How To Use This Guide

Find everything you need to know about how to ship packages – from services and rates to packaging and payment – in the following pages. For your convenience, the *UPS Rate and Service Guide* is divided into four sections that cover each of the primary steps involved in preparing and processing a shipment. There is also a freight section dedicated to shipments of more than 150 pounds. At the beginning of each section, further detail as to what is covered in that section is provided.

| | | |
|---------------------|---|-------------------------------|
| Section 1 | Choosing a Service Determine the service that best meets your needs for domestic, export and import shipping. Also, learn about certain service restrictions that may apply. | Pages 4-12 |
| Section 2 | Preparing a Package Information about UPS-provided packaging, guidelines for using your own packaging and an explanation of export documentation that must accompany your shipment are provided. | Pages 13-32 |
| Section 3 | Determining the Rate Determine the rates and zones for domestic, export and import shipments. Also, learn about value-added services that are available. | Pages 33-120 |
| Section 4 | Tracking and Payment Convenient and up-to-the-minute ways to track shipments are reviewed, as well as an explanation of the UPS invoice, its presentation, and various billing and payment options. | Pages 121-129 |
| Section 5 | Freight Determine the service that best meets your freight shipping needs. Also, learn about value-added services and certain service restrictions that may apply. | Pages 130-151 |

Domestic, Export and Import Service Restrictions

HAZARDOUS MATERIALS AND INTERNATIONAL DANGEROUS GOODS

UPS has enhanced its domestic Hazardous Materials and International Dangerous Goods (IDG) shipping requirements. UPS now will accept domestic Air Dangerous Goods shipments prepared under D.O.T. 49 C.F.R. or IATA regulation sets. Additionally, the domestic Hazardous Materials and International Dangerous Goods functionality has been integrated into UPS WorldShip™ 2008 version 10.0. Contact the Hazardous Materials Support Center at 1-800-554-9964 for more information.

Hazardous Materials, as defined and regulated under Title 49 of the Code of Federal Regulations (49 C.F.R.), and Dangerous Goods, as defined under the International Civil Aviation Organization (ICAO) and published in the International Air Transport Association (IATA) *Dangerous Goods Regulations*, are accepted for transportation only as a contractual service domestically within and between all 50 states and Puerto Rico, and internationally within or between defined service areas.

Setting Up Service for Hazardous Materials and Dangerous Goods

To receive Hazardous Materials or Dangerous Goods service, including UPS Standard to Canada, the shipper must have an Automatic Daily Pickup account, sign a contract and agree to the provisions set forth in the "UPS Dangerous Goods Agreement" or the approved "UPS Agreement for Transportation of International Dangerous Goods," or have these same provisions incorporated into their existing customized contract.

Alaska, Hawaii, Puerto Rico and Catalina Island

When preparing Hazardous Materials packages for UPS Ground to and from Alaska, Hawaii, Puerto Rico and Catalina Island, packages must be prepared according to applicable air regulations. Many products that are not regulated or do not require shipping papers via UPS Ground are fully regulated when transported via aircraft. Hazardous Materials are accepted for transportation via UPS Ground to and from Alaska, Hawaii, Puerto Rico and Catalina Island only in passenger aircraft quantities and prepared according to the requirements set forth in either Title 49 of the Code of Federal Regulations (49 C.F.R.) or in the International Air Transport Association regulations (IATA) and the [UPS Guide for Shipping Ground and Air Hazardous Materials](#) at ups.com®.

UPS 3 Day SelectSM

When preparing Hazardous Materials packages for UPS 3 Day Select, packages must be prepared in accordance with the applicable air regulations. There are many products that are not regulated or do not require shipping papers via UPS Ground but are fully regulated when transported via aircraft. Hazardous Materials are accepted for transportation in UPS 3 Day Select only in passenger aircraft quantities prepared according to the requirements set forth in either Title 49 of the Code of Federal Regulations (49 C.F.R.) or in the International Air Transport Association regulations (IATA) and the [UPS Guide for Shipping Ground and Air Hazardous Materials](#), available at ups.com.

Other Regulated Materials (ORM-D)

Other Regulated Materials (ORM-D) packages are accepted for transportation without a contract within the

48 contiguous states when properly packaged, marked and shipped via UPS Ground.

UPS Standard to Canada is available for ORM-D shipments without a contract, provided the shipper has reviewed the required checklist and service restrictions with a UPS representative.

ORM-D (Consumer Commodity) packages shipped via UPS domestic air services and UPS 3 Day Select within the U.S. and Puerto Rico, as well as all UPS international services, are accepted for transportation on a contractual basis only.

UPS Express CriticalSM

UPS Express Critical accepts Hazardous Materials and International Dangerous Goods shipments via ground transportation or air charter service only (certain restrictions apply).

Dry Ice

UPS now accepts most non-Dangerous Goods shipments containing dry ice, without requiring the shipper to enter into the "UPS Dangerous Goods Agreement." Refer to page [68](#) for more information.

International Dangerous Goods (IDG)

UPS accepts International Dangerous Goods on a contract basis only. The [UPS Guide for Shipping International Dangerous Goods](#) should always be used in conjunction with the most current IATA *Dangerous Goods Regulations*. UPS only transports Dangerous Goods to and from IDG countries. The Dangerous Goods Service handling charge applies to all packages that require a "Shipper's Declaration of Dangerous Goods." Refer to page [116](#) for fees.

Domestic, Export and Import Service Restrictions

Alcoholic Beverages

Packages containing alcoholic beverages (beer, wine or spirits) are accepted for transportation only on a contractual basis. Shippers must be licensed and authorized under applicable law to ship alcoholic beverages. UPS does not accept packages containing beer or spirits for delivery to consumers. To receive service for packages containing alcoholic beverages, the shipper must sign a contract and agree to the provisions set forth in the approved UPS agreement for the transportation of alcoholic beverages shipments.

C.O.D.

Collect on Delivery (C.O.D.) service is not available for international services except for U.S. imports from Canada. C.O.D. service is also not available when using a UPS 3 Day SelectSM or a UPS Ground shipping document.

Firearms

Firearms will be accepted for transportation only according to the "UPS Tariff/Terms and Conditions" at [ups.com/terms](https://www.ups.com/terms).

Jewelry

International shipments containing jewelry (not including costume jewelry) are limited to a maximum value of \$500.00 per package.

Maximum Length

The maximum length per package is 108 inches or 274 centimeters.

Maximum Size

The maximum size per package including shipments to and from Canada is 165 inches or 419 centimeters in length and girth [(2 x width) + (2 x height)] combined. For irregularly shaped air and ground packages, refer to page 21 for instructions.

The maximum size per import package is 130 inches or 330 centimeters in length and girth [(2 x width) + (2 x height)] combined.

Maximum Value

Shippers are prohibited from shipping, and UPS does not accept for transportation, packages having a value of more than \$50,000.00. Additionally, more restrictive value limits apply for certain packages, including packages shipped as a result of a request for service made through the Internet by a shipper who has paid with a credit card; packages returned via Print Return Label, Print and Mail Return Label, Electronic Return Label or 1 UPS Pickup Attempt Return Services; packages shipped via a UPS Drop Box; and Prepaid Letters and packages shipped using Shipper Release.

Refer to the "UPS Tariff/Terms and Conditions" at [ups.com/terms](https://www.ups.com/terms) for more information on maximum allowable values and liability limitations.

Maximum Weight

For domestic shipments, the maximum actual weight per package is 150 pounds. For international shipments, the maximum weight of a package may vary by destination or origin. Call the UPS International Customer Service Center at 1-800-782-7892 for more information.

Maximum Weight for a Hazardous Materials and International Dangerous Goods Package

The maximum weight for a Hazardous Materials and International Dangerous Goods package is 70 pounds, unless further restricted by the regulations set forth in 49 C.F.R. or IATA regulations. Maximum weight for a non-Hazardous Materials shipment containing dry ice is 150 pounds. Consult the [UPS Guide for Shipping Ground and Air Hazardous Materials](#) at [ups.com](https://www.ups.com)[®] or call the Hazardous Materials Support Center at 1-800-554-9964 for more information.

Tobacco

Packages containing tobacco or tobacco products, as those terms are variously defined under applicable state law ("Tobacco Product Shipments"), are accepted for transportation only from shippers who are licensed and authorized to ship tobacco and tobacco products pursuant to applicable laws. Tobacco Product Shipments shipped to a consumer will only be accepted for transportation as a contractual service. However, because UPS prohibits shipments of cigarettes to consumers under any circumstances, UPS does not offer a contractual service for the delivery of cigarettes to consumers. To receive service for Tobacco Product Shipments shipped to a consumer, the shipper must sign and agree to the provisions set forth in an approved UPS agreement for the transportation of tobacco products. For all other service for Tobacco Product Shipments, the consignee must be licensed and authorized to receive tobacco or tobacco products pursuant to all applicable federal, state, provincial or local laws or regulations and the shipment must

conform to the terms, conditions, restrictions and prohibitions set forth at [ups.com/tobacco](https://www.ups.com/tobacco) at the time of shipping. It is the responsibility of the shipper to ensure that a shipment tendered to UPS, including a Tobacco Product Shipment, does not violate any federal, state, provincial or local laws or regulations applicable to the shipment. All shipments, including shipments containing tobacco products, will be accepted for transportation only according to the "UPS Tariff/Terms and Conditions."

Tobacco products may not be shipped from locations of The UPS Store®, UPS Drop Box, any UPS Customer Center, UPS Alliance Locations (Office Depot® and Staples®) or any UPS Authorized Shipping Outlet®. Prepaid tobacco drop-offs may be accepted at locations of The UPS Store and Mail Boxes Etc.®, Inc. Please call 1-800-Pick-UPS® for more information.

UPS Returns®

UPS Returns services are not provided via UPS Next Day Air Saver® and UPS 2nd Day Air A.M.® Hazardous Materials or Dangerous Goods packages requiring shipping papers or packages containing firearms cannot be retrieved via UPS Returns services. See the UPS Tariff/Terms and Conditions at [ups.com/terms](https://www.ups.com/terms) for value limits on UPS Returns services packages. Multiple-piece shipments are not available for UPS Returns services shipped within the 50 states and Puerto Rico.

*Alcoholic beverages are accepted for transportation only to certain states. Please call 1-800-Pick-UPS to determine in which states UPS accepts such shipments.

**Limited shipping of personal effects is available at all locations of The UPS Store and any UPS Customer Center.

Note: For additional service restrictions, refer to the "UPS Tariff/Terms and Conditions" at [ups.com/terms](https://www.ups.com/terms).

Packaging Guidelines

Shipping Checklist

Make sure you:

- Use a rigid box with flaps intact.
- Remove old labels, Hazardous Materials indicators and other previous shipment markings.
- Wrap items separately.
- Use adequate cushioning material.
- Use strong tape designed for shipping.
- Do not use string or paper over-wrap.
- Use a single address label that has clear, complete delivery and return addresses.
- Place a duplicate address label inside the box.

Step-by-Step

These four steps cover the key considerations in packing most articles to help allow for safe transport through the distribution environment.

