Section 1: UPS services and service availability

Find out where you can send to or receive from using the zone tables

The zone tables on pages 8-10 are used to determine whether the service option of your choice is available to and from your destination and origin and to identify the shipment's zone number. The zone numbers are also used when calculating the cost of your shipment*.

Sending or receiving

Use the **sending** zone columns for all outbound domestic and international shipments for any billing option except when shipping charges are billed to the receiver or a third party in the receiving country.

Use the **receiving** zone columns for all inbound domestic and international shipments when the receiver or a third party in the receiving country is paying for the shipment.

To use this section, follow these three steps:

- 1 Find the location you are sending to or receiving from.
- 2 Check whether there is a zone number shown in the sending or receiving column under your preferred service option – if so then that service is generally available.
- 3 Make a note of the zone number for later reference when calculating the cost (see pages 11 to 25).

Extended areas

Where you see this symbol  in the zone table, an extended area charge may apply to your shipment.

For domestic and international shipments the charge is GBP 0.25 per kg or a minimum of GBP 13.50 whichever is the greater.

Tables showing all extended areas are viewable in the 'Calculate Time and Cost' section at www.ups.com

Important

Extended area locations are subject to change.

* For more information about billing please see page 37

Time saving tip

Use the 'Calculate Time and Cost' tool on the UK home page at www.ups.com – this will give you all service options available from your chosen origin postcode to your destination, in seconds.

Section 2: Rates for sending shipments

The rate for sending a UPS shipment is determined by its service level, destination zone, weight and any additional charges.

To find the price for your shipment, simply follow the six steps outlined below:

- 1 Make sure that you are in the correct section. The sending rates in this section apply for any outbound domestic and international shipments for any billing option except when shipping charges are billed to the receiver or a third party in the receiving country.
- 2 Determine the chargeable weight.
- 3 Turn to the service option of your choice (UPS Express Plus, Express, Express Saver, Standard or Expedited).
- 4 Look up the chart that applies to your shipment type (UPS Express Envelopes, Documents or Packages). UPS offers separate rates for single package and multiple package shipments for the UPS Standard Service.

5 Look up the rate that applies to the chargeable weight and zone for your shipment.

6 Note any additional costs there may be, including additional charges for optional services.

(If you want to receive a package where the receiver or a third party in the receiving country is billed, please refer to the receiving rates on page 19.)

Time saving tip

You can also find the total cost of your shipment via the UPS 'Calculate Time and Cost' tool accessible on the UK home page at www.ups.com

Service

UPS Express Plus

FOR NEXT DAY DELIVERY WITHIN EUROPE AND TO NORTH AMERICA BY THE START OF THE BUSINESS DAY
FOR VERY URGENT SHIPMENTS

These rates are for outbound domestic and international shipments for any billing option except when shipping charges are billed to the receiver or a third party in the receiving country.

Zone

To determine the zone number, see pages 8-10.

Chargeable weight

Rates are based on the total actual weight or the total dimensional weight of all packages in the shipment, whichever is the greater.

How to determine dimensional weight

$$\frac{L \times W \times H}{6000} = \text{Dimensional weight}$$

L = length in cm

W = width in cm

H = height in cm

Additional charges

These rates are exclusive of any additional charges, such as charges for extended area delivery or any optional services. Please see page 27 for more details.

Tax

These rates are exclusive of tax. Where applicable, VAT will be charged at the standard rate.

Arrange a collection

Click on "Schedule a Collection" on the UK home page at www.ups.com or call UPS on 08457 877 877.

Notes

- ¹ For correspondence and documents only. There is no limit on weight or number of pages you may enclose in a **UPS Express Envelope**.
- Any fraction of a kilogram over the weight shown takes the next highest rate.
- * The **maximum weight** for an individual package is 70kg. If you have a need to ship single packages in excess of 70kg please call UPS on 020 8260 6000.
- To determine the rate for a shipment with multiple packages weighing in total more than 70kg, multiply the total weight (rounded up to the next whole kg) by the appropriate price per kg shown. The amount billed will be the result of the calculation, or the minimum rate shown, whichever is the greater.

Notes

- ¹ For correspondence and documents only. There is no limit on weight or number of pages you may enclose in a **UPS Express Envelope**.
- Any fraction of a kilogram over the weight shown takes the next highest rate.
- * The **maximum weight** for an individual package is 70kg. If you have a need to ship single packages in excess of 70kg please call UPS on 020 8260 6000.
- To determine the rate for a shipment with multiple packages weighing in total more than 70kg, multiply the total weight (rounded up to the next whole kg) by the appropriate price per kg shown. The amount billed will be the result of the calculation, or the minimum rate shown, whichever is the greater.

