Domestic and Export Service Restrictions

HAZARDOUS MATERIALS AND INTERNATIONAL DANGEROUS GOODS

UPS has enhanced its domestic Hazardous Materials and International Dangerous Goods (IDG) shipping requirements. UPS now will accept domestic Air Dangerous Goods shipments prepared under D.O.T. 49 C.F.R. or IATA regulation sets. Additionally, the domestic Hazardous Materials and International Dangerous Goods functionality has been integrated into UPS WorldShip™ 2008 version 10.0. Contact the Hazardous Materials Support Center at 1-800-554-9964 for more information.

Hazardous Materials, as defined and regulated under Title 49 of the Code of Federal Regulations (49 C.F.R.), and Dangerous Goods, as defined under the International Civil Aviation Organization (ICAO) and published in the International Air Transport Association (IATA) *Dangerous Goods Regulations*, are accepted for transportation only as a contractual service domestically within and between all 50 states and Puerto Rico, and internationally within or between defined service areas.

Setting Up Service for Hazardous Materials and Dangerous Goods

To receive Hazardous Materials or Dangerous Goods service, the shipper must have an Automatic Daily Pickup account, sign a contract and agree

to the provisions set forth in the "UPS Dangerous Goods Agreement" or the approved "UPS Agreement for Transportation of International Dangerous Goods," or have these same provisions incorporated into their existing customized contract.

Alaska, Hawaii, Puerto Rico and Catalina Island

When preparing Hazardous Materials packages for UPS Ground to Alaska, Hawaii, Puerto Rico and Catalina Island, packages must be prepared according to applicable air regulations. Many products that are not regulated or do not require shipping papers via UPS Ground are fully regulated when transported via aircraft. Hazardous Materials are accepted for transportation via UPS Ground to Alaska, Hawaii, Puerto Rico and Catalina Island only in passenger aircraft quantities and prepared according to the requirements set forth in either Title 49 of the Code of Federal Regulations (49 C.F.R.) or in the International Air Transport Association regulations (IATA) and the [UPS Guide for Shipping Ground and Air Hazardous Materials](#) at [ups.com](#)®.

Other Regulated Materials (ORM-D)

Other Regulated Materials (ORM-D) packages are accepted for transportation without a contract within the 48 contiguous states when properly

packaged, marked and shipped via UPS Ground.

ORM-D (Consumer Commodity) packages shipped via UPS domestic air services within the U.S. and Puerto Rico, as well as all UPS international services, are accepted for transportation on a contractual basis only.

Dry Ice

UPS now accepts most non-Dangerous Goods shipments containing dry ice, without requiring the shipper to enter into the "UPS Dangerous Goods Agreement." Refer to page [51](#) for more information.

International Dangerous Goods (IDG)

UPS accepts International Dangerous Goods on a contract basis only. The [UPS Guide for Shipping International Dangerous Goods](#) should always be used in conjunction with the most current IATA *Dangerous Goods Regulations*. UPS only transports Dangerous Goods to and from IDG countries. The Dangerous Goods Service handling charge applies to all packages that require a "Shipper's Declaration of Dangerous Goods."

Domestic and Export Service Restrictions

Alcoholic Beverages

Packages containing alcoholic beverages (beer, wine or spirits) are accepted for transportation only on a contractual basis. Shippers must be licensed and authorized under applicable law to ship alcoholic beverages. UPS does not accept packages containing beer or spirits for delivery to consumers. To receive service for packages containing alcoholic beverages, the shipper must sign a contract and agree to the provisions set forth in the approved UPS agreement for the transportation of alcoholic beverages shipments.

C.O.D.

Collect on Delivery (C.O.D.) service is not available for international services. C.O.D. service is also not available when using a UPS Ground shipping document.

Firearms

Firearms will be accepted for transportation only according to the "UPS Tariff/Terms and Conditions" at ups.com/terms.

Jewelry

International shipments containing jewelry (not including costume jewelry) are limited to a maximum value of \$500.00 per package.

