

UPS Healthcare

Quality Focused. Patient Driven.

Detail at Scale. Logistics and Solutions for Medical Devices & Supplies

Rising costs, falling reimbursement rates and reduced margins are making it more challenging than ever for medical device companies to efficiently get their products to the reps, providers, distributors and patients who need them.

Imagine if you could
optimize your supply
chain to help:

Make Outbound
Shipping More
Efficient

Protect Your
Products

Increase
Visibility

Enhance
the Patient
Experience

Simplify
International
Expansion

UPS is here to help you deliver on these demands with optimized products, processes, innovative technology tools and flexible delivery options.

From cost management to product protection, UPS helps medical device and supply companies deliver around the globe.

Make Outbound Shipping More Efficient

We can help you optimize your inventory through more efficient shipping and logistics. You'll also gain a better understanding of end to end costs—all with the reliability of a global logistics leader.

- **Mode Optimization:** Boost transportation efficiency using ground, air and international packaging services, whether you need it the next day, the next week, early in the morning or at the end of day
- **Increase Dock Efficiencies:** UPS's one driver advantage means you have one driver for air, international and ground packages which means fewer trucks at your dock
- **Flexibility:** Truckload and less-than-truckload freight options for standard and urgent delivery
- **Mitigate Risk:** A variety of insurance and packaging options

95% of the world's populations lives outside of the U.S., which means expanding internationally is a huge opportunity.

We Can Help You:

Support Visibility and Regulatory Compliance

UPS offers technology solutions including Quantum View®, UPS My Choice® for business and WorldShip® to:

- Enhance visibility, tracking and monitoring
- Help improve customer service and satisfaction
- Have proof of delivery information at your fingertips

Enhance the Patient Experience

UPS services and technology can improve the patient experience, while helping to streamline returns using:

- **UPS My Choice®:** Featuring “follow my delivery” for eligible shipments which empowers patients to take control of their delivery
- **Day Before Delivery Notifications:** Reduces unexpected deliveries

Simplify International Expansion

UPS understands international shipping, including customs rules and regulations. And with more than 2,000 daily flights to over 200 countries and territories, time-definite delivery options, up-to-the minute tracking, and expertise in customs clearance, UPS helps make international shipping easier.

Navigate complex regulatory and customs clearance processes

Gain cross-border shipment transparency around entry, delivery, tracking and billing using UPS's Quantum View® and Flex® Global View tools

Identify export opportunities that fit with your products and provide marketing support to help you get started