Section 3: Rates for receiving shipments

Total control of imports

Receiving shipments can be as important as managing your exports. UPS can collect your shipments around the world, giving you the same service options you enjoy for exporting. We also give you rates in GBP, fixed in advance, to avoid the effects of currency fluctuations.

So when you are receiving a shipment you can control your shipping cost, schedule the delivery time and choose your service option with the same level of quality assurance that you have when you are sending shipments.

The rate for receiving a UPS shipment is determined by its service level, origin zone, weight and any additional charges.

To find the price for your shipment, simply follow the six steps outlined below:

- 1 Make sure that you are in the correct section. The receiving rates in this section apply for inbound domestic and international shipments only when shipping charges are billed to the receiver or a third party in the receiving country.
- 2 Determine the chargeable weight.
- 3 Turn to the service option of your choice (UPS Express Plus, Express, Express Saver, Standard or Expedited).
- 4 Look up the chart that applies to your shipment type (UPS Express Envelopes, Documents or Packages). UPS offers separate rates for single package and multiple package shipments for the UPS Standard Service.
- 5 Look up the rate that applies to the chargeable weight and zone for your shipment.

- 6 Note any additional costs there may be, including additional charges for optional services.

(If you want to send a package where anyone other than the receiver or a third party in the receiving country is billed please refer to the sending rates on page 11).

Important

Please ensure that the shipper records your UPS account number on the UPS shipping documents.

Inbound Routing Form

To let all your suppliers know you have selected UPS as your international carrier for imports, simply complete an Inbound Routing Form for each supplier and forward them to your UPS representative.

For additional copies, please go to our website, www.ups.com click on the 'Support' tab, then 'Preparing your Package' and enter 'Documentation and Labels' to print out a copy or contact the UPS Customer Service Centre on 08457 877 877.

Time saving tip

Depending on the commodity and its use, special licensing and notations for accompanying documentation may be required

The following articles are prohibited from shipment to all countries served by UPS (except by specific contract):

- Alcoholic beverages
- Animal skins (non-domesticated)
- Articles of exceptional value (e.g. works of art, antiques, precious stones, gold and silver)
- Dangerous goods/Hazardous materials (following IATA regulations for Express and Expedited and following ADR regulations for Standard)
- Firearms
- Furs
- Ivory and ivory products
- Jewellery and watches (other than costume jewellery and costume watches) exceeding USD 500 or local currency equivalent per package¹

Personal effects in general include items owned by the shipper, intended for his or her personal use and owned for at least 6 months. The exact definition of personal effects (which is based in applicable customs rules) varies from country to country. Please consult www.ups.com for more information.

Unaccompanied baggage means suitcases, carry bags, backpacks, brief cases and other similar luggage items, regardless of content (except that they may be shipped if empty, unlocked and properly packaged in accordance with UPS guidelines).

Also prohibited are: goods moving under ATA Carnet and all temporary exports and imports; goods moving under FCR, FCT and CAD (Cash Against Document); shipments with inherent vice, which by their nature are likely to soil, impair or damage persons, merchandise or equipment; goods, the carriage of which is prohibited by law in the country of origin, transit or destination (e.g. ivory and ivory products), goods which attract excise duty (e.g. spirits) or which require special facilities, safety precautions or permits. Under applicable law, certain goods may be transported only under prescribed conditions and certain goods are prohibited from transportation by air (e.g. liquids in glass containers).

Shipping prohibited articles on a contractual basis with UPS

Certain items we list as prohibited will be accepted by UPS on a contractual basis for shippers with regular volume and the ability to comply with all applicable regulations.

The items we can carry under certain criteria are:

- Alcoholic beverages
- Biological substances
- Perishable goods
- Plants
- Seeds
- Tobacco and tobacco products.

Not all commodities can be shipped to all countries.

For more information please call 08457 877 877 or contact your UPS representative.

It is the shipper's responsibility to comply with current government regulations or laws applicable in each country. Shipments are subject to inspection and possible delay by customs or representatives of other government authorities.

We reserve the right to refuse or suspend transportation of any package which does not set out contact details for shipper and receiver and of goods which, in our opinion, are not practicable for transportation or are not adequately described, classified or packed and labelled in a manner suitable for transportation and accompanied by necessary documentation.

