**Based on the greater of actual weight or dimensional weight. Dimensional weight calculated as (L" x W" x H")/166.

To calculate your bundled rate:

- BASE RATE:**
Identify the base rate by matching the shipping zone of the customer with your desired service level.
- ADDITIONAL RATE PER POUND:**
Multiply the weight** of the package (rounded up) by the rate per pound.
- TOTAL RATE:**
Add the base rate and rate per pound together.

Example:

Doll House
Weight: 15lbs
Buyer in Zone A

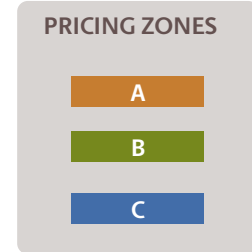

2 Day: \$16.30
Base Rate: \$9.55
+ Rate/lb: \$0.45 x 15

Standard: \$14.65