1. Use a corrugated box.

Use a new or “almost new” corrugated box. The more a box is used, the more

it loses its original protective qualities and may not adequately protect your shipment. If you must reuse a box,

make sure it is rigid and in excellent condition with no punctures, tears, rips or corner damage, and that all flaps are intact. Shoe boxes, gift boxes or other paperboard boxes are not recommended. Remove old address labels and Hazardous Materials indicators such as diamond labels and markings, as well as delivery markings and barcodes from the previous shipment.

UPS recommends choosing a box strength that is suitable for its contents,

based on the Box Strength Guidelines. Never exceed the maximum gross weight limit for the box,

which is printed on the *Box Maker's Certificate* on the bottom flap of most boxes.

After years of testing and analysis, engineers at the Package Lab have developed box strength specifications for single-package distribution. Refer to the chart below for recommendations in determining the proper size and maximum gross weight limit of a box.

How to use the Box Strength Guidelines chart (see below):

1. Weigh items to be shipped. (A double-wall corrugated container should be used for any item(s) weighing more than 80 pounds.)

| Box Strength Guidelines | | | |
|--|--|---|---|
| A Maximum Weight of Box and Contents (lbs.) | B Size Limit of Box (inches)* L + W + H | C Bursting Test (lbs. per sq. in.) | D Edge Crush Test (ECT) (lbs. per in. width) |
| SINGLE-WALL CORRUGATED CONTAINERS | | | |
| 30 | 75 | 200 | 32 |
| 40 | 75 | 200 | 40 |
| 50 | 85 | 250 | 44 |
| 65 | 95 | 275 | 55 |
| 80 | 105 | 350 | N/A |
| DOUBLE-WALL CORRUGATED CONTAINERS | | | |
| 60 | 85 | 200 | 48 |
| 80 | 95 | 275 | 51 |
| 100 | 105 | 350 | 61 |
| 120 | 110 | 400 | 71 |
| 140 | 115 | 500 | 82 |
| 150 | 120 | 600 | N/A |

The above box strengths are only guidelines to help assure the containment and protection of products transported through single-package distribution environments. They are not to be considered packaging specifications, and all packaged products should be tested in accordance with the International Safe Transit Association (ISTA) Test Procedure 3A to ensure the most appropriate level of product protection is achieved.

*The size limits on the above chart refer to the maximum size of a box that can be manufactured based on the strength of the corrugated material. The size limits specified in this chart and on the Box Maker's Certificate are unrelated to length and girth measurements used by UPS for dimensional measurements. Refer to page 22 for how to calculate dimensional measurements.

Other packaging supplies are sold at [locations of The UPS Store®](#) and any UPS Customer Center. Simply leave it to the packing experts at The UPS Store to prepare your shipment for you.

Packaging Guidelines

Step-by-Step (continued)

2. Measure and add together the length, width and height of the box.

3. Select the appropriate row where the criteria in both columns A and B are met.

4. Use column C to identify the recommended Bursting Test strength box. Or, use column D to identify the recommended Edge Crush Test strength box. At least one of these specifications can be found on the *Box Maker's Certificate*.

To prepare packages for UPS shipment, you can use your own packaging or one of a variety of containers provided free of charge for selected UPS services. To order these supplies, please visit the "Order Supplies" Quick Link on the ups.com® home page.

2. Provide internal protection.

It's important to cushion the contents of your package properly.

Wrap each item separately. Surround each item with at least two inches of cushioning, and place items at least

two inches away from the walls of the box. This will prevent product-against-product damage and protect the contents from shock and vibration which can pass from the outside of the box to the contents.

Proper cushioning material, combined with a strong outer container, will

protect your shipment. Use enough cushioning material to ensure that the contents cannot move when you shake the box.

Clothing, blankets and pillows are not proper cushioning materials.

Fragile articles, such as electronics, glass, ceramics and artwork, need suitable separation from each other and from the corners, sides, top and bottom of the box. These articles may require special packaging, added cushioning or a double box for safe shipment. Please refer to ups.com for additional information.

Materials used for cushioning and protection:

| | |
|---|---|
| Air-encapsulated plastic (bubble pack) | <ul style="list-style-type: none"> – Protect and cushion lightweight items. – Use multiple wraps/layers, especially around corners and edges. |
| Inflatable packaging (air bags) | <ul style="list-style-type: none"> – Use as void-fill material for lightweight items. – Can be preformed to provide proper cushioning performance for specific products. – Extreme hot or cold temperatures may affect the ability of air bags to provide adequate product protection. – Not recommended for items with sharp corners or edges. |
| Expanded polystyrene "peanuts" | <ul style="list-style-type: none"> – Use as void-fill material for lightweight items. – Overfill box with peanuts, then gently close flaps and seal. – Recommend minimum of three inches of cushioning be used around contents. – Recommend using flat pieces of corrugated board between contents and peanuts. – Not recommended for use with flat, narrow or dense products that may migrate to the edge or bottom of carton during transit. |
| Engineered foam enclosures | <ul style="list-style-type: none"> – Should be preformed for specific products for proper cushioning performance. – Materials may include expanded polystyrene, polyethylene, polypropylene or copolymers. |
| Foam-in-place | <ul style="list-style-type: none"> – Sprayed into box or mixed in packets to form a protective, molded cushion around the product. – Good cushioning when evenly distributed around contents. – Select appropriate density of foam to meet packaging needs. |
| Corrugated board | <ul style="list-style-type: none"> – Can be laminated together to form blocks or pads. – Can be die-cut, slit or scored to form trays, partitions or liners. – Not recommended for fragile items. |
| Crumpled kraft paper | <ul style="list-style-type: none"> – Newspaper is not appropriate. – Use as void-fill material for light- to medium-weight, non-fragile items. – Tightly crumple paper around product. – Use at least four inches of paper around and between contents. |
| Paper cushioning | <ul style="list-style-type: none"> – Multi-layered paper fed through a crumpling machine to create padding. – Ideal for wrapping medium- to large-sized, non-fragile items and those that may require moisture absorption. – Excellent for void-fill. |

Step-by-Step (continued)

3. Close it securely.

Proper closure is just as important as adequate cushioning.

To close a box securely, apply three strips of tape to both the top and bottom of the box, so the middle and two edge seams are sealed. Use a strong tape such as the types described below:

- Pressure-sensitive plastic or nylon-reinforced tape
 - At least two inches or more in width is recommended.
 - Generally, the easiest, most convenient tape to use, it will adhere without water and can stick to a variety of surfaces and shapes.
- Water-activated reinforced tape
 - Use 60-pound grade tape at least three inches wide.
 - Reinforced fibers in the tape provide additional strength, making it less susceptible to splitting or tearing.
 - Caution: Adhesion to the container may be affected by elements such as high humidity, wetness of tape or dust.

Do not use masking, cellophane, duct or water-activated paper tapes. Also, do not use string or paper over-wrap.

4. Use proper labeling.

For timely and accurate delivery, keep these points in mind when labeling your package:

- Always include the receiver's complete address and ZIP Code™. For international shipments, include a contact name, telephone number and postal code.

- Make every effort to obtain a street address. If you do use a P.O. Box address, the recipient's telephone number *must*

- be included on the label. A package addressed to a P.O. Box may experience delays and will not be covered by any UPS Service Guarantee. An Address Correction charge also will apply. Refer to page 68 or 116 for fees. Army Post Office (APO) and Fleet Post Office (FPO) addresses are not accepted by UPS.
- Include the suite, apartment or unit number, if applicable. Failure to do so may subject the shipper to an Address Correction charge.
- Always include your complete return address with full street address and ZIP Code. For international shipments, include a contact name, telephone number and postal code.
- Place the shipping label on the top of the box. To avoid confusion, place only one address label on the box. If using a packing slip, place it on

the same surface of the box as the address label.

- Do not place the label on a seam, edge, closure or on top of sealing tape.
- Remove or cross out old labels or markings.
- Place a duplicate label or other form of address information inside the package.
- If using a mailing tube, place the label horizontally, with the sides of the label pointing toward the ends of the tube, so the barcode can be scanned. If labeling an irregularly shaped item, make sure the label is placed on a flat surface to allow for scanning.

- The smart labels produced by UPS WorldShip™, UPS Internet Shipping, UPS CampusShip™, UPS OnLine™ Shipping Tool and a UPS Ready™ solution include barcodes and routing codes that help ensure accurate routing and prompt delivery of your shipments. In addition, the use of smart labels allows for fast access to tracking and delivery information.
- UPS does not provide special handling for packages with "Fragile," package orientation (e.g., "UP" arrows or "This End Up" markings) or any other similar markings.

Special Packaging Needs

If you ship the following items, consider their special packaging needs.

Bundled or Strapped Boxes

Only same-sized boxes may be strapped together. Use a minimum of four criss-crossed bands, two in each direction. An address label must be placed on each box. When strapping boxes together, each box must be strong enough to hold the total weight of the strapped bundle. For example, if two 15-pound boxes are banded together into a 30-pound package, both components should be in boxes with at least a 30-pound weight capacity. An Additional Handling charge may apply. Refer to page [68](#) for more information.

Electronic Media

To ship electronic media that contain sensitive personal information (such as personal financial or health information), we recommend that you do not use an envelope, letter packaging, UPS ExpressSM Envelope, UPS ExpressSM Pak or UPS ExpressSM Pad Pak. UPS provides special packaging, the UPS ExpressSM Hard Pak, which is designed to help you ship sensitive electronic media. Call 1-800-Pick-UPS[®] or your sales representative for more information. You can also ship electronic media containing sensitive personal information by packaging it with a duplicate shipping label in an inner container that can be securely sealed. Place the inner container in a new outer corrugated box (double box). Seal all flaps securely. Prior to packaging, mark the electronic media with identifiable information such as your company name, reference number or your UPS shipping number. Additionally, the shipper should retain a copy of the data and secure the data on the electronic media through encryption or other technological means.

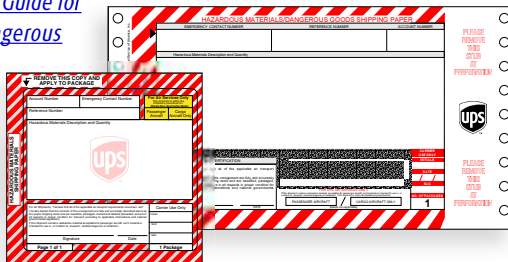

Fabric and Wallpaper

Rolled goods travel best when shipped in corrugated boxes. If a fabric or wallpaper roll is shipped in a bag, UPS recommends a bag with a minimum thickness of six mils. Make sure the bag is tightly wrapped and taped against the roll to reduce the risk of tearing. A tail on an item shipped in a bag must be compressed to the body of the item using tape. Place the address label on a flat surface of the item being shipped. Place duplicate address labels inside cores or between top layers of material. An Additional Handling charge may apply. Refer to page [68](#) for more information.