Maximum Length

The maximum length per package is 108 inches or 274 centimeters.

Maximum Size

The maximum size per package including shipments to and from Canada is 165 inches or 419 centimeters in length and girth [(2 x width) + (2 x height)] combined. For irregularly shaped air and ground packages, refer to page 8 for instructions.

The maximum size per import package is 130 inches or 330 centimeters in length and girth [(2 x width) + (2 x height)] combined.

Maximum Value

Shippers are prohibited from shipping, and UPS does not accept for transportation, packages having a value of more than \$50,000.00. Additionally, more restrictive value limits apply for certain packages, including packages shipped as a result of a request for service made through the Internet by a shipper who has paid with a credit card; packages returned via Print Return Label, Print and Mail Return Label, Electronic Return Label or 1 UPS Pickup Attempt Return Services; packages shipped via a UPS Drop Box; and Prepaid Letters and packages shipped using Shipper Release.

Refer to the "UPS Tariff/Terms and Conditions" at ups.com/terms for more information on maximum allowable values and liability limitations.

Maximum Weight

For domestic shipments, the maximum actual weight per package is 150 pounds. For international shipments, the maximum weight of a package may vary by destination or origin. Call the UPS International Customer Service Center at 1-800-782-7892 for more information.

Maximum Weight for a Hazardous Materials and International Dangerous Goods Package

The maximum weight for a Hazardous Materials and International Dangerous Goods package is 70 pounds, unless further restricted by the regulations set forth in 49 C.F.R. or IATA regulations. Maximum weight for a non-Hazardous Materials shipment containing dry ice is 150 pounds. Consult the [UPS Guide for Shipping Ground and Air Hazardous Materials](#) at ups.com® or call the Hazardous Materials Support Center at 1-800-554-9964 for more information.

Restricted and Prohibited Articles (Export)

The following items may be shipped to countries outside the U.S., where service is allowed, on a contractual basis only:

- Alcoholic beverages
- Biological substance, category B
- Dangerous Goods
- Perishables
- Personal effects*
- Plants
- Seeds
- Tobacco

*Limited shipping of personal effects is available at all [locations](#) of The UPS Store® and any UPS Customer Center.

Note: For additional service restrictions, refer to the "UPS Tariff/Terms and Conditions" at ups.com/terms.

Domestic and Export Service Restrictions

Restricted and Prohibited Articles (Export) (continued)

Service is limited and is subject to certain restrictions. Call the UPS International Customer Service Center at 1-800-782-7892 for more information.

The following articles are not accepted for transportation by UPS to countries outside the U.S.:

- Animal products, non-domesticated
- Firearms and weapons
- Furs
- Live animals

It is the shipper's responsibility to comply with current government regulations or laws applicable in each country. Shipments are subject to inspection and possible delay by customs officials or representatives of other government agencies. Certain countries have additional prohibited articles. For additional information, call the UPS International Customer Service Center at 1-800-782-7892.

Tobacco

Packages containing tobacco or tobacco products, as those terms are variously defined under applicable state law ("Tobacco Product Shipments"), are accepted for transportation only from shippers who are licensed and authorized to ship tobacco and tobacco products pursuant to applicable laws.

Tobacco Product Shipments shipped to a consumer will only be accepted for transportation as a contractual service. However, because UPS prohibits shipments of cigarettes to consumers under any circumstances, UPS does not offer a contractual service for the delivery of cigarettes to consumers. To receive service for Tobacco Product Shipments shipped to a consumer, the shipper must sign and agree to the provisions set forth in an approved UPS agreement for the transportation of tobacco products. For all other service for Tobacco Product Shipments, the consignee must be licensed and authorized to receive tobacco or tobacco products pursuant to all applicable federal, state, provincial or local laws or regulations and the shipment must conform to the terms, conditions, restrictions and prohibitions set forth at ups.com/tobacco at the time of shipping. It is the responsibility of the shipper to ensure that a shipment tendered to UPS, including a Tobacco Product Shipment, does not violate any federal, state, provincial or local laws or regulations applicable to the shipment. All shipments, including shipments containing tobacco products, will be accepted for transportation only according to the "UPS Tariff/Terms and Conditions."

