

UPS Healthcare

Quality Focused. Patient Driven.

UPS Supply Chain Symphony™

BUSINESS INTELLIGENCE PORTAL

One platform to bring it all together.

Supply chains can get complicated quickly.

- How much inventory do you have?
- How many open orders?
- Are shipments hitting their milestones?

Now you can access your UPS Healthcare warehouse and managed transportation data from one place. View pertinent information in simple formats ranging from drill-down dashboard tables to self-service reports. This customer engagement and visibility portal empowers you to make better, quicker decisions.

 For more information visit ups.com/Symphony

Monitor your inbound and outbound supply chain with our suite of user-friendly tools.

The portal will provide an intuitive way for you to engage with and enhance your supply chain.

DASHBOARD

View all ASN/orders and shipments by status

REPORTS

Self-serve reports allow you to pull inbound and outbound historical details; on time performance; overages, shortages & damages; and exceptions

ITEM SEARCH

Network wide inventory view and inventory availability

TRACK AND TRACE

In transit and warehouse status