Hazardous Materials and Dangerous Goods

Please refer to pages [9](#) and [10](#) for service restrictions related to shipping Hazardous Materials and Dangerous Goods. For additional information on this contract-only service, refer to the [UPS Guide for Shipping Ground and Air Hazardous Materials](#) or [UPS Guide for Shipping International Dangerous Goods](#) at ups.com.

Irregularly Shaped Items and Bare Metals

Tape the address label on a flat surface of the item being shipped. Cover the label with clear tape. Do not use “flying tags” attached by string or metal. Blunt all sharp or protruding edges with taped-on, corrugated cardboard pieces. Protect the surface of the item as needed. An Additional Handling charge will apply. Refer to page [68](#) for more information.

Large and/or Heavy Packages

Packaging materials need to be evaluated carefully for packages weighing more than 70 pounds.

A UPS Heavy Package sticker is required whenever you ship packages weighing more than 70 pounds. Place the sticker to the right of the address label and write the package’s weight in the white box. It also helps to highlight every side of your package with Heavy Package highlight tape. This sends warning to those who risk lifting your package, both your employees and ours. Visit the “Order Supplies” Quick Link on the ups.com home page or call 1-800-Pick-UPS® to request Heavy Package stickers and highlight tape. An Additional Handling charge will apply. Refer to page [68](#) for fees.

Container

- When packaging both large and/or heavy packages, the shipping container needs to be of strong construction. Identify the strength of the box by checking the *Box Maker’s Certificate* to make sure the size limit and gross weight limit are not exceeded. For recommendations on determining the proper size and gross weight limit of a box for individual package shipments, refer to the Box Strength Guidelines chart on page [15](#).
- Containers made from materials other than corrugated board (such as wood or plastic) should be constructed as appropriate for the product’s weight and size to provide adequate protection.
- Use a box that has not been compromised by humidity, extended storage or prior-use wear and tear.

Cushioning

- Select appropriate cushioning materials (such as engineered foam enclosures, foam-in-place or custom corrugated board) to provide adequate protection for the product’s size and weight configuration.
- Expanded polystyrene “peanuts” and crumpled paper may not be appropriate for large and/or heavy packages as they may crush, shift or settle and expose the product to a high risk of damage.

Closure

- Seal with heavy-duty tape, preferably reinforced, by applying three strips to both the top and bottom of the box so the middle and two edge seams are sealed.

Special Packaging Needs

Tires

Apply a wide band of pressure-sensitive tape through the center and completely around the body of the tire so that the tape is attached to itself. Attach your address label to the tape band where it covers the tread. Cover the entire label with clear tape. An Additional Handling charge will apply. Refer to page [68](#) for more information.

Packaging Assistance

Package Lab

The Package Lab helps customers find effective and cost-efficient packaging for products. Packaging engineers evaluate the current or proposed package, conduct a variety of industry-accepted tests and prepare a written report that recommends modifications to improve performance, economy and efficient use of materials. The Package Lab also monitors the latest developments in package-testing research worldwide. Contact the Package Lab at package-testing@ups-psi.com or call 1-877-877-7229 for more details and pricing information.

Determine the Weight and Size

For All Domestic and International Shipments

– **Shipping rates** are based on package weight and size (explained below and on the following page) and origin-to-destination distance (refer to page [35](#) for Domestic, page [70](#) for Export and page [96](#) for Import).

– **Actual weight** is the package weight rounded up to the next whole pound.

– **Dimensional weight** reflects package density, which is the amount of space a package occupies in relation to its actual weight. Calculations of dimensional weight are based on the International Air Transport Association (IATA) volumetric standards (subject to change without notice). Dimensional weight may apply to all UPS domestic and international package services except UPS Express CriticalSM.

– **Billable weight** is the weight used to calculate the rate. For domestic and international services, the billable weight will be the greater of the dimensional weight as compared to the actual weight.

– Irregularly Shaped Packages:

Measure boxes or containers that are not rectangular to determine the package measurements and whether the package is within maximum limits. Treat the irregularly shaped package as if it were in a regular rectangular box. Measure the length, width and height of the package from its extreme points.

– Items Shipped in Bags:

Shape – When multiple items are shipped in a flexible container (e.g., burlap or plastic bag), the package measurements will be determined when the exterior is at rest. As this shape will differ from placement to placement, cubic size or package measurements will be made at the sole discretion of UPS.

Tails – A tail on an item shipped in a bag should be measured for the amount of space it takes up in a reasonably compressed fashion. Any tail that is created by placing an item in a bag must be compressed and taped to the body of the item.

– **Packages that exceed UPS weight and size limits are not accepted for transportation.** If found in the UPS system, they are subject to an Over Maximum Limits charge. Refer to page [69](#) or [116](#) for more information. For Maximum Weight service restrictions, refer to page [10](#).

Follow the instructions on the following page to determine the billable weight for your shipments.

Determine the Weight and Size

For All Domestic and International Shipments (continued)

Notes:

- For a multiple-package international shipment (excluding UPS Standard to Canada), add the result for all of the packages together. The total is the cubic size of the shipment. (If you are using a UPS Shipping Record book, each international package is considered a separate shipment for billing purposes.)
- Size limits indicated by a box manufacturer may not reflect exterior dimensions of a package, including where a package may have bulges or otherwise may not be uniform across each plane, and should not be used as a substitute for actual length, width and height measurements in determining dimensional weight.

How to determine billable weight.

1. Determine actual weight.

Use any standard scale and round up any fraction of a pound to the next whole pound.

2. Determine **dimensional weight**.

Determine the package dimensions in inches. Multiply the package length by the width by the height. For each dimension, measure the largest distance, rounding each measurement to the nearest whole number (for example 1.00 to 1.49 will be considered 1, and 1.50 to 1.99 will be considered 2). The result is the cubic size in inches.

For domestic shipments:

UPS Air shipments – Divide the cubic size in inches by 194 to determine dimensional weight in pounds. Increase any fraction to the next whole pound.

UPS Ground shipments – If the cubic size of the package in inches is 5,184 or larger, divide the cubic size by 194 to determine dimensional weight in pounds. If the cubic size in inches is less than 5,184, use the actual weight of the package.

For international shipments:

UPS Worldwide Express PlusSM, UPS Worldwide Express NA1[®], UPS Worldwide ExpressSM, UPS Worldwide SaverSM, UPS Worldwide ExpeditedSM, UPS 3 Day SelectSM from Canada and UPS Standard from Canada shipments – For import shipments, use the origin country unit of measure to calculate the dimensional weight. For export shipments, divide the cubic size by 166 when measured in inches to determine the dimensional weight. Increase any fraction to the next whole pound.

For UPS Standard to Canada shipments

– If the cubic size of the package is 5,184 cubic inches or greater, divide the cubic size by 166 when measured in inches to determine the dimensional weight. Increase any fraction to the next whole pound.

If the cubic size is less than 5,184 cubic inches, use the actual weight of the package.

3. Determine billable weight.

Compare the shipment's actual weight to the dimensional weight. The greater of the two is the billable weight and should be used to calculate the rate.

For domestic shipments, UPS Standard to Canada and UPS Standard from Canada: Determine if Large Package rules apply.

A package is considered a "Large Package" when its length plus girth [(2 x width) + (2 x height)] combined exceeds 130 inches, but does not exceed the maximum UPS size of 165 inches.

Large Packages are subject to a minimum billable weight of 90 pounds. A Large Package Surcharge will apply; refer to page 69 for fees. An Additional Handling charge will not be assessed when a Large Package Surcharge is applied.

Domestic

$$\text{Dimensional Weight} = \frac{L \times W \times H}{194}$$

L = Length in inches

W = Width in inches

H = Height in inches

International

$$\left[\begin{array}{l} \text{Dimensional Weight} \\ \text{in Pounds} \end{array} \right] = \frac{L \times W \times H}{166}$$

L = Length in inches

W = Width in inches

H = Height in inches

$$\left[\begin{array}{l} \text{Dimensional Weight} \\ \text{in Kilograms} \end{array} \right] = \frac{L \times W \times H}{6,000}$$

L = Length in centimeters

W = Width in centimeters

H = Height in centimeters

UPS WorldShipTM, UPS Internet Shipping, UPS CampusShipSM, UPS OnLineSM Shipping Tool and a UPS ReadyTM solution will automatically calculate dimensional weight when you enter the package weight and measurements.

- You can process non-Hazardous Materials shipments that contain dry ice through both UPS WorldShip and UPS CampusShip.

Smart Labels

The smart labels provided by UPS WorldShip, UPS Internet Shipping, UPS CampusShip, UPS OnLine Shipping Tool and a UPS Ready™ solution include barcodes and routing codes that help

ensure accurate routing and prompt delivery of your shipments. In addition, the use of smart labels allows for fast access to tracking and delivery information.

Manual Processing

Air Shipping Documents (ASDs), UPS 3 Day SelectSM and UPS Ground Shipping Documents

Manual recording options combine an address label, a tracking label and a shipping record into one form. Detailed preparation instructions are printed on the reverse side of each form.

ASDs

ASDs are available for each of the following services:

- UPS Next Day Air[®] Early A.M.[®]
- UPS Next Day Air[®] (may also be used for UPS Worldwide ExpressSM)
- UPS Next Day Air Saver[®]

- UPS 2nd Day Air A.M.[®]
- UPS 2nd Day Air[®]

UPS 3 Day Select and UPS Ground Shipping Documents

Attach the completed form to the package and call 1-800-Pick-UPS to schedule a pickup.

A \$5.00 per-package manual processing service fee applies whenever a shipping document is used for UPS 3 Day Select and UPS Ground.

To request a shipping document, call 1-800-Pick-UPS.

Notes:

- Hazardous Materials and Dangerous Goods service is not available when using manual documentation.
- Be sure to keep the second copy of the shipping document.

To request an ASD, visit the "Order Supplies" Quick Link on the ups.com[®] home page or call 1-800-Pick-UPS[®].

For Saturday Delivery, each Express Envelope or package must bear a Saturday Delivery routing label.

UPS Worldwide Services Waybill

A manual recording option designed for international shipments.

- Detailed information fields to fully address your shipment and to include required customs information.
- Various billing options to specify how payment of charges is handled.
- Shipment-level detail enables shipment pricing and shipment tracking.
- With proper authorization, the U.S. Shipper's Export Declaration (S.E.D.) will be filed electronically by UPS on your behalf. Refer to page 114 for fees.

When you use a UPS Worldwide Services Waybill for multiple-package shipments to the same recipient, only the lead package requires a waybill.

Each additional package must have an address label and a UPS Worldwide Services Tracking Label.

Detailed preparation instructions are printed on the reverse side of the waybill.

Documenting an Export Shipment

UPS uses export and import documents you prepare to properly declare your shipment to customs in both the country of export and the country of import. The required documents are submitted to customs to determine the applicable duties and taxes in the destination country. This documentation may include:

- A commercial invoice.
- A U.S. Shipper's Export Declaration (S.E.D.).
- A Power of Attorney.
- A U.S. Certificate of Origin or a North American Free Trade Agreement (NAFTA) Certificate of Origin.
- Other documents based on value, nature and destination of shipment.