We will not transport any goods which are prohibited by law or regulation of any federal state or local government in the origin or destination countries or which may breach any applicable export, import or other laws or endanger the safety of our employees, agents and subcontractors or the means of transportation or, which in our opinion, soil, taint or otherwise damage other goods or equipment or which are economically or operationally impractical to transport.

¹ Costume jewellery and costume watches: jewellery and watches for which the retail price is lower than USD 150 per item and which do not contain precious metal(s) and/or stone(s)

Dangerous Goods

UPS adheres to the air transportation regulations outlined by the International Air Transport Association (IATA) and to the road transportation regulations outlined by the UN ADR and does not accept Dangerous Goods in its system – nationally or internationally. Local national regulations also apply for road transport.

Businesses which ship Dangerous Goods without appropriate labelling, documentation and packaging can face significant financial and legal penalties.

It is also important to remember the following when shipping with UPS:

- 1 If you are reusing packaging or cartons, please ensure that all old labelling is removed. Any Dangerous Goods labels on a package will cause the shipment to be held and inspected, causing service delays and inconvenience to you and your customer.
- 2 If you are shipping goods that could be potentially seen as Dangerous Goods but are not – because of their unusual name, appearance etc, it is advantageous to clearly declare on the shipping documentation that the goods are ‘not classified as Dangerous Goods’. This will ensure the shipment is not delayed unnecessarily. Any misdeclaration may lead to significant penalties for the shipper.

Service restrictions

UPS does not deliver to P.O. Box numbers.

The maximum value or declared value per package is USD 50,000 or local currency equivalent.

The maximum value or declared value per package of jewellery and watches (other than costume jewellery and costume watches¹) is USD 500 or local currency equivalent.

The maximum amount of cash UPS will accept from a single consignee for a single shipper is USD 5,000 or local currency equivalent per day (maximum EUR 750 in France).

The maximum value or declared value per package for a UPS 1 Attempt Returns Plus shipment is USD 1,000 and for a UPS 3 Attempts Returns Plus shipment USD 50,000 or local currency equivalent.

Weight and size limits

There is no limit to the total shipment weight or number of packages in a multiple-package shipment.

The maximum weight (actual and dimensional weight) per package is 70kg*.

The maximum length per package is 270cm.

The maximum size per package is 330cm in length and girth combined.

Length is the longest side of a package or object.

Girth is defined as (2 x Width) + (2 x Height).

¹ Costume jewellery and costume watches: jewellery and watches for which the retail price is lower than USD 150 per item and which do not contain precious metal(s) and/or stone(s)

* The maximum weight per package may vary by destination. Please contact your UPS Customer Service Centre on 08457 877 877 for details.

UPS money-back guarantee

Money-back guarantee

For certain services and selected destinations UPS offers a free money-back guarantee on the shipping charges. To find out if it applies to your shipment, go to 'Calculate Time and Cost' in either the Shipping or Support section at www.ups.com and key in your shipping details. Alternatively, it can be obtained by contacting your local UPS Customer Service Centre on 08457 877 877. Where the money-back guarantee operates, if we fail to attempt delivery within the applicable time period, we will, on request, refund or credit you (or any other person who paid for the carriage) with the shipping charges (or, in the case that only some of the packages in a multiple package shipment fail to meet the applicable time limit, the proportionate part of the shipping charges relating to those packages), net of any surcharges, VAT, duties, taxes or levies, provided that the following conditions are fulfilled:

- a) shipping documentation (including labels) must have been correctly completed and the relevant package must bear the paper labels produced by UPS online shipping solutions or otherwise in accordance with the UPS packaging guidelines;
- b) any other documentation required by the country of origin or destination or any country of transit must be fully and accurately completed and included with the package;
- c) if applicable, the package must bear a Saturday delivery routing label (for destinations to which this service is available);
- d) the shipment must have been tendered to UPS on or before the latest collection time specified by us for guaranteed delivery;
- e) you must have notified your request for claim to UPS in writing or by telephone within 15 days from the date of scheduled delivery and advised us of the receiver's name and address, date of shipment, package weight and the UPS tracking number.

The guarantee does not apply when late delivery results from the package not complying with the restrictions and conditions set out in paragraph 3.1 of our Terms and Conditions of Carriage, from events beyond our control (as set out in paragraph 6 of our Terms and Conditions of Carriage) or due to any suspension of carriage or return of a package as provided for in paragraph 3.3 of our Terms and Conditions of Carriage or the exercise of any lien by UPS in accordance with our Terms and Conditions of Carriage.