Tobacco products may not be shipped from locations of The UPS Store®, UPS Drop Box, any UPS Customer Center, UPS Alliance Locations (Office Depot® and Staples®) or any UPS Authorized Shipping Outlet®. Prepaid tobacco drop-offs may be accepted at locations of The UPS Store and Mail Boxes Etc.®, Inc. Please call 1-800-Pick-UPS® for more information.

UPS Returns®

UPS Returns services are not provided via UPS Next Day Air Saver® and UPS 2nd Day Air A.M.® Hazardous Materials or Dangerous Goods packages requiring shipping papers or packages containing firearms cannot be retrieved via UPS Returns services. See the UPS Tariff/Terms and Conditions at ups.com/terms for value limits on UPS Returns services packages. Multiple-piece shipments are not available for UPS Returns services shipped within the 50 states and Puerto Rico.

Note: For additional service restrictions, refer to the "UPS Tariff/Terms and Conditions" at ups.com/terms.

Determine the Weight and Size

For All Domestic and International Shipments

– **Shipping rates** are based on package weight and size (explained below and on the following page) and origin-to-destination distance (refer to pages [12](#) and [13](#) for Alaska Domestic, and pages [30](#) and [31](#) for Hawaii Domestic, and page [53](#) for Export).

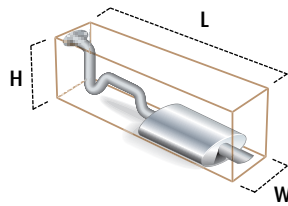

– **Actual weight** is the package weight rounded up to the next whole pound.

– **Dimensional weight** reflects package density, which is the amount of space a package occupies in relation to its actual weight. Calculations of dimensional weight are based on the International Air Transport Association (IATA) volumetric standards (subject to change without notice). Dimensional weight may apply to all UPS domestic and international package services.

– **Billable weight** is the weight used to calculate the rate. For domestic and international services, the billable weight will be the greater of the dimensional weight as compared to the actual weight.

– Irregularly Shaped Packages:

Measure boxes or containers that are not rectangular to determine the package measurements and whether the package is within maximum limits. Treat the irregularly shaped package as if it were in a regular rectangular box. Measure the length, width and height of the package from its extreme points.

– Items Shipped in Bags:

Shape – When multiple items are shipped in a flexible container (e.g., burlap or plastic bag), the package measurements will be determined when the exterior is at rest. As this shape will differ from placement to placement, cubic size or package measurements will be made at the sole discretion of UPS.

Tails – A tail on an item shipped in a bag should be measured for the amount of space it takes up in a reasonably compressed fashion. Any tail that is created by placing an item in a bag must be compressed and taped to the body of the item.

– **Packages that exceed UPS weight and size limits are not accepted for transportation.** If found in the UPS system, they are subject to an Over Maximum Limits charge. Refer to page [52](#) or [74](#) for more information. For Maximum Weight service restrictions, refer to page [6](#).

Follow the instructions on the following page to determine the billable weight for your shipments.

Determine the Weight and Size

For All Domestic and International Shipments (continued)

How to determine billable weight.

1. Determine actual weight.

Use any standard scale and round up any fraction of a pound to the next whole pound.

2. Determine dimensional weight.

Determine the package dimensions in inches. Multiply the package length by the width by the height. For each dimension, measure the largest distance, rounding each measurement to the nearest whole number (for example 1.00 to 1.49 will be considered 1, and 1.50 to 1.99 will be considered 2). The result is the cubic size in inches.

For domestic shipments:

UPS Air shipments – Divide the cubic size in inches by 194 to determine dimensional weight in pounds. Increase any fraction to the next whole pound.

UPS Ground shipments – If the cubic size of the package in inches is 5,184 or larger, divide the cubic size by 194 to determine dimensional weight in pounds. If the cubic size in inches is less than 5,184, use the actual weight of the package.

