

New UPS Import ControlSM

Take Control of Your Imports: Minimize Delays and Reduce Costs

UPS Import Control delivers the most comprehensive inbound shipping solution available.

Now you can specify the transit time for each import shipment, while providing the documentation needed to facilitate customs clearance. So you can prevent unnecessary shipping costs or delays.

UPS puts *you* in the driver's seat with advanced technology that ensures your inbound international packages are delivered to your exact specifications.

UPS Import Control delivers the most comprehensive inbound shipping solution available

With this new service, you can better manage your import package shipments and commercial invoice information.

- Initiate package shipments and a UPS pickup from another country and request delivery to yourself or a third party.
- Control the creation of shipment labels, commercial invoices and billing information to help ensure accuracy, compliance and prevent delays.
- Specify UPS service and shipment characteristics to take control of costs and timing.
- Send labels and commercial invoices to your exporters by e-mail, mail or with a UPS driver to collect the shipment (1 UPS Pickup Attempt and 3 UPS Pickup Attempts).
- Bill your imports using freight collect without sharing your account number.

- Ship directly to third-party receivers without revealing the value of goods by using the Commercial Invoice Removal option (additional fee applies).
- Plan better by controlling when and how imports are picked up and delivered.

You can do more, see more and manage better

- Monitor your shipment's progress using UPS tracking or Quantum View® Manage, facilitating better planning and forecasting.
- Know when your shipments are under way with Quantum View Notify®, automatic in-transit e-mail notification.

Where and how it's available

You can start using UPS Import Control through UPS Internet Shipping, UPS CampusShip® and UPS Developer Kit. Service in UPS WorldShip® is available January 2011.

With service to over 100 countries, we can help you take control of your import shipments and increase your competitive advantage.

THE IMPORTERS' TOOLBOX

UPS makes importing easier with a full range of services and tools

More Import Shipping Options — Choose from a wide selection of import delivery services, including three daily time-definite express options to/from major locations worldwide. Includes reliable customs clearance from the world's largest broker.

Time and Cost Calculator — Determine import transportation charges, delivery dates and guaranteed delivery times to help you better plan schedules and anticipate costs.

Billing Options — Bill your account or another party's with Import Freight Collect and Third-Party Billing. Import Freight Collect offers the freedom from currency

fluctuations with published rates fixed in U.S. dollars, so you'll know how much your shipment will cost.*

Quantum View Manage — Manage customs information with enhanced real-time visibility of your inbound or import brokerage activity.

UPS TradeAbility® — Streamline your supply chain and trade process with a suite of free, Web-based tools to improve compliance with country-specific regulations.

**Rates are fixed relative to current fluctuations but are subject to periodic review.*