Refer to pages 27 to 31 for examples of export and import documents. Visit [ups.com/intl-forms](https://www.ups.com/intl-forms) to download a blank document or view a sample of a completed document.

Document Shipments:

A document is generally defined as a written, typed or printed communication of no commercial value. Call 1-800-782-7892 or visit [ups.com/globaladvisor](https://www.ups.com/globaladvisor) for a list of items that are classified as documents in your destination country. International documents shipped in an Express Envelope or in any other packaging generally do not require a commercial invoice or any other export forms.

Non-document Shipments:

International shipments containing items other than documents typically require one original and two copies of a commercial invoice in addition to the UPS Waybill or UPS OnLine®-generated shipping label. Packages destined for Puerto Rico require one original and one copy

of a commercial invoice in addition to the UPS Air Shipping Document or UPS OnLine-generated shipping label. Please call 1-800-782-7892 or visit [ups.com/globaladvisor](https://www.ups.com/globaladvisor) for specific country requirements. In addition to the commercial invoice, you may need to include a U.S. Certificate of Origin, NAFTA Certificate of Origin or S.E.D., based upon the guidelines below.

UPS PaperlessSM Invoice – UPS Paperless Invoice allows shippers to provide invoice commodity-level detail through electronic data upload to UPS, thus eliminating the need to print, match and attach commercial invoices to international shipments.

Because information is stored electronically, customers greatly reduce their chances of making manual errors when completing customs documentation. With UPS Paperless Invoice, the customer can be assured that the program will not allow incomplete customs paperwork to be submitted, which is one of the main reasons that shipments can be held at the import site.

A registration process is required to have this service enabled. For additional information, please visit [ups.com/international](https://www.ups.com/international).

Commercial Invoice – A commercial invoice is required on all shipments containing goods. A commercial invoice is not required for document shipments. The commercial invoice is the primary document used for import control, valuation and duty determination. The document identifies the products being shipped and their values.

U.S. Certificate of Origin – This form is required by some importing countries for certain commodities. Please see the list of countries which require

a U.S. Certificate of Origin at [ups.com/globaladvisor](https://www.ups.com/globaladvisor) or call 1-800-782-7892. The purpose of the form is to authenticate the country of origin of the merchandise being shipped. Some nations restrict imports from certain countries; many countries limit the quantity of goods that are allowed to be imported or give preference to goods manufactured in certain countries. UPS can prepare a U.S. Certificate of Origin on behalf of the shipper. Refer to page 113 for fees and more information.

NAFTA Certificate of Origin – This form is used by Canada, Mexico and the U.S. (including Puerto Rico) to determine if goods imported into their countries receive a reduction in duty. In order to receive the benefits of reduced duty, you must attach the NAFTA Certificate of Origin to the commercial invoice if you have determined your commodity qualifies for reduced duty and:

- The shipment is of U.S. or Canada origin and Mexico destination with a value of \$1,000.00 USD or greater.
- The shipment is of U.S. or Mexico origin and Canada destination with a value of \$1,600.00 in Canadian dollars or greater.

Shipments valued less than the above amounts only require a statement on the commercial invoice requesting NAFTA preferential tariff treatment:

"I certify that the goods referenced in this commercial invoice comply with the origin requirements specified for these goods in the North American Free Trade Agreement, and that further processing or assembly outside the territories of the parties has not occurred subsequent to processing or assembly in the NAFTA region."

Note: International Dangerous Goods service requires a contract.

Documenting an Export Shipment

[Shipper's Export Declaration \(S.E.D.\)](#) –

The S.E.D. provides general information about your export transaction and is used for developing U.S. export statistics and controls. The form is only required in the following instances:

- If your shipment contains a commodity that has a value greater than \$2,500.00.
- If your shipment contains a commodity that requires an export license.

An S.E.D. is not required for shipments to Canada unless the commodities are being exported under an export license or license exemption or the shipment is destined for a third country.

UPS WorldShip™, UPS Internet Shipping, UPS CampusShipSM, UPS OnLineSM Shipping Tool and a UPS Ready™ solution that support full international service make it easy to complete a commercial invoice, S.E.D., U.S. Certificate of Origin or NAFTA Certificate of Origin. UPS WorldShip, UPS Internet Shipping and UPS CampusShip prompt you to complete required export documentation as you

process an international shipment. Additionally, UPS WorldShip enables you to automate your international documentation preparation through data import capabilities.

Enclose all required export documentation in the UPS Waybill pouch or in an envelope marked "Export Documents." Securely affix pouch or envelope to the lead package.

Special Note for S.E.D. filers:

In order to file an S.E.D. electronically, users can log on directly to the U.S. Government Automated Export System (AES) website at aesdirect.gov to obtain the appropriate information for completing their UPS shipment. UPS recommends electronic filing with AESDirect as the preferred method for S.E.D. filing. UPS WorldShip, UPS Internet Shipping, UPS CampusShip and some UPS Ready solutions connect to AESDirect to allow customers to file their S.E.D. electronically with the Census Bureau and U.S. Customs and Border Protection. UPS does not charge a service fee when you file your S.E.D. with AESDirect.

UPS can file or create and file an S.E.D. on behalf of the shipper; however, all required data must be provided to UPS and the shipper must grant UPS Power of Attorney. UPS must obtain the shipper's EIN (Employer Identification Number), also known as the Tax ID number, in order to complete and file the S.E.D. A shipment will be delayed if all information, including the EIN, has not been provided. Refer to page [114](#) for fees.

UPS Routing Form – Take advantage of UPS-guaranteed import delivery options, including fixed import rates. Use the UPS Routing Form to instruct your international business partners to ship to you using UPS.

This form can be found and printed from the Support tab at ups.com[®]; click on "Documentation and Labels" in the "Preparing Your Package" section, select "UPS Routing Support" and then select "Download."

Commercial Invoice

Filling out a Commercial Invoice

Business or personal stationery may be used if it contains all the information shown on the blank commercial invoice.

Visit [ups.com/intl/forms](https://www.ups.com/intl/forms) to download a blank commercial invoice or view a sample copy of a completed commercial invoice. **Important:** A Destination Control Statement should be placed on the commercial invoice to ensure prompt delivery.

The form is titled "Invoice" and "Page 1". It is divided into several sections:

- From:** Includes fields for "From/Ship From", "Contact Name", "Company Name", "Address", "City/State/Postal/County", "Postal Code/Country/Territory", and "Phone".
- Ship To:** Includes fields for "To/Ship To", "Contact Name", "Company Name", "Address", "City/State/Postal/County", "Postal Code/Country/Territory", and "Phone".
- Sold To:** Includes fields for "To/Sold To", "Contact Name", "Company Name", "Address", "City/State/Postal/County", "Postal Code/Country/Territory", and "Phone".
- Description of Goods Table:** A table with columns: "Units", "LBN", "Description of Goods/Part Number", "Harmonized Code", "GSI", "Unit Value", "Total Value", and "Currency".
- Declaration Statement:** A box for providing a declaration about the goods.
- Shipper's Signature:** A line for the shipper's signature and date.
- Summary:** Fields for "Total Number of Packages" and "Total Weight".

Key Areas:

- 1 Tax ID is an optional field.
- 2 Date is a required field.
- 3 All contact information is required.
- 4 These fields are optional; you can enter the tracking number in the waybill number or shipment ID field. You can choose to enter reference information.
- 5 Tax ID is an optional field.
- 6 All contact information is required for Ship To and Sold To. Brokers assign duties and taxes to the sold-to party.
- 7 To ensure accurate classification and rating by the importing country, you can add a harmonized code for your product. To find the HTS (Harmonized Tariff Schedule) code, refer to the Harmonizer on UPS TradeAbility® – [ups.com/tradeability](https://www.ups.com/tradeability).
- 8 In this space, list each product. You are required to complete the following information: number of units, units of measure, description of goods, unit value, total value, currency and total weight.
- 9 The following text should be placed in the declaration statement box: "These commodities, technology or software were exported from the U.S. in accordance with the Export Administration Regulations. Diversion contrary to U.S. law is prohibited."
- 10 Your signature is required.

Note: Incoterms refer to the billing arrangement and terms of sale; for instance, FOB (Free on Board), CIF (Cost, Insurance and Freight), DDU (Delivered Duty Unpaid).

Submit your commercial invoices electronically through UPS PaperlessSM Invoice. Refer to page 25 for more information.

U.S. Certificate of Origin

Filling out a U.S. Certificate of Origin

In addition to the one original and two copies of a commercial invoice, a U.S. Certificate of Origin is required to clear customs in many countries. Call 1-800-782-7892 to determine if your shipment will require a U.S. Certificate of Origin. Visit [ups.com/intl/forms](https://www.ups.com/intl/forms) to download a blank U.S. Certificate of Origin or view a sample copy of a completed U.S. Certificate of Origin. **Important:** Your U.S. Certificate of Origin must be notarized and signed by your local Chamber of Commerce.

NAFTA Certificate of Origin

Filling out a NAFTA Certificate of Origin for Shipments to Canada and Mexico

For goods that are made in a NAFTA country and meet NAFTA eligibility requirements, a NAFTA Certificate of Origin should be included along with one original and two copies of the commercial invoice. This certificate will allow goods that are NAFTA-eligible originating under the NAFTA Rules of Origin to qualify for the reduced or eliminated duty provisions under the North American Free Trade Agreement.

For information regarding eligibility under the North American Free Trade Agreement, contact your local U.S. Customs and Border Protection office. Visit [ups.com/intl-forms](https://www.ups.com/intl-forms) to download a blank NAFTA Certificate of Origin or view a sample copy of a completed NAFTA Certificate of Origin.

The form is titled "NORTH AMERICAN FREE TRADE AGREEMENT CERTIFICATE OF ORIGIN" and is issued by the U.S. Department of Homeland Security, Bureau of Customs and Border Protection. It includes the following sections and callouts:

- 1:** Exporter information (Name, Address, City, State, ZIP, Country).
- 2:** Blanket period (To: Date, To: Date).
- 3:** Tax ID number (U.S. Tax ID No. or Foreign Tax ID No.).
- 4:** Importer information (Name, Address, City, State, ZIP, Country).
- 5:** Table for goods with columns for Description, HS Code, Origin, Net Cost, and Country of Origin.
- 6:** Signature section (Signature, Title, Date, Telephone Number).

Key Areas:

- 1 The exporter information, including tax ID number, is required. A U.S. tax ID number is the Employer Identification Number or Social Security Number.
- 2 The blanket period is optional. You need only provide if the certificate covers multiple shipments of identical goods for a specified time period.
- 3 List the producer information, if different from the exporter, or state "UNKNOWN" if the producer information is not known.
- 4 The importer information, including tax ID number, is required. A tax ID number in Mexico is the federal taxpayer's registry number (RFC); in Canada it is the employer number or importer/exporter number assigned by Revenue Canada.
- 5 All the following information is required: description of goods, tariff classification number, preference criteria, whether or not you are the producer of the good, net cost and country of origin.
- 6 The form must be signed and dated.