For the avoidance of doubt, the liability of UPS under the money back guarantee is limited to the above and the guarantee does not otherwise constitute any form of undertaking or representation that the shipment will arrive by any particular time.

Liability

Liability for loss, damage or delay

The following is a summary for information purposes of certain relevant provisions of the UPS Terms and Conditions of Carriage. The full terms are set out on pages 42-43 and prevail in case of inconsistency with the present summary.

International Carriage:

Where carriage is international, international conventions may apply: in particular the Warsaw or Montreal Convention in the case of carriage by air and the CMR Convention in the case of carriage by road. The national laws of some countries may also extend the rules of such conventions to purely domestic carriage.

Where they apply, the rules of the Warsaw, Montreal and CMR Conventions govern and in most cases will limit our liability for loss, damage or delay to a shipment.

- the Warsaw and Montreal Convention limit is usually 17 Special Drawing Rights¹ (SDR's) per kilogram of the goods affected.
- the CMR Convention limit is 8.33 SDR's per kilogram (but restricted to the amount of the carriage charges in the case of delay).

Other Carriage:

Where Convention rules do not apply, we will only pay compensation for loss, damage or delay of a package caused by our negligence and only up to a maximum of:

- GBP 60.00 per shipment; or,
- if greater, 8.33 SDRs per kilo of the goods affected,

subject (as in all cases) to proof of loss.

You may obtain the benefit of a greater limit of liability by declaring a higher value for carriage on the UPS shipping documentation and paying a corresponding additional charge. If you declare a higher value for carriage and pay the applicable charge, then UPS's liability shall be limited to proven damages not exceeding the sum so declared (see under 'Optional services').

The value of the goods concerned shall not in any event exceed USD 50,000 (USD 500 in the case of jewellery or watches other than costume jewellery or costume watches) or its local currency equivalent per package in a shipment, as UPS does not offer carriage for goods with values above these amounts.

Except when Convention rules or other mandatory laws apply and require otherwise, we will not pay compensation for purely economic losses (such as loss of profits, loss of business opportunities or loss of revenue resulting from loss of use), even if a value has been declared for carriage in respect of the relevant shipment. We will also not be liable for any damage to or loss of packaging.

Any claim against UPS must be notified to us in writing as soon as possible and also within any specific time limit set out in our terms and conditions. In certain circumstances, Convention rules (if applicable) may permit a claim to be pursued against UPS outside these periods.

In addition to the above, any legal proceedings in respect of a shipment must be commenced and served on us within eight months of delivery or (in the case of non-delivery) of the due date for delivery. If the Warsaw, Montreal or CMR Conventions apply, there are longer time limits for the commencement of legal proceedings: in summary, 2 years in the case of the Warsaw and Montreal Conventions and 1 year (3 years if there is wilful misconduct on UPS's part) in the case of the CMR Convention.

¹ A Special Drawing Right is a unit of account adopted by the International Monetary Fund. The current value of an SDR is regularly published in major financial newspapers.

UPS Terms and Conditions of Carriage

This is the current version as at the date of publication of this Guide. The latest version, which shall always be the applicable one for new shipments, may be found at www.ups.com or obtained from a UPS Office.

1. Introduction

- A. These terms and conditions ("terms") set out the basis on which UPS will transport packages, documents and envelopes ("packages"). These terms are supplemented by the current applicable UPS Service and Tariff Guide ("the Guide"). The Guide contains important details about the services of UPS which the shipper should read and which form part of the agreement between UPS and the shipper.
- B. Depending on the country where the shipment is presented to UPS for carriage, the term "UPS" will mean and the shipper's contract will be with whichever of the following companies is applicable. That company will also be the (first) carrier of the goods for the purposes of the Conventions referred to in paragraph C.
- UK – UPS Limited; Eire – United Parcel Service of Ireland Limited; Denmark – UPS Denmark A/S; Finland – United Parcel Service Finland Oy; Norway – UPS of Norway, Inc.; Sweden – United Parcel Service Sweden AB, all of whom can be contacted c/o Avenue Ariane 5, 1200 Brussels, Belgium (although this shall not be taken in itself as conferring jurisdiction on any court).
- C. Where carriage by air involves an ultimate destination or stop outside the country of origin the Warsaw Convention may apply. The Warsaw Convention governs and in most cases limits the liability of carriers in respect of loss of or damage or delay to cargo. (For the purpose of these terms the phrase "the Warsaw Convention" means (i) the Convention for the Unification of Certain Rules Relating to International Carriage by Air signed at Warsaw on 12th October 1929 or (ii) that Convention as amended or supplemented by any protocol or supplementary convention or (iii) the Montreal Convention 1999, whichever is applicable.) Notwithstanding any clause to the contrary, international carriage by road may be subject to the provisions of the Convention on the Contract for the International Carriage of Goods by Road signed at Geneva on 19th May 1956 ("the CMR Convention").
- D. A shipment may be carried via any intermediate stopping places that UPS deems appropriate. UPS may engage sub-contractors to perform services and contracts both on its own behalf and on behalf of its servants, agents and sub-contractors each of whom shall have the benefit of these terms.
- E. In these terms, "Waybill" shall mean a single UPS waybill/consignment note or the entries recorded against the same date, address and service level on a pick-up record. All packages covered under a Waybill shall be considered a single shipment.

