

UPS WorldShip™ 2009 Version 11.0 Run End of Day Process when End of Day Button is Inactive

To run the End of Day process when the End of Day button is inactive:

Step	Window (if available)
<p data-bbox="203 472 292 535"></p> <p data-bbox="131 514 763 577">If the END OF DAY button is inactive, check for and correct any of the following situations:</p> <ul data-bbox="131 588 771 934" style="list-style-type: none"> • You are in the middle of processing a shipment. • It is Saturday and you have only processed shipments for a weekday pickup (that is, none for Saturday Pickup). • It is a weekday and you have only processed shipments for a Saturday pickup (that is, none for a weekday pickup). • You have not processed any shipments. • Your date/time/regional settings are incorrect. <p data-bbox="131 955 771 1018">Note: If you type shipment information and then delete it (using Backspace, etc.), the Shipping window may</p> <p data-bbox="527 1018 625 1081"></p> <p data-bbox="131 1050 738 1113">look clear when it is not. Click the UNDO button to resolve this problem.</p>	 <p>The screenshot shows the UPS WorldShip software interface. The 'UNDO' button is highlighted in the top toolbar. The main window displays shipping details for a shipment, including fields for Customer ID, Company or Name, Attention, Address 1, Address 2, Address 3, Country/Territory, Postal Code, City or Town, State/Province/County, Telephone, E-mail Address, UPS Account Number, and Tag ID Number. The 'Service' section shows 'Next Day Air' selected. The 'Package' section shows 'Package Type' as 'Package' and 'Weight (lb)' as '0.0'. The 'Shipment Cost (USD)' is displayed as '0.00'. The 'UNDO' button is located in the top toolbar, and the 'Process Shipment F10' button is in the bottom right corner.</p>