Note: Refer to the next page or [ups.com/intl-forms](https://www.ups.com/intl-forms) for a full set of instructions on completing the NAFTA Certificate of Origin, including a description of the preference criteria.

PAPERWORK REDUCTION ACT NOTICE: This information is needed to carry out the terms of the North American Free Trade Agreement (NAFTA). NAFTA requires that, upon request, an importer must provide Customs with proof of the exporter's written certification of the origin of the goods. The certification is essential to substantiate compliance with the rules of origin under the Agreement. You are required to give us this information to obtain a benefit.

The estimated average burden associated with this collection of information is 15 minutes per respondent or recordkeeper depending on individual circumstances. Comments concerning the accuracy of this burden estimate and suggestions for reducing this burden should be directed to U.S. Customs Service, Paperwork Management Branch, Washington DC 20229. Do not send completed forms to this office.

NORTH AMERICAN FREE TRADE AGREEMENT CERTIFICATE OF ORIGIN INSTRUCTIONS

For purposes of obtaining preferential tariff treatment, this document must be completed legibly and in full by the exporter and be in the possession of the importer at the time the declaration is made. This document may also be completed voluntarily by the producer for use by the exporter. Please print or type:

- FIELD 1:** State the full legal name, address (including country) and legal tax identification number of the exporter. Legal taxation number is: in Canada, employer number or importer/exporter number assigned by Revenue Canada; in Mexico, federal taxpayer's registry number (RFC); and in the United States, employer's identification number or Social Security Number.
- FIELD 2:** Complete field if the Certificate covers multiple shipments of identical goods as described in Field #5 that are imported into a NAFTA country for a specified period of up to one year (the blanket period). "FROM" is the date upon which the Certificate becomes applicable to the good covered by the blanket Certificate (it may be prior to the date of signing this Certificate). "TO" is the date upon which the blanket period expires. The importation of a good for which preferential treatment is claimed based on this Certificate must occur between these dates.
- FIELD 3:** State the full legal name, address (including country) and legal tax identification number, as defined in Field #1, of the producer. If more than one producer's good is included on the Certificate, attach a list of additional producers, including the legal name, address (including country) and legal tax identification number, cross-referenced to the good described in Field #5. If you wish this information to be confidential, it is acceptable to state "Available to Customs upon request". If the producer and the exporter are the same, complete field with "SAME". If the producer is unknown, it is acceptable to state "UNKNOWN".
- FIELD 4:** State the full legal name, address (including country) and legal tax identification number, as defined in Field #1, of the importer. If the importer is not known, state "UNKNOWN"; if multiple importers, state "VARIOUS".
- FIELD 5:** Provide a full description of each good. The description should be sufficient to relate it to the invoice description and to the Harmonized System (H.S.) description of the good. If the Certificate covers a single shipment of a good, include the invoice number as shown on the commercial invoice. If not known, indicate another unique reference number, such as the shipping order number.
- FIELD 6:** For each good described in Field #5, identify the H.S. tariff classification to six digits. If the good is subject to a specific rule of origin in Annex 401 that requires eight digits, identify to eight digits, using the H.S. tariff classification of the country into whose territory the good is imported.
- FIELD 7:** For each good described in Field #5, state which criterion (A through F) is applicable. The rules of origin are contained in Chapter Four and Annex 401. Additional rules are described in Annex 703.2 (certain agricultural goods), Annex 300-B, Appendix 6 (certain textile goods) and Annex 308.1 (certain automatic data processing goods and their parts). **NOTE: In order to be entitled to preferential tariff treatment, each good must meet at least one of the criteria below.**

Preference Criteria

- A** The good is "wholly obtained or produced entirely" in the territory of one or more of the NAFTA countries as referenced in Article 415. **Note: The purchase of a good in the territory does not necessarily render it "wholly obtained or produced".** If the good is an agricultural good, see also criterion F and Annex 703.2. (Reference: Article 401(a) and 415)
- B** The good is produced entirely in the territory of one or more of the NAFTA countries and satisfies the specific rule of origin, set out in Annex 401, that applies to its tariff classification. The rule may include a tariff classification change, regional value-content requirement, or a combination thereof. The good must also satisfy all other applicable requirements of Chapter Four. If the good is an agricultural good, see also criterion F and Annex 703.2. (Reference: Article 401(b))
- C** The good is produced entirely in the territory of one or more of the NAFTA countries exclusively from originating materials. Under this criterion, one or more of the materials may not fall within the definition of "wholly produced or obtained", as set out in Article 415. All materials used in the production of the good must qualify as "originating" by meeting the rules of Article 401(a) through (d). If the good is an agricultural good, see also criterion F and Annex 703.2. (Reference: Article 401(c))
- D** Goods are produced in the territory of one or more of the NAFTA countries but do not meet the applicable rule of origin, set out in Annex 401, because certain non-originating materials do not undergo the required change in tariff classification. The goods do nonetheless meet the regional value-content requirement specified in Article 401(d). This criterion is limited to the following two circumstances:
1. The good was imported into the territory of a NAFTA country in an unassembled or disassembled form but was classified as an assembled good, pursuant to H.S. General Rule of Interpretation 2(a), or
 2. The good incorporated one or more non-originating materials, provided for as parts under the H.S., which could not undergo a change in tariff classification because the heading provided for both the good and its parts and was not further subdivided into subheadings, or the subheading provided for both the good and its parts and was not further subdivided.
- NOTE: This criterion does not apply to Chapters 61 through 63 of the H.S. (Reference: Article 401(d))**
- E** Certain automatic data processing goods and their parts, specified in Annex 308.1, that do not originate in the territory are considered originating upon importation into the territory of a NAFTA country from the territory of another NAFTA country when the most-favored-nation tariff rate of the good conforms to the rate established in Annex 308.1 and is common to all NAFTA countries. (Reference: Annex 308.1)
- F** The good is an originating agricultural good under preference criterion A, B, or C above and is not subject to a quantitative restriction in the importing NAFTA country because it is a "qualifying good" as defined in Annex 703.2, Section A or B (please specify). A good listed in Appendix 703.2B.7 is also exempt from quantitative restrictions and is eligible for NAFTA preferential tariff treatment if it meets the definition of "qualifying good" in Section A of Annex 703.2. **NOTE 1: This criterion does not apply to goods that wholly originate in Canada or the United States and are imported into either country. NOTE 2: A tariff rate quota is not a quantitative restriction.**
- FIELD 8:** For each good described in Field #5, state "YES" if you are the producer of the good. If you are not the producer of the good, state "NO" followed by (1), (2), or (3), depending on whether this certificate was based upon: (1) your knowledge of whether the good qualifies as an originating good; (2) your reliance on the producer's written representation (other than a Certificate of Origin) that the good qualifies as an originating good; or (3) a completed and signed Certificate for the good, voluntarily provided to the exporter by the producer.
- FIELD 9:** For each good described in Field #5, where the good is subject to a regional value content (RVC) requirement, indicate "NC" if the RVC is calculated according to the net cost method; otherwise, indicate "NO". If the RVC is calculated over a period of time, further identify the beginning and ending dates (DD/MM/YY) of that period. (Reference: Articles 402.1, 402.5)
- FIELD 10:** Identify the name of the country ("MX" or "US" for agricultural and textile goods exported to Canada; "US" or "CA" for all goods exported to Mexico; or "CA" or "MX" for all goods exported to the United States) to which the preferential rate of customs duty applies, as set out in Annex 302.2, in accordance with the Marking Rules or in each party's schedule of tariff elimination.
- For all other originating goods exported to Canada, indicate appropriately "MX" or "US" if the goods originate in that NAFTA country, within the meaning of the NAFTA Rules of Origin Regulations, and any subsequent processing in the other NAFTA country does not increase the transaction value of the goods by more than seven percent; otherwise "JNT" for joint production. (Reference: Annex 302.2)
- FIELD 11:** This field must be completed, signed, and dated by the exporter. When the Certificate is completed by the producer for use by the exporter, it must be completed, signed, and dated by the producer. The date must be the date the Certificate was completed and signed.

Shipper's Export Declaration (S.E.D.)

Filling out an S.E.D.

Determine the Rate

DOMESTIC, EXPORT AND IMPORT

To determine the rate for domestic, export and import shipments (except UPS Express CriticalSM):

1. Choose a service (Domestic, pages [5](#) and [6](#); Export, page [7](#); Import, page [8](#)).
2. Compute the billable weight (refer to pages [21](#) and [22](#)).
3. Look up the shipping zone (Domestic zone chart information, page [35](#); Export, page [70](#); Import, page [96](#)).
4. Calculate the rate:
 - Use UPS WorldShipTM, UPS Internet Shipping, UPS CampusShipSM, UPS OnLineSM Shipping Tool, a UPS ReadyTM solution or the “[Calculate Time and Cost](#)” application on [ups.com](#)[®] to see the rate for your shipment.**

Or

- Follow the steps below to use the rate charts in this guide.
 1. Go to the pages listing the rates for the service option you’ve selected (Domestic rate charts begin on page [36](#); Export, page [83](#); Import, page [102](#)).
 2. Match the billable weight to the appropriate zone. Any fraction of a pound more than the weight shown in the rate chart is rounded up to the next whole pound (Domestic zone chart information, page [35](#); Export, page [70](#); Import, page [96](#)).
 3. Add surcharges if special options or value-added services are selected (Domestic, pages [64](#) to [69](#); Export and Import, pages [113](#) to [116](#)).

*Visit [ups.com](#) or call 1-800-Pick-UPS[®] for guarantee details, service availability, delivery time commitments or to request a pickup.

**Rates provided through UPS’s shipping systems are estimates only, and other shipping charges, surcharges and value-added service charges may apply based on your shipper characteristics and the characteristics of, and services requested for, packages actually tendered to UPS.

†Zone 124 includes metro Alaska.

Example:

For a UPS Next Day Air[®] Early A.M.[®] shipment weighing 40 pounds where the destination zone is 104, the rate would be \$153.15.

Refer to pages 64 to 69 for value-added services rates and other charges.

- Any fraction of a pound more than the weight shown in the rate chart is rounded up to the next whole pound.

- For large or heavy packages, additional charges may apply. Refer to pages 21 and 22 for large packages and page 19 for heavy packages.

- Dimensional weight may apply. Refer to pages 21 and 22 for more information.

- A Heavy Package sticker is required for any package weighing more than 70 pounds. Refer to page 19 for more information.

- Express Envelopes are not recommended for shipments of electronic media containing sensitive personal information.

*Visit [ups.com](https://www.ups.com)[®] or call 1-800-Pick-UPS[®] for guarantee details, service availability, delivery time commitments or to request a pickup.

**The Letter rate applies only to document, correspondence and electronic media shipments that do not exceed one pound sent in an Express Envelope. Express Envelopes exceeding one pound shipped via UPS 2nd Day Air A.M. are subject to the rate corresponding to the weight of the Express Envelope.

Note: UPS Standard to Canada is not available to Nunavut, the Northwest Territories or Yukon.