For international shipments:

UPS Worldwide Express PlusSM, UPS Worldwide ExpressSM, UPS Worldwide SaverSM and UPS Worldwide ExpeditedSM shipments – For import shipments, use the origin country unit of measure to calculate the dimensional weight. For export shipments, divide the cubic size by 166 when measured in inches to determine the dimensional weight. Increase any fraction to the next whole pound.

3. Determine billable weight.

Compare the shipment's actual weight to the dimensional weight. The greater of the two is the billable weight and should be used to calculate the rate.

For domestic shipments:

Determine if Large Package rules apply.

A package is considered a "Large Package" when its length plus girth [(2 x width) + (2 x height)] combined exceeds 130 inches, but does not exceed the maximum UPS size of 165 inches.

Large Packages are subject to a minimum billable weight of 90 pounds. A Large Package Surcharge will apply; refer to page 52 for fees. An Additional Handling charge will not be assessed when a Large Package Surcharge is applied.

Notes:

- For a multiple-package international shipment, add the result for all of the packages together. The total is the cubic size of the shipment. (If you are using a UPS Shipping Record book, each international package is considered a separate shipment for billing purposes.)
- Size limits indicated by a box manufacturer may not reflect exterior dimensions of a package, including where a package may have bulges or otherwise may not be uniform across each plane, and should not be used as a substitute for actual length, width and height measurements in determining dimensional weight.

Domestic

$$\text{Dimensional Weight} = \frac{L \times W \times H}{194}$$

L = Length in inches

W = Width in inches

H = Height in inches

International

$$\left[\begin{array}{l} \text{Dimensional Weight} \\ \text{in Pounds} \end{array} \right] = \frac{L \times W \times H}{166}$$

L = Length in inches

W = Width in inches

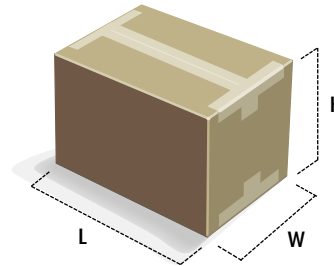

H = Height in inches

$$\left[\begin{array}{l} \text{Dimensional Weight} \\ \text{in Kilograms} \end{array} \right] = \frac{L \times W \times H}{6,000}$$

L = Length in centimeters

W = Width in centimeters

H = Height in centimeters

Documenting an Export Shipment

UPS uses export and import documents you prepare to properly declare your shipment to customs in both the country of export and the country of import. The required documents are submitted to customs to determine the applicable duties and taxes in the destination country. This documentation may include:

- A commercial invoice.
- A U.S. Shipper's Export Declaration (S.E.D.).
- A Power of Attorney.
- A U.S. Certificate of Origin or a North American Free Trade Agreement (NAFTA) Certificate of Origin.
- Other documents based on value, nature and destination of shipment.

Visit ups.com/intl_forms to download a blank document or view a sample of a completed document.

Document Shipments:

A document is generally defined as a written, typed or printed communication of no commercial value. Call 1-800-782-7892 or visit ups.com/globaladvisor for a list of items that are classified as documents in your destination country. International documents shipped in an Express Envelope or in any other packaging generally do not require a commercial invoice or any other export forms.

Non-document Shipments:

International shipments containing items other than documents typically require one original and two copies of a commercial invoice in addition to the UPS Waybill or UPS OnLine®-generated shipping label. Packages destined for Puerto Rico require one original and one copy of a commercial invoice in addition to the UPS Air Shipping Document or UPS OnLine-generated shipping label. Please call 1-800-782-7892 or visit ups.com/globaladvisor for specific country requirements. In addition to the commercial invoice, you may need to include a U.S. Certificate of Origin, NAFTA Certificate of Origin or S.E.D., based upon the guidelines below.

UPS PaperlessSM Invoice – UPS Paperless Invoice allows shippers to provide invoice commodity-level detail through electronic data upload to UPS, thus eliminating the need to print, match and attach commercial invoices to international shipments.