2. Scope of Service

Unless any special services are agreed, the service to be provided by UPS is limited to the pick up, transportation, customs clearance where applicable and delivery of the shipment. The shipper acknowledges that shipments will be consolidated with those of other shippers for transport and that UPS may not monitor the inbound and outbound movement of individual shipments at all handling centres.

UPS is not a common carrier and reserves the right in its absolute discretion to refuse carriage to any package tendered to it for transportation.

3. Conditions of Carriage

This section sets out various restrictions and conditions which apply to the carriage of packages by UPS. It also explains what the consequences are of the shipper presenting packages for carriage which do not meet these requirements.

3.1 Service Restrictions and Conditions

Packages must comply with the restrictions in paragraphs (i) to (iv) below.

- (i) Packages must not weigh more than 70 kilograms (or 150 lbs) or exceed 270 centimetres (or 108 inches) in length or a total of 330 centimetres (or 130 inches) in length and girth combined.
- (ii) The value of any package may not exceed the local currency equivalent of USD 50,000. In addition the value of any jewellery or watches, other than costume jewellery or costume watches, in a package shall not exceed the local currency equivalent of USD 500.
- (iii) Packages must not contain any of the prohibited articles listed in the Guide including (but not limited to) articles of unusual value (such as works of art, antiques, precious stones, stamps, unique items, gold or silver), money or negotiable instruments (such as cheques, bills of exchange, bonds, savings books, pre-paid credit cards, share certificates or other securities), firearms and dangerous goods.
- (iv) Packages must not contain goods which might endanger human or animal life or any means of transportation, or which might otherwise taint or damage other goods being transported by UPS, or the carriage, export or import of which is prohibited by applicable law.

The shipper shall be responsible for the accuracy and completeness of the particulars inserted in the Waybill and for ensuring that all packages set out adequate contact details for the shipper and receiver of the package and that they are so packed, marked and labelled, their contents so described and classified and are accompanied by such documentation as may (in each case) be necessary to make them suitable for transportation and to comply with the requirements of the Guide and applicable law. Unless a different service level is clearly selected on the Waybill or other applicable UPS shipping documentation, shipments will be carried under the Express service (where available to the selected destination) and all applicable charges will be calculated accordingly.

The shipper guarantees that all packages presented for carriage under these terms comply with the restrictions in paragraphs (i) to (iv) above and have been prepared in secure premises, by him (in the case of an individual shipper) or by reliable staff employed by him and have been protected against unauthorised interference during their preparation, storage and transportation to UPS. UPS relies on this guarantee in accepting any package for carriage hereunder.

- 3.2 Perishable and temperature sensitive goods will be transported provided that the shipper accepts that this is at its risk. UPS does not provide special handling for such packages.

3.3 Refusal and Suspension of Carriage

- (i) If it comes to the attention of UPS that any package does not meet any of the above restrictions or conditions or that any COD amount stated on a COD Waybill exceeds the limits specified in paragraph 8, UPS may refuse to transport the relevant package (or any shipment of which it is a part) and, if carriage is in progress, UPS may suspend carriage and hold the package or shipment to the shipper's order.
- (ii) UPS may also suspend carriage if it cannot effect delivery at the third attempt, if the receiver refuses to accept delivery, if it is unable to effect delivery because of an incorrect address (having used all reasonable means to find the correct address) or because the correct address is found to be in another country from that set out on the package or Waybill or if it cannot collect amounts due from the receiver on delivery.
- (iii) Where UPS is entitled to suspend carriage of a package or shipment, it is also entitled to return it to the shipper at its own discretion.