Export Shipment Pricing

UPS Worldwide Express PlusSM, UPS Worldwide ExpressSM, UPS Worldwide SaverSM, UPS Worldwide ExpeditedSM and UPS Standard to Canada

Shipment pricing is advantageous because rates are based on the total weight of a shipment, not the sum of the rates for each package in a shipment.

What Qualifies

1. You have multiple-package shipments picked up on the same day and shipped to a single consignee.

2. You use UPS WorldShipTM, UPS Internet Shipping, UPS CampusShipSM, UPS OnLineSM Shipping Tool or a UPS ReadyTM solution that supports full international service, or a UPS Worldwide Services Waybill.

What Does Not Qualify

Shipment pricing does not apply to Express Envelopes, the UPS 10 KG Box[®], the UPS 25 KG Box[®] or packages recorded in a UPS Shipping Record book; they are each considered separate shipments.

Rates

Rates are based on the total actual weight or the total dimensional weight of all packages in a shipment, whichever is greater. Refer to pages 21 and 22 for instructions on calculating dimensional and billable weight.

If the payer of the shipping charges is located in the origin country, the shipment will be charged the export rate (Origin Country Export Rates). When the payer of the shipping charges is located in the destination country, the shipment will be charged the import rate (Destination Country Import Rates). If the destination country does not have import rates, the shipment will be charged the export rate (Origin Country Export Rates). When the payer of the

shipping charges is located in a third country (neither origin nor destination country), the shipment will be charged the Origin Country Export Rates, except as otherwise agreed to by UPS and the contracting party.

For shipments weighing 150 pounds or less, locate the rate for the total weight of the shipment on the appropriate rate chart.

For shipments weighing more than 150 pounds, multiply the total weight (rounded to the next whole pound) by the appropriate price per pound. The amount billed will be the result of this calculation or the minimum rate shown, whichever is greater.

For a Standard to Canada shipment, the minimum charge for a multiple-package shipment will be based on an average weight of 15 pounds per package.

Customs Brokerage

For UPS Worldwide Express Plus, UPS Worldwide Express, UPS Worldwide

Saver and UPS Worldwide Expedited, rates include routine in-house customs clearance by UPS Supply Chain Solutions[®]. Additional charges will apply if customs clearance is performed by customs brokerage offices other than those designated by UPS for clearing the services listed above.

Customs clearance for the services listed is provided by the UPS Supply Chain Solutions customs brokerage offices designated by UPS for handling small package customs clearance. Other UPS Supply Chain Solutions customs brokerage offices charge fees for clearance of small packages and freight.

For UPS Standard to Canada, charges for customs clearance are not included in the rate. UPS will provide customs brokerage services, unless otherwise specified by the importer. Customs brokerage charges, duties and taxes will be billed to the importer, unless otherwise indicated by the shipper.

Note: Delivery times may vary by destination postal code.

Refer to pages 113 to 116 for value-added services rates and other charges.

- The rates shown are for shipments originating in the U.S.

- Any fraction of a pound more than the weight shown in the rate chart is rounded up to the next whole pound.

- Dimensional weight may apply. Refer to pages 21 and 22 for more information.

- **UPS On-Call Pickup[®]** is available at no additional charge.

- To determine the rate for international multiple-package shipments, refer to page 82.

- Express Envelopes are not recommended for shipments of electronic media containing sensitive personal information.

*Visit ups.com or call 1-800-Pick-UPS[®] for guarantee details, service availability, delivery time commitments or to request a pickup.

**The Letter rate applies only to document shipments sent in an Express Envelope. There is no weight limit.

- Any fraction of a pound more than the weight shown in the rate chart is rounded up to the next whole pound.

- Dimensional weight may apply. Refer to pages 21 and 22 for more information.

- For larger packages, additional charges may apply. Refer to pages 21 and 22 for more information.

- **UPS On-Call Pickup[®]** is available at no additional charge.

- To determine the rate for international multiple-package shipments, refer to page 82.

- A Heavy Package sticker is required for any package weighing more than 70 pounds. Refer to page 19 for more information.

*Visit ups.com[®] or call 1-800-Pick-UPS[®] for guarantee details, service availability, delivery time commitments or to request a pickup.

**Applies to single-package shipments with a dimensional weight of more than 150 pounds and multiple-package shipments of more than 150 pounds. For packages with an actual weight of more than 150 pounds, refer to UPS Express CriticalSM on page 7 or air freight services on page 132.

Taking Control of Your Import Costs

Enjoy freedom from currency fluctuations with UPS import rates. UPS keeps things simple with published, easy-to-use import rates fixed in U.S. dollars*, so you'll know exactly how much your shipment will cost. Plus, you won't have to learn any new shipping procedures or chart-navigating techniques. Our import rates work the same way as our export rates and your account number stays the same.

To take advantage of UPS-guaranteed import delivery options, including fixed import rates, use the Routing Form to instruct your international business partners to ship to you using your

UPS account number. This form can be found and printed from the Support tab at [ups.com](https://www.ups.com)[®]; click on "Documentation and Labels" in the "Preparing Your Package" section, select "UPS Routing Support" and then select "Download."

U.S. importers can further take control of imports with Quantum View[®] Manage. Quantum View Manage now provides tools specifically designed to assist you with customs clearance and compliance. Refer to page [122](#) for more information.

**Rates are fixed relative to currency fluctuations but are subject to periodic review.*

UPS TradeAbility[®] is a suite of information-based services providing harmonizer, landed cost and compliance tools. Visit [ups.com/tradeability](https://www.ups.com/tradeability) for more information.

Determine the Zone

Use the Worldwide Zone Chart starting on page 97 to determine the origin zone for the international service option you've selected.

An Extended Area Surcharge may apply to certain origins within a country. Extended Area origins are subject to change. Additionally, UPS Worldwide Express PlusSM service may not be available at your location. For the most current information, refer to ups.com/rates or call 1-800-782-7892.

UPS Worldwide Express Plus, UPS Worldwide Express NA1[®], UPS Worldwide ExpressSM, UPS Worldwide SaverSM and UPS Worldwide ExpeditedSM

- For UPS Worldwide Expedited, refer to page 71 to determine whether your destination state is classified as West or East.
- Locate the origin country on the Worldwide Zone Chart beginning on page 97.
- Locate the zone for UPS Worldwide Express Plus, UPS Worldwide Express NA1, UPS Worldwide Express, UPS Worldwide Saver or UPS Worldwide Expedited. (To determine whether UPS Worldwide Express Plus service is available to your address in the U.S., refer to ups.com/rates or call 1-800-782-7892.) The service is not available when a zone number is not shown in the appropriate column.

Examples:

For a UPS Worldwide Express Plus shipment from England to the U.S., the zone is 951.

For a UPS Worldwide Express NA1 or UPS Worldwide Express shipment from England to the U.S., the zone is 951.

For a UPS Worldwide Saver shipment from El Salvador to the U.S., the zone is 456.

For a UPS Worldwide Expedited shipment from England to Los Angeles, California, the zone is 681.

For a UPS Worldwide Expedited shipment from El Salvador to Buffalo, New York, the zone is 656.

| Origin | Zones | | | | |

*UPS Worldwide Express NA1[®] service is available from this country.

UPS 3 Day SelectSM from Canada and UPS Standard from Canada

- Refer to page 100 to locate your state in the left column on the Zone Chart.
- Choose the appropriate origin province of the shipment.
- Locate the zone for either UPS 3 Day Select or UPS Standard. Neither UPS 3 Day Select nor UPS Standard is available when a zone number is not shown in the appropriate column.

Examples:

For a UPS 3 Day Select shipment from Alberta to Michigan, the zone is 477.

For a UPS Standard shipment from British Columbia to Minnesota, the zone is 380.

Import Shipment Pricing

UPS Worldwide Express PlusSM, UPS Worldwide Express NA1[®], UPS Worldwide ExpressSM, UPS Worldwide SaverSM, UPS Worldwide ExpeditedSM, UPS 3 Day SelectSM from Canada and UPS Standard from Canada

Shipment pricing is advantageous because rates are based on the total weight of a shipment, not the sum of the rates for each package in a shipment.

What Qualifies

1. The shipment consists of multiple packages, using the same service, shipped on the same day to a single consignee.

2. For shipments processed with/on UPS WorldShip[™], UPS Internet Shipping, UPS CampusShipSM, UPS OnLineSM Shipping Tool or a UPS Ready[™] solution that supports full international service, or a UPS Worldwide Services Waybill.

What Does Not Qualify

Shipment pricing does not apply to Express Envelopes, the UPS 10 KG Box[®] or the UPS 25 KG Box[®]; they are each considered separate shipments.

Rates

Rates are based on the total actual weight or the total dimensional weight of all packages in a shipment, whichever is greater. Refer to pages 21 and 22 for instructions on calculating dimensional weight.

If the payer of the shipping charges is located in the origin country, the shipment will be charged the export rate (Origin Country Export Rates). When the payer of the shipping charges is located in the destination country, the

shipment will be charged the import rate (Destination Country Import Rates). If the destination country does not have import rates, the shipment will be charged the export rate (Origin Country Export Rates). When the payer of the shipping charges is located in a third country (neither origin nor destination country), the shipment will be charged the Origin Country Export Rates, except as otherwise agreed to by UPS and the contracting party.

Unless otherwise specified at the time of shipping, shipping charges are billed to the shipper. In the event of non-payment by consignee or third party, the charges are billed to the shipper. Refer to pages 113 and 128 for more information on billing options.

For shipments weighing 150 pounds or less, locate the rate for the total weight

of the shipment on the appropriate rate chart.

To determine the rate for a shipment weighing more than 150 pounds, multiply the total weight (rounded to the next whole pound) by the appropriate price per pound as shown under the shipment weight designations above 150 pounds. The amount billed will be the result of this calculation or the minimum rate shown, whichever is greater.

All rates for UPS international services, except UPS Standard from Canada include in-house customs brokerage. For more information on customs brokerage for import shipments, refer to pages 117 to 120.

Refer to pages 113 to 116 for value-added services rates and other charges.

- The rates shown are for shipments to the U.S., billed to a U.S. UPS account number.
- Any fraction of a pound more than the weight shown in the rate chart is rounded up to the next whole pound.

- Dimensional weight may apply. Refer to pages 21 and 22 for more information.

- To determine the rate for international multiple-package shipments, refer to page 101.
- Express Envelopes are not recommended for shipments of electronic media containing sensitive personal information.

*Visit ups.com® or call 1-800-Pick-UPS® for guarantee details, service availability, delivery time commitments or to request a pickup.

**The Letter rate applies only to document shipments sent in an Express Envelope. There is no weight limit.

Refer to pages 113 to 116 for value-added services rates and other charges.

- The rates shown are for shipments to the U.S., billed to a U.S. UPS account number.
- Any fraction of a pound more than the weight shown in the rate chart is rounded up to the next whole pound.

- Dimensional weight may apply. Refer to pages 21 and 22 for more information.

- A Heavy Package sticker is required for any package weighing more than 70 pounds. Refer to page 19 for more information.

- For packages with an actual weight of more than 150 pounds, refer to UPS Express CriticalSM on page 8 or air freight services on page 132.