Because information is stored electronically, customers greatly reduce their chances of making manual errors when completing customs documentation. With UPS Paperless Invoice, the customer can be assured that the program will not allow incomplete customs paperwork to be submitted, which is one of the main reasons that shipments can be held at the import site.

A registration process is required to have this service enabled. For additional information, please visit ups.com/international.

Commercial Invoice – A commercial invoice is required on all shipments containing goods. A commercial invoice is not required for document shipments. The commercial invoice is the primary document used for import control, valuation and duty determination. The document identifies the products being shipped and their values.

U.S. Certificate of Origin – This form is required by some importing countries for certain commodities. Please see the list of countries which require a U.S. Certificate of Origin at ups.com/globaladvisor or call 1-800-782-7892. The purpose of the form is to authenticate the country of origin of the merchandise being shipped. Some nations restrict imports from certain countries; many countries limit the quantity of goods that are allowed to be imported or give preference to goods manufactured in certain countries. UPS can prepare a U.S. Certificate of Origin on behalf of the shipper. Refer to page [72](#) for fees and more information.

Note: International Dangerous Goods service requires a contract.

UPS TradeAbility[®] is a suite of information-based services providing harmonizer, landed cost and compliance tools. Visit ups.com/tradeability for more information.

Documenting an Export Shipment

NAFTA Certificate of Origin – This form is used by Canada, Mexico and the U.S. (including Puerto Rico) to determine if goods imported into their countries receive a reduction in duty. In order to receive the benefits of reduced duty, you must attach the NAFTA Certificate of Origin to the commercial invoice if you have determined your commodity qualifies for reduced duty and:

- The shipment is of U.S. or Canada origin and Mexico destination with a value of \$1,000.00 USD or greater.
- The shipment is of U.S. or Mexico origin and Canada destination with a value of \$1,600.00 in Canadian dollars or greater.

Shipments valued less than the above amounts only require a statement on the commercial invoice requesting NAFTA preferential tariff treatment:

"I certify that the goods referenced in this commercial invoice comply with the origin requirements specified for these goods in the North American Free Trade Agreement, and that further processing or assembly outside the territories of the parties has not occurred subsequent to processing or assembly in the NAFTA region."

Shipper's Export Declaration (S.E.D.) –

The S.E.D. provides general information about your export transaction and is used for developing U.S. export statistics and controls. The form is only required in the following instances:

- If your shipment contains a commodity that has a value greater than \$2,500.00.
- If your shipment contains a commodity that requires an export license.

An S.E.D. is not required for shipments to Canada unless the commodities are being exported under an export license or license exemption or the shipment is destined for a third country.

UPS WorldShip™, UPS Internet Shipping, UPS CampusShipSM, UPS OnLineSM Shipping Tool and a UPS Ready™ solution that support full international service make it easy to complete a commercial invoice, S.E.D., U.S. Certificate of Origin or NAFTA Certificate of Origin. UPS WorldShip, UPS Internet Shipping and UPS CampusShip prompt you to complete required export documentation as you process an international shipment. Additionally, UPS WorldShip enables you to automate your international documentation preparation through data import capabilities.

Enclose all required export documentation in the UPS Waybill pouch or in an envelope marked "Export Documents." Securely affix pouch or envelope to the lead package.

Special Note for S.E.D. filers:

In order to file an S.E.D. electronically, users can log on directly to the U.S. Government Automated Export System (AES) website at aesdirect.gov to obtain

the appropriate information for completing their UPS shipment. UPS recommends electronic filing with AESDirect as the preferred method for S.E.D. filing. UPS WorldShip, UPS Internet Shipping, UPS CampusShip and some UPS Ready solutions connect to AESDirect to allow customers to file their S.E.D. electronically with the Census Bureau and U.S. Customs and Border Protection. UPS does not charge a service fee when you file your S.E.D. with AESDirect.

UPS can file or create and file an S.E.D. on behalf of the shipper; however, all required data must be provided to UPS and the shipper must grant UPS Power of Attorney. UPS must obtain the shipper's EIN (Employer Identification Number), also known as the Tax ID number, in order to complete and file the S.E.D. A shipment will be delayed if all information, including the EIN, has not been provided. Refer to page [72](#) for fees.