- 3.4 The shipper will be responsible for the reasonable costs and expenses of UPS (including storage), for such losses, taxes and customs duties as UPS may suffer and for all claims made against UPS because a package does not meet any of the restrictions, conditions or representations in paragraph 3.1 above or because of any refusal or suspension of carriage or return of a package or shipment by UPS which is allowed by this paragraph 3. In the case of the return of a package or shipment, the shipper will also be responsible for paying all applicable charges calculated in accordance with the prevailing commercial rates of UPS.

- 3.5 If the shipper tenders to UPS a package which fails to comply with any of the restrictions or conditions in paragraph 3.1 above without UPS' express written consent, UPS will not meet any loss howsoever arising which the shipper may suffer in connection with the carriage by UPS of such package (regardless of whether that failure to comply has caused or contributed to the loss and notwithstanding any negligence on the part of UPS or its employees, contractors or representatives) and, if UPS does suspend carriage for a reason allowed by these terms, the shipper shall not be entitled to any refund on the carriage charges it has paid. UPS may bring a claim in respect of such non-compliance.

- 3.6 If, having suspended carriage of a package or shipment in accordance with these provisions, UPS is unable within a reasonable time to obtain the shipper's instructions on disposition of the package or shipment or to identify the shipper or any other person entitled to the goods (having if necessary opened the package), UPS shall be entitled to destroy or sell the package or shipment, at its absolute discretion. The proceeds of any such sale shall first be applied to any charges, costs or expenses (including interest) outstanding in respect of the package or shipment or otherwise from the shipper concerned. Any balance shall be held to the shipper's order.

- 3.7 UPS reserves the right, but is not obliged, to open and inspect, or scan by means of X-ray, any package tendered to it for transportation at any time.

4. Customs Clearance

- 4.1 Where a package requires customs clearance, it is the shipper's responsibility to provide complete and accurate documentation for the purpose but UPS will unless instructed otherwise act as the shipper's agent in obtaining customs clearance. Provided that, in the case of shipments whose points of despatch and destination are both within the same customs area, UPS will only perform customs clearance if instructed to do so. The shipper also agrees that UPS may be considered as being the receiver of the package for the sole purpose of appointing a customs broker to carry out any customs clearance.

- 4.2 If any duties, taxes, penalties, charges or expenses are imposed or incurred as a result of any action by the customs authorities or as a result of any failure by the shipper or the receiver to provide correct documentation or any permits or licences required in connection with carriage, the receiver will initially be charged by UPS with payment and, if UPS cannot collect payment from the receiver on request, it will be the shipper's responsibility to pay to UPS the amount in question.

5. Payment

- 5.1 The rates for carriage and other services are set out in the Guide and, unless paid before shipment, all charges must be paid within 7 days of receipt of invoice or within such other period as the shipper may have agreed in writing with UPS. UPS may verify the actual and/or dimensional weight of packages and, if greater than the declared weight, invoice on such basis. Unless proved otherwise, an invoice shall be considered for this purpose to have been received three business days following the date of invoice.
- 5.2 If UPS is required to pay any taxes, duties or levies on behalf of the shipper, receiver or some other party, and UPS is unable to recover such amount on request from the relevant person, that amount will be payable by the shipper on demand. This also applies in cases where the receiver or, in the case of third party billing, the third party fails to pay any charges which they are due to pay.
- 5.3 Any sum payable to UPS which is overdue will bear interest at the rate specified on the invoice from the due date to the date UPS receives payment whether before or after judgment. In addition, UPS reserves the right to charge a late payment administration fee up to a maximum of GBP 40 (EUR 15 in Eire and Finland, DKK 100 in Denmark, NOK 265 in Norway and SEK 50 in Sweden) per invoice.
- 5.4 If any sum is not paid by the shipper, receiver or some other party under these terms, UPS may hold any packages it is carrying until it receives payment in full or may sell such packages and use the proceeds to make good the debt to it in accordance with applicable local law. Any unpaid balance will remain payable.
- 5.5 UPS' rates for carriage set out in the Guide are calculated only for the carriage of packages which do not exceed in value the local currency equivalent of USD 50,000. In the event that UPS becomes aware that it has carried a package which, without UPS' express written consent, exceeds this value, then, in addition to the otherwise applicable rates and charges and any other remedies under these terms, an additional carriage charge equivalent to 5% of the value of the package in excess of USD 50,000 is applicable.