Customs Brokerage

The following applies per shipment for imports into the U.S.:

- All UPS Worldwide Express PlusSM, UPS Worldwide Express NA1[®], UPS Worldwide ExpressSM, UPS Worldwide SaverSM, UPS Worldwide ExpeditedSM and UPS 3 Day SelectSM from Canada rates include routine customs clearance. Routine customs clearance is built into your rates when you use UPS to perform the customs clearance for any of these services.
- UPS also provides services designed to facilitate movements of your UPS

Standard shipments to and from Canada and other non-routine services that include formal entry clearance, live entry clearance, temporary import bonds and duty drawbacks. In addition, UPS can provide customs clearance for other ocean, air cargo, truck and rail U.S. imports. The importer is responsible for all brokerage fees, including duties and taxes. See charts on the following pages for more information.

- The UPS Service Guarantee does not apply when customs clearance is performed by brokerage offices other than those designated by UPS, or if a

service delay is the result of certain events beyond our control, such as a government agency hold.

- Customs clearance for services specified here is provided by the UPS Supply Chain Solutions[®] customs brokerage offices designated by UPS for handling small package customs clearance. Other UPS Supply Chain Solutions customs brokerage offices charge fees for clearance of small packages and freight.

For more information on any of our customs brokerage services, call 1-800-782-7892.

UPS Broker of ChoiceSM

With UPS Broker of Choice, importers select their own alternate customs broker for customs clearance of their UPS international shipments. This service is available for all UPS international shipments, except for UPS Standard to/from Canada.

This contractual, fee-based service ensures that the established relationship with a customs broker can remain in place while the importer continues to utilize UPS for their international shipping needs. Using UPS Broker of Choice enables importers that have concerns about specific commodities or product lines to retain a particular

broker familiar with this portion of the business, while continuing to utilize UPS brokerage expertise for others.

Through use of UPS technology, shipment information, as well as shipment documentation (e.g., commercial invoice), will be proactively available at the time of export for our customer's broker to retrieve, thus enhancing their broker's ability to clear the shipment in a timely manner.

Importers have two options:

1. Broker of Choice OnSite is for shipments that remain in UPS possession while the importer's

customs broker completes customs clearance procedures prior to UPS completing delivery of the shipment.

2. Broker of Choice OffSite is for shipments moved "in-bond" directly to a customs-controlled (bonded) warehouse (at the importer's direction), where the importer's customs broker completes the customs clearance procedures. The UPS transport is completed upon delivery of the shipment to the warehouse. Refer to page [119](#) for fees.

UPS FTZ FacilitatorSM

With UPS FTZ Facilitator, importers and exporters have the ability to use UPS to transport international shipments "in-bond" to and from a global Free/Foreign Trade Zone (FTZ). This service is available for all UPS international shipments.

This contractual, fee-based service allows the shipment of goods to and from an FTZ, while retaining the benefits of UPS's transportation network. Using UPS as a single source enables importers and exporters to increase

visibility and tracking, and reduce the chance for errors and costs associated with utilizing multiple transportation providers.

Through use of UPS technology, shipment information, as well as shipment documentation (e.g., commercial invoice), will be proactively available at the time of export for our customer, customer's broker or FTZ operator to retrieve, thus enhancing their ability to process the FTZ entry in a timely manner.

Importers will choose FTZ Facilitator Import to direct shipments to be delivered in-bond to a designated FTZ rather than being cleared through customs.

Exporters will choose FTZ Facilitator Export to ship goods in-bond from an FTZ to an international destination. Refer to page [119](#) for fees.

Track Your Shipment

Tracking

UPS tracking services provide information about shipments as they move through the UPS system, from the time the shipper uploads shipping information to UPS to the time the shipment is delivered to the consignee. You can follow

your shipment using UPS WorldShip™, ups.com®, UPS CampusShip™ or Quantum View®. To track your UPS Express Critical™ shipments, go to upsexpresscritical.com or call 1-800-714-8779.

UPS tracking of your shipments is subject to certain limitations. Refer to the “UPS Tariff/Terms and Conditions” at ups.com/terms for more information.

Convenient Numbers to Track Shipments

| Number | Description |
|------------------------|---|
| Tracking Number | Number automatically assigned to your shipment by UPS to identify and locate the shipment as it travels through the UPS system. |
| Reference Number | Number you can assign when you ship to help you identify your shipment. Reference number can contain any combination of letters and numbers up to 35 characters. |
| UPS InfoNotice® Number | Number assigned by UPS that links all shipments for a delivery attempt together (patent pending). For detailed information on each shipment, go to ups.com or call 1-800-833-9943. |

Convenient Ways to Track Shipments

Manage Your Claims

Now you can efficiently and conveniently manage your package claims online. From this website you can:

- Report a problem
- Provide claim documentation
- Check the status of a claim
- Receive key status updates via e-mail
- View and download claim history
- Initiate a claim dispute
- Access information about minimizing specific packaging problems that can result in lost or damaged packages
- Contact UPS with questions

You can access the claim site by:

- Visiting ups.com/claims
- Going to the Customer Service section under the Support tab on ups.com®

Plus, the ability to manage your claims has been integrated into systems you already use:

- Tracking on ups.com: If there is a problem with your package, you will see a link under “Claim Information” on the detailed tracking result page. This link will allow you to report a lost or damaged package or missing C.O.D.

- Quantum View® Manage: If you are a subscriber, you will see a link on the Shipment Progress page to “report a lost or damaged package.”

Viewing, Paying and Managing Your Invoice

UPS offers a number of options for viewing, paying and managing your invoice. To learn more or enroll in these options, call 1-800-Pick-UPS® or visit [ups.com/billing](https://www.ups.com/billing).

UPS Billing and Payment Schedules

| Schedules | Description |
|-----------------------------|--|
| Billed Weekly/Pay Weekly | <ul style="list-style-type: none"> - Receive an invoice weekly and pay weekly. - Payment is due within the terms stated on the invoice. - A late payment fee will be assessed on balances that are 14 days past due. - Payment can be made by Electronic Funds Transfer, credit card or check. |
| Billed Weekly/Pay Monthly | <ul style="list-style-type: none"> - Receive an invoice weekly but pay only once a month. - A prepayment equal to four weeks' average shipping charges must be made and will remain on account with UPS. - Payment is due within the terms stated on the invoice. - A late payment fee will be assessed on balances that are 14 days past due. - Payment can be made by Electronic Funds Transfer or check. |
| Billed Monthly/Pay Monthly* | <ul style="list-style-type: none"> - Receive an invoice monthly and pay monthly. - A prepayment equal to four weeks' average shipping charges must be made and will remain on account with UPS. - To avoid a prepayment, a Credit Extension Fee can be charged based on your annual shipping charges and is subject to change annually. - Payment is due within the terms stated on the invoice. - A late payment fee will be assessed on balances that are 14 days past due. - Payment can be made by Electronic Funds Transfer or check. |

**Monthly billing is limited to customers with average shipping charges of \$200.00 or less per week. To be eligible for the Credit Extension Fee, you must use UPS transportation services and the Credit Extension Fee solely for business, commercial or agricultural purposes. The first-year fee is \$45.00. The fee for each following year will be based on yearly revenue. If the yearly revenue is under \$15,600.00, the fee will be \$45.00. If the yearly revenue exceeds \$15,600.00, the fee will be the actual revenue multiplied by .0163.*

Notes:

- UPS reserves the right to approve billing and payment schedules and payment methods requested.
- The "UPS Tariff/Terms and Conditions" (available at [ups.com/terms](https://www.ups.com/terms)) contains provisions for a late payment fee on past-due balances (including, without limitation, any previously assessed, but unpaid, late payment fees).
- The shipper should check with their bank to ensure that there are no fees for electronic transactions.

Reviewing Your Invoice

Solutions for Managing Your Invoice

UPS offers a variety of options to help you manage your shipping costs by allowing you to determine who pays what portion of the shipping charges.

UPS Billing/Payer Options (Who)

| Options | Description |
|---|--|
| Bill Shipper (Prepaid) | – Shipper is billed for shipping charges. |
| Bill Receiver (Freight Collect) | – Receiver is billed for shipping charges. |
| Bill Third Party | – A third party is billed for shipping charges. |
| Split Duty and Tax (for International Only) | – Shipper is billed for shipping charges and duties. – Consignee is billed for all taxes. |

For international shipments, the above billing options can be used in combination with one another, allowing the shipper, receiver or third party to be billed for all or part of the shipping charges. International shipping charges typically include the cost of transportation, duties, brokerage fees and taxes.

Unless otherwise specified at the time of shipping, shipping charges are billed to the shipper. In the event of non-payment by the consignee or third party, the charges are billed to the shipper.

Managing Inbound Charges

Control who can and cannot bill shipping charges to your UPS account number. There are two convenient ways to manage this process. Select the option that is appropriate for your business needs.

- Allow any shipper to bill shipping charges to your UPS account number except those shippers you want to deny charges from.
- Do not allow any shipper to bill shipping charges to your UPS account

number except those shippers you want to accept charges from.

To begin controlling your shipping charge, visit the “Billing” Quick Link at [ups.com](https://www.ups.com)[®].

Consolidated Mail Plans

A Consolidated Mail Plan offers a convenient way to aggregate UPS invoices for multiple UPS account numbers into a single invoice for payment.

Consolidated Mail Plans can be created for UPS domestic, export and import invoices.

To learn more about Consolidated Mail Plans, call 1-800-Pick-UPS[®].

Managing Additional Charges

Additional charges can occur when shipments are not processed properly. Tips for avoiding these charges may be found in the chart below and at [ups.com/avoidcharges](https://www.ups.com/avoidcharges).

| Additional Charge Types | Solution |
|--|---|
| Additional Handling Corrections | Avoid Additional Handling Corrections by indicating "Additional Handling" in your shipping system for any package with the following characteristics: <ul style="list-style-type: none"> - Any article that is encased in an outside shipping container made of metal or wood. - Any cylindrical item, such as a barrel, drum, pail or tire, that is not fully encased in a corrugated cardboard shipping container. - Any package with the longest side exceeding 60 inches or its second-longest side exceeding 30 inches. - Any package with an actual weight of more than 70 pounds. |
| Dimensional Weight Corrections | Avoid Dimensional Weight Corrections by indicating the correct package dimensions in your shipping system. Refer to page 22 for more information. |
| Incorrect Weight Corrections | To avoid Incorrect Weight Corrections, use any standard scale and round up any fraction of a pound to the next whole pound when entering the package weight in your shipping system. |
| Over Maximum Limit Corrections | UPS has established specific package weight and size limits for all UPS services. The restrictions below only pertain to individual packages. There are no limits to the total weight of your shipment or the total number of packages in your shipment. <ul style="list-style-type: none"> - Packages can be up to 150 pounds (70 KG). - Packages can be up to 165 inches (419 centimeters) in length and girth [(2 x width) + (2 x height)] combined. - Packages can be up to 108 inches (270 centimeters) in length. - Packages that weigh more than 70 pounds (31.5 KG, 25 KG within the European Union) require a special heavy-package label and will be subject to an Additional Handling charge. - Packages with a large size-to-weight ratio require special pricing and dimensional weight calculations. |
| Residential Surcharge Corrections | You can avoid Residential Surcharge Corrections by selecting "Residential Address" when adding a new address or updating an existing address in the address book of your shipping system. <ul style="list-style-type: none"> - UPS CampusShipSM and UPS Internet Shipping at ups.com[®] will automatically check each address for its proper residential or commercial classification. - UPS WorldShip[™] allows users to check addresses during the shipping process or users can check their entire address book. |

Domestic and International Service Restrictions

AIR FREIGHT

For both domestic and international air freight services, the shipment of certain commodities is restricted or prohibited by law, regulation or airline safety procedure. The following categories of shipments will require careful evaluation for adherence to these requirements.

