAS column and the country is marked with an asterisk next to the country name, a surcharge applies from this *origin* to the import freight collect shipment.