6. Interruption of Service

If UPS is unable to start or continue with carriage of the shipper's package for a reason beyond its control, UPS will not be in breach of its agreement with the shipper but will take all steps that are reasonably practicable in the circumstances to commence or continue the carriage. Examples of events beyond UPS' control are disruption to air or ground transportation due to bad weather, fire, flood, war, hostilities, civil disturbance, acts of government or other authorities (including, without limitation, customs) and labour disputes or obligations affecting UPS or some other party.

7. Money Back Guarantee

For certain services and destinations, UPS offers a money back guarantee on the shipping charges. Details of its applicability, terms and conditions and of the corresponding delivery and latest pick up time for the relevant service and destination are as set out in the Guide and on the UPS website (www.ups.com), each as current at the time the goods are accepted for carriage, and can also be confirmed by contacting the shipper's local UPS call centre. For the avoidance of doubt, the liability of UPS under the money back guarantee is limited to the above and the guarantee does not otherwise constitute any form of undertaking or representation that the shipment will arrive by any particular time.

8. Collect on Delivery (COD)

For certain destinations as advised by the local UPS call centre, UPS offers a COD service on payment of an additional charge as set out in the Guide. If the shipper makes use of this service, subject to the provisions set out below (including those relating to currency conversion) UPS will collect on behalf of the shipper the COD amount stated on the Waybill.

COD amounts must be specified on the Waybill in either EUR or, if different, the currency of the country of destination. Where any of the COD amounts specified on the Waybill, collected from the receiver and/or paid to the shipper are in different currencies from each other, the conversion(s) will be made at such exchange rate(s) as UPS may reasonably determine.

UPS does not accept responsibility for any currency exchange risks.

8.1 Cash COD – Where UPS is instructed on the Waybill in accordance with applicable UPS guidelines to accept cash only, UPS will collect only cash, in the currency of the country of destination. Where cash is collected, the maximum amount collectible in that form on behalf of a shipper shall be the local currency equivalent of USD 5,000 per receiver per day. Notwithstanding the foregoing, for COD shipments to receivers located in France, the maximum amount collectible in cash on behalf of a shipper is EUR 750 per receiver per day. Further limitations may apply in certain countries from time to time; details of such limitations will be set out either in the Guide or at the UPS Website (www.ups.com).

If the shipper specifies a COD amount that exceeds these limits, UPS will automatically be entitled to accept cheques for the whole or any part of that amount.

8.2 Cheque COD – If the Waybill does not clearly (and in accordance with applicable UPS guidelines) instruct UPS to accept only cash, UPS may accept payment either in cash (subject to the restrictions in section 8.1) or by any kind of cheque made out to the shipper that is recognised in the country of destination of the shipment. Where UPS accepts cheques the maximum amount collectible in any form shall not exceed the equivalent of USD 50,000 per package. Where UPS is permitted to accept a cheque, it may collect a cheque denominated in either EUR or, if different, the local currency of the country of destination.

8.3 Payment of Collected COD Amounts – Where UPS collects cash, UPS will pay to the shipper an equivalent amount in the local currency of the country where the shipment was presented to UPS for transportation. UPS may make such payments of COD amounts by either wire transfer to any bank account notified to UPS by the shipper or issuing a cheque in favour of the shipper.

Any cheques in favour of the shipper, issued either by UPS as set out above or by the receiver and collected by UPS pursuant to Section 8.2, may either be forwarded to the shipper by regular mail at the shipper's risk or handed over to the shipper or to any other person appearing to have authority to accept the cheque on the shipper's behalf.

8.4 In the event of non-receipt by the shipper of COD amounts, the shipper must notify UPS in writing within 45 days of the date of delivery of the package concerned.

8.5 The shipper will indemnify UPS for all losses, expenses, and any claims made against UPS by the receiver or a third party, arising where UPS does not deliver a package because the receiver does not pay the COD amount in the appropriate form or refuses to accept the package.

8.6 The liability of UPS in respect of the amount to be collected shall not exceed either the applicable maximum amount collectible under these terms or the COD amount indicated on the Waybill, whichever is the lesser. Further, the COD amount shall not in any event exceed the value of the goods at their destination plus applicable carriage charges. For the avoidance of doubt, a COD amount does not constitute declaration of a value for the purpose of paragraph 9.4 or otherwise and therefore shall not affect the liability of UPS for any loss, damage or delay to the goods themselves.

UPS does not accept any responsibility for any dishonest or fraudulent acts on behalf of the receiver including, but not limited to, presenting a fraudulent cheque or one which is later dishonoured, or for cheques incorrectly completed by the receiver.