UPS Routing Form – Take advantage of UPS-guaranteed import delivery options, including fixed import rates. Use the UPS Routing Form to instruct your international business partners to ship to you using UPS.

This form can be found and printed from the Support tab at ups.com®; click on "Documentation and Labels" in the "Preparing Your Package" section, select "UPS Routing Support" and then select "Download."

Important: In addition to determining the billable weight of a package, the destination zone is also needed to determine the rate for each domestic service option.

- Determine the zone for your shipment from the appropriate charts.
- Service to and from points in zone 26 may require one or more additional days.
- A dash (-) means service is not available.

Alaska and Hawaii – Export Shipment Pricing

UPS Worldwide Express PlusSM, UPS Worldwide ExpressSM, UPS Worldwide SaverSM and UPS Worldwide ExpeditedSM

Shipment pricing is advantageous because rates are based on the total weight of a shipment, not the sum of the rates for each package in a shipment.

What Qualifies

1. You have multiple-package shipments picked up on the same day and shipped to a single consignee.
2. You use UPS WorldShipTM, UPS Internet Shipping, UPS CampusShipSM, UPS OnLineSM Shipping Tool or a UPS ReadyTM solution that supports full international service, or a UPS Worldwide Services Waybill.

What Does Not Qualify

Shipment pricing does not apply to Express Envelopes, the UPS 10 KG Box[®], the UPS 25 KG Box[®] or packages recorded in a UPS Shipping Record book; they are each considered separate shipments.

Rates

Rates are based on the total actual weight or the total dimensional weight of all packages in a shipment, whichever is greater. Refer to pages 8 and 9 for instructions on calculating dimensional and billable weight.

If the payer of the shipping charges is located in the origin country, the shipment will be charged the export rate (Origin Country Export Rates). When the payer of the shipping charges is located in the destination country, the shipment will be charged the import

rate (Destination Country Import Rates). If the destination country does not have import rates, the shipment will be charged the export rate (Origin Country Export Rates). When the payer of the shipping charges is located in a third country (neither origin nor destination country), the shipment will be charged the Origin Country Export Rates, except as otherwise agreed to by UPS and the contracting party.

For shipments weighing 150 pounds or less, locate the rate for the total weight of the shipment on the appropriate rate chart.

For shipments weighing more than 150 pounds, multiply the total weight (rounded to the next whole pound) by the appropriate price per pound. The amount billed will be the result of this calculation or the minimum rate shown, whichever is greater.

Customs Brokerage

For UPS Worldwide Express Plus, UPS Worldwide Express, UPS Worldwide Saver and UPS Worldwide Expedited, rates include routine in-house customs clearance by UPS Supply Chain Solutions[®]. Additional charges will apply if customs clearance is performed by customs brokerage offices other than those designated by UPS for clearing the services listed above.

Customs clearance for the services listed is provided by the UPS Supply Chain Solutions customs brokerage offices designated by UPS for handling small package customs clearance. Other UPS Supply Chain Solutions customs brokerage offices charge fees for clearance of small packages and freight.

Packaging Guidelines

UPS FREIGHT® – LESS-THAN-TRUCKLOAD

Preparing Your Freight Shipment

Freight shipments can include combinations of palletized items, boxes that are too large to ship using other UPS services or multiple non-palletized pieces. UPS will accept freight shipments of any weight. However, minimum weight charges apply.

Determining If Freight Should Be Palletized

Palletizing freight helps multiple-piece shipments remain together and provides increased protection from damage. Each pallet, including its contents, is considered one piece.

Non-Palletized Freight

Loose items, such as boxes or containers that have not been secured to a pallet, are considered non-palletized freight. Each loose item is considered one piece.

