How to Calculate Charges

1. Choose the UPS domestic service for your shipment. Refer to your UPS Zone Chart at ups.com/rates to determine the appropriate zone.

2. Determine the shipment's billable weight. Use a scale to determine the weight of the package. Any fraction of a pound in the total should be rounded up to the next whole pound.

If the dimensional weight of a package exceeds its actual weight, the dimensional weight of the package will be used to calculate the billable weight. (See the current *UPS Rate and Service Guide* for instructions on how to determine dimensional weight.) Obtain the shipment's billable weight by totaling the weights of the individual packages in the shipment.

A package is considered a "Large Package" when its length plus girth [(2 x width) + (2 x height)] combined

exceeds 130 inches, but does not exceed the maximum UPS size of 165 inches.

Large Packages are subject to a minimum billable weight of 90 pounds. A Large Package Surcharge of \$55.00 will apply. An Additional Handling charge (as set forth in the *UPS Rate and Service Guide*) will not be assessed when a Large Package Surcharge is applied. After calculating the rate of the package, compare the rate to the minimum billable rate, and apply the greater of the two.

3. For **UPS 3 Day Select®** and **UPS Ground**: Divide the shipment's billable weight by 100 to determine the number of Hundredweight units.

4. For **UPS 3 Day Select** and **UPS Ground**: Multiply the number of Hundredweight units by the Shipment Rate Per Hundredweight Unit

shown on the rate chart for the appropriate service, shipment-billed weight level and zone to calculate the shipping charge.

For UPS Next Day Air®, UPS Next Day Air Saver®, UPS 2nd Day Air A.M.® and UPS 2nd Day Air®: Multiply the shipment's billable weight by the Rate Per Pound shown on the rate chart for the appropriate service, shipment-billed weight level and zone to calculate the shipping charge.

Note: Some UPS Ground shipments less than 500 pounds may be more economically rated as 500 pounds. The UPS billing system will automatically compute the shipment charges at both the shipment-billed weight and at 500 pounds, compare them and bill the lower of the two.

Minimum Charges

- The minimum charge for a **UPS 3 Day Select** or **UPS Ground** shipment will be the greater of either a charge based on an average weight of 18 pounds per package or a per-shipment

minimum charge for the applicable zone as shown below.

- The minimum charge for a **UPS Next Day Air**, **UPS Next Day Air Saver**, **UPS 2nd Day Air A.M.** or **UPS 2nd**

Day Air shipment will be based on an average weight of 15 pounds per package.

UPS 3 Day Select® Zones	302	303	304	305	306	307	308	Service Not Available