9. Liability

9.1 Where the Warsaw or CMR Conventions or any national laws implementing or adopting these conventions apply (for convenience referred to as Convention Rules) or where (and to the extent that) other mandatory national law applies, the liability of UPS is governed by and will be limited according to the applicable rules.

9.2 Where Convention Rules or other mandatory national laws do not apply, UPS will only be liable for failure to act with reasonable care and skill and its liability shall be exclusively governed by these terms and (save in the case of personal injury or death) limited to proven damages not exceeding the greater of either:

(a) GBP 60 per shipment in the case of goods presented in the UK to UPS for carriage (EUR 85 in Eire and Finland, DKK 635 in Denmark, NOK 655 in Norway, SEK 785 in Sweden); or

(b) 8.33 Special Drawing Rights ("SDRs") per kilo of the goods affected,

unless a higher value has been declared by the shipper under paragraph 9.4 below. An SDR is a unit of account adopted by the International Monetary Fund and its current value is regularly published in major financial newspapers. As at the date of publication of these terms 8.33 SDRs was equal to approximately GBP 6.

9.3 If the claimant (or any person from whom he derives his right to claim) has caused or contributed to any loss, damage or delay to a shipment or package, any liability UPS may incur in respect thereof (limited as above) may be reduced or extinguished in accordance with the law applicable to such contributory negligence.

9.4 Subject to the provisions of paragraph 9.5, the shipper may obtain the benefit of a greater limit of liability than UPS provides under paragraph 9.2 above or than may be provided by Convention Rules or other mandatory national law. The shipper may do so by declaring a higher value on the Waybill and paying an additional charge as stated in the Guide. If the shipper declares a higher value for carriage and pays the applicable charge, then UPS's liability shall be limited to proven damages not exceeding the sum so declared. The value of the goods concerned shall not in any event exceed the limits specified in paragraph 3.1(ii).

9.5 Save where Convention Rules or other mandatory national laws require otherwise, UPS does not accept responsibility for purely economic losses, such as the costs of any alternative means of transport, loss of profits, loss of business opportunities or loss of revenue resulting from loss of use, arising from any loss of or damage or delay to a shipment or package, whether or not a value has been declared in respect of the relevant shipment under paragraph 9.4.

UPS shall not be liable for any damage to or loss of any packaging.

10. Delivery

UPS may deliver a shipment to the receiver named on the waybill or to any other person appearing to have authority to accept delivery of the shipment on the receiver's behalf (such as persons at the same premises as the receiver or neighbours of the receiver). UPS may use an electronic device to obtain proof of delivery and the shipper agrees that it will not object to UPS relying on a printed copy of this as evidence merely on the grounds that the information concerned is obtained and stored in electronic form.

Save where Convention Rules or other mandatory national laws require otherwise, UPS accepts no responsibility in any circumstances to suspend carriage, redirect delivery (whether to a different receiver or address from that named on the Waybill) or return a package to its shipper and, in the event that it should attempt but fail to do so, shall have no liability for any losses thereby occasioned.

11. Data Protection

The shipper agrees that UPS and other companies in the UPS group of companies worldwide, including companies in countries which may not have the same level of data protection as the country where the shipment is presented to UPS for carriage, may use any data provided by the shipper to UPS for management analysis and monitoring, the purchase and supply of customer materials, administration of customer accounts and the advertising of services and products provided by UPS companies. The shipper has certain rights under the law (exercisable by contacting UPS) to have access to, rectify, object to the use for direct marketing of, or delete personal data held by UPS about it.

12. Claims Procedure

All claims against UPS must be notified in writing as soon as reasonably practicable and in any event within 14 days of receipt in the case of damage (including partial loss of a shipment), in the case of delay within 21 days of the goods being placed at the disposal of the person entitled to delivery and in the case of loss within 60 days of the goods being consigned with UPS for carriage. In addition, UPS will have no liability in connection with any shipment unless legal proceedings are brought and written notice of them is given to it within eight months after delivery of the goods concerned or, in the case of non-delivery, within eight months from the scheduled date for delivery. This term shall not affect any rights the shipper may have under Convention Rules or other mandatory national laws.

13. Entire Agreement & Severability

It is the intention of UPS that all the terms of the contract between it and the shipper are contained in this document and in the Guide. If the shipper wishes to rely on any variation to these terms, it must ensure that that is recorded in writing and signed by the shipper and on behalf of UPS before the shipment is accepted for carriage by UPS. If any part of these terms is not enforceable, this will not affect the enforceability of any other part.

14. Governing Law

These terms shall be governed by the laws of the country where the shipment is presented to UPS for carriage.