Palletizing Your Shipment

Pallets are portable rigid platforms used to consolidate shipments and allow for ease of freight movement. Quality pallets are commonly made of

either wood or plastic and can weigh between 20 and 70 pounds. Pallets should be large enough to accommodate the shipment without

overhang. Anything overhanging the pallet edges may be damaged from punctures, abrasions and compression.

Step-by-Step

The following are basic step-by-step instructions for palletizing your freight.

1. Select Pallets.

- Choose pallets large enough to prevent overhang of shipment pieces
- Pallets must be sturdy enough to support the load
 - Select pallets with closely spaced pallet deck boards
 - Never exceed the rated capacity of your pallet
- Do not select pallets with broken boards or protruding nail heads
- Pallets with four-way forklift entry are preferred as they help to improve handling and reduce damage to the shipment

2. Stack Boxes on Pallet.

For shipments that contain boxes or stackable pieces:

- Affix labels, with complete address information for the shipper and the consignee, to each piece

- Align boxes in columns, corner to corner, for the greatest stacking strength
- Avoid interlocking or rotating layer patterns
- Do not align corners over the spaces between pallet deck boards
- Boxes should not extend past the pallet edges
- Do not pyramid the boxes; keep the top layer flat to prevent damage from top loads
- Use a slip sheet under the load and every third layer when possible to

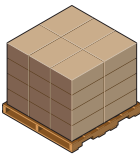

help distribute the weight evenly and protect the bottom layer

3. Secure Shipment to Pallet.

Use strapping or banding to secure your shipment to the pallet and stretch wrap to prevent pieces from getting lost or separated from the load.

4. Label Shipment.

Label each pallet with telephone numbers and complete address information, including postal code of the shipper and the consignee.

Palletizing Your Shipment		
		
1. Select a four-way entry pallet for your freight shipment.	2. Stack boxes in columns. Avoid placing freight beyond pallet edges.	3. Use strapping with stretch wrap to secure boxes to the pallet.

Packaging Guidelines

UPS FREIGHT® – LESS-THAN-TRUCKLOAD

Protecting Your Palletized Shipment from Damage

Solution	Description
Corner/Edge Boards	<ul style="list-style-type: none"> – Increase vertical stacking strength, prevent damage to corner edges and stabilize the load. – Should extend to the full height and length of the load and should be used on all corners.
Strapping or Banding	<ul style="list-style-type: none"> – Prevents pieces from getting lost or separated from the load. – Should be drawn tightly to the load, possibly requiring running it underneath the top deck boards of the pallet.
Stretch Wrapping	<ul style="list-style-type: none"> – Use as an effective way to keep all pieces of a shipment together. – Should first be applied around the pallet and continued upward around the load. – Must be tight to prevent load shifting. – Capture the pallet when wrapping bottom layer. – Designed to stabilize the load, not to secure it to the pallet. – Strapping or banding should be used in conjunction with stretch wrap to secure the load to the pallet.
Top/Bottom Load Protector	<ul style="list-style-type: none"> – Layers of corrugated fiberboard or heavy paperboard. – Use to help evenly distribute the weight of shipments that can be stacked upon one another.

Preparing Non-Palletized Freight

If you do not plan to secure your shipment to pallets, follow these steps:

1. Ship freight in corrugated boxes (avoid reusing boxes), crates or shipping containers.
2. Use a container strong enough to support the weight of contents.

3. Use at least two inches of appropriate cushioning material to protect internal items from each other and the corners, sides, top and bottom of containers. Appropriate cushioning material would include corrugated fiberboard, multiple layers of folded newspaper, styrofoam sheets, packing blankets, etc.

4. Reinforce edges to protect from bending.

5. Securely seal closures and seams with reinforced tape.

6. Label each piece with telephone numbers and complete address information, including postal code of the shipper and the consignee.

Preparing for Pickup

Pickup is included in all LTL services. Your freight pickup request is initiated when you Create a Shipment for freight on ups.com®.

Label Freight Pieces

Each piece of palletized or non-palletized freight must be clearly marked with telephone numbers and complete address information, including

postal code of the shipper and the consignee. Indicate on freight labels if any pieces require C.O.D. service.