Shipments Subject to Prior Arrangements

There are specific commodities that are subject to prior arrangement before shipping. These commodities will be accepted only upon advance arrangements and the satisfactory completion of all requirements. These shipments will be charged the UPS Next Day Air® Freight or UPS ExpressSM Freight rate in addition to applicable surcharges.

Dangerous Goods

Dangerous goods are capable of posing a significant risk to health, safety or property when shipped by air. They may only be shipped within North America using UPS Next Day Air® Freight NGS service. For shipments from origins

in the U.S. and Canada to international points, Dangerous Goods are shipped via UPS Air Freight ConsolidatedSM service.

For all other shipments between points not specified above, charges for handling and transporting Dangerous Goods may vary. For North American air freight shipments, call 1-800-443-6379 for charges.

Perishable Commodities

Shipments containing perishable or temperature controlled commodities must be shipped via a UPS-guaranteed service. Restrictions apply for shipments picked up on Friday, packing requirements and international movements.

Restricted Items

Some commodities will not be accepted for transport unless agreed upon in writing by UPS prior to shipping; the following are some of the items not accepted for transportation:

- Corpses or cremated or disinterred remains

- Live animals, birds, fish, reptiles or insects, except those to or from medical laboratories within the U.S. or Canada
- Gold or other precious metals
- Antiques
- Fireworks
- Shipments prohibited by law

Specific restrictions also apply when using UPS 2nd Day Air® Freight, UPS 2nd Day Air® Freight NGS, UPS 3 Day FreightSM or UPS 3 Day FreightSM NGS for domestic shipments and UPS Express Freight services for international shipping.

For more information and additional service restrictions, refer to the [“UPS Air Freight Terms and Conditions of Contract for Services in the United States, Canada, and International”](#) at ups.com®.

Domestic and International

Determine the Weight and Size

AIR FREIGHT

How to Determine Billable Weight*

Compare the freight shipment's minimum billable weight, actual weight and dimensional weight. The greater of the three is the billable weight and should be used to calculate the rate.

1. Minimum billable weight of a freight shipment is 151 pounds.

– For domestic shipments only, there is a 20 pound per piece minimum: Minimum billable weight for loose items is the greater of 151 pounds or the number of pieces multiplied by 20 pounds.

2. Determine actual weight and round up any fraction of a pound to the next whole pound.

3. Determine dimensional weight by multiplying the item's length by the width by the height. For each dimension, measure the largest distance, rounding each measurement to the nearest whole number. The result is the cubic size. Divide the cubic size by 194 for domestic shipments and 166 for international shipments when measured in inches. To convert metric measurements into pounds, multiply the result by 2.20462. Increase any fraction to the next whole pound.

| Freight Billable Weight: Minimum Billable Weight | | | | | | | | | | |

*The minimum billable weight only applies to UPS domestic air freight services and UPS ExpressSM Freight. For UPS Air Freight DirectSM and UPS Air Freight ConsolidatedSM, a minimum shipment dollar amount is applied. Refer to the ["UPS Air Freight Terms and Conditions of Contract for Services in the United States, Canada, and International"](#) for more information. Call 1-800-714-8779 for UPS Express CriticalSM rates.

**The minimum billable weight of 20 pounds per loose piece applies to domestic air freight only. If your non-palletized shipment does not meet the minimum weight of 20 pounds per piece, consider palletizing. Palletizing will ensure your shipment does not fall below the per piece minimum billable charge.

***Pallet billable weight is equal to the shipment weight (315 pounds) plus the weight of a pallet (approximately 40 pounds). Note: Each pallet and its secured contents is entered as one piece.

Documenting an Export Shipment

AIR FREIGHT

UPS uses export and import documents you prepare to properly declare your shipment to customs in both the country of export and the country of import. The required documents are submitted to customs to determine the applicable duties and taxes in the destination country.

For export shipments from the U.S., the shipment must include:

- Commercial invoice
- Bill of lading, either
 - Air waybill
 - Shipper's Letter of Instruction

The shipment may require:

- Shipper's Export Declaration (S.E.D.)
- U.S. Certificate of Origin
- North American Free Trade Agreement (NAFTA) Certificate of Origin based on the value, nature and destination of the shipment

Refer to pages [25](#) to 31 for information on how to complete a commercial invoice, S.E.D. or NAFTA document and for examples.

Visit [ups.com/intl-forms](https://www.ups.com/intl-forms) to download a blank document or view a sample of a completed document.

Shipper's Letter of Instruction

The Shipper's Letter of Instruction explains how and where to send a shipment from the U.S. to an international destination. In preparing this form, the shipper completes most of the information required on the Shipper's Export Declaration, U.S. Customs form 7525V. After the shipper completes the form, they retain the blue shipper's copy and forward the

rest of the form with the shipment to UPS Supply Chain Solutions® for completion. This document must be typed. It combines an air waybill and a U.S. Export Declaration for shipments valued at more than \$2,500.00.

Refer to page [139](#) for an example of a Shipper's Letter of Instruction.

Packaging Guidelines

AIR FREIGHT AND LESS-THAN-TRUCKLOAD

Preparing Your Freight Shipment

Freight shipments can include combinations of palletized items, boxes that are too large to ship using other UPS services or multiple non-palletized pieces. UPS will accept freight shipments of any weight. However, minimum weight charges apply.

Determining If Freight Should Be Palletized

Palletized Freight
Palletizing freight helps multiple-piece shipments remain together and provides increased protection from damage. Each pallet, including its contents, is considered one piece.

Non-Palletized Freight

Loose items, such as boxes or containers that have not been secured to a pallet, are considered non-palletized freight. Each loose item is considered one piece.

Palletizing Your Shipment

Pallets are portable rigid platforms used to consolidate shipments and allow for ease of freight movement. Quality pallets are commonly made of either wood or plastic and can weigh between 20 and 70 pounds. Pallets

should be large enough to accommodate the shipment without overhang. Anything overhanging the pallet edges may be damaged from punctures, abrasions and compression.

For air freight shipments, if your non-palletized shipment does not meet the minimum billable weight per piece, consider palletizing prior to UPS pickup.

Step-by-Step

The following are basic step-by-step instructions for palletizing your freight.

1. Select Pallets.

- Choose pallets large enough to prevent overhang of shipment pieces
- Pallets must be sturdy enough to support the load
 - Select pallets with closely spaced pallet deck boards
 - Never exceed the rated capacity of your pallet
- Do not select pallets with broken boards or protruding nail heads
- Pallets with four-way forklift entry are preferred as they help to improve handling and reduce damage to the shipment

2. Stack Boxes on Pallet.

For shipments that contain boxes or stackable pieces:

- Affix labels, with complete address information for the shipper and the consignee, to each piece

- Align boxes in columns, corner to corner, for the greatest stacking strength
- Avoid interlocking or rotating layer patterns
- Do not align corners over the spaces between pallet deck boards
- Boxes should not extend past the pallet edges
- Do not pyramid the boxes; keep the top layer flat to prevent damage from top loads
- Use a slip sheet under the load and every third layer when possible to

help distribute the weight evenly and protect the bottom layer

3. Secure Shipment to Pallet.

Use strapping or banding to secure your shipment to the pallet and stretch wrap to prevent pieces from getting lost or separated from the load.

4. Label Shipment.

Label each pallet with telephone numbers and complete address information, including postal code of the shipper and the consignee.

Palletizing Your Shipment

1. Select a four-way entry pallet for your freight shipment.

2. Stack boxes in columns. Avoid placing freight beyond pallet edges.

3. Use strapping with stretch wrap to secure boxes to the pallet.

Note: Pre-authorization is required for air freight shipments that exceed any of the following:

- 120" length
- 84" width
- 76" height
- or 5,000 lbs. weight

AIR FREIGHT AND LESS-THAN-TRUCKLOAD

Protecting Your Palletized Shipment from Damage

| Solution | Description |
|---------------------------|---|
| Corner/Edge Boards | <ul style="list-style-type: none"> – Increase vertical stacking strength, prevent damage to corner edges and stabilize the load. – Should extend to the full height and length of the load and should be used on all corners. |
| Strapping or Banding | <ul style="list-style-type: none"> – Prevents pieces from getting lost or separated from the load. – Should be drawn tightly to the load, possibly requiring running it underneath the top deck boards of the pallet. |
| Stretch Wrapping | <ul style="list-style-type: none"> – Use as an effective way to keep all pieces of a shipment together. – Should first be applied around the pallet and continued upward around the load. – Must be tight to prevent load shifting. – Capture the pallet when wrapping bottom layer. – Designed to stabilize the load, not to secure it to the pallet. – Strapping or banding should be used in conjunction with stretch wrap to secure the load to the pallet. |
| Top/Bottom Load Protector | <ul style="list-style-type: none"> – Layers of corrugated fiberboard or heavy paperboard. – Use to help evenly distribute the weight of shipments that can be stacked upon one another. |

Preparing Non-Palletized Freight

If you do not plan to secure your shipment to pallets, follow these steps:

1. Ship freight in corrugated boxes (avoid reusing boxes), crates or shipping containers.
2. Use a container strong enough to support the weight of contents.

3. Use at least two inches of appropriate cushioning material to protect internal items from each other and the corners, sides, top and bottom of containers. Appropriate cushioning material would include corrugated fiberboard, multiple layers of folded newspaper, styrofoam sheets, packing blankets, etc.

4. Reinforce edges to protect from bending.
5. Securely seal closures and seams with reinforced tape.
6. Label each piece with telephone numbers and complete address information, including postal code of the shipper and the consignee.

Note: Some air freight shipment pickup requests require pre-authorization. Refer to the “UPS Air Freight Terms and Conditions of Contract for services in the United States, Canada, and International” at ups.com for more information.

Preparing for Pickup

Pickup is included in all air freight and LTL services. Your freight pickup request is initiated when you Create a Shipment for freight on ups.com.

Label Freight Pieces

Each piece of palletized or non-palletized freight must be clearly

marked with telephone numbers and complete address information, including postal code of the shipper and the consignee. Indicate on freight labels if any pieces require C.O.D. service.

For any additional assistance with freight packaging, contact the Package Lab at freight_testing@ups-psi.com or call 1-877-877-7229.
