

Business can be
unpredictable.
Your pickup options
shouldn't be.

Everyone appreciates the comfort of a little predictability in an otherwise hectic workday. That's why our comprehensive suite of pickup options is designed to work the way you work. Flexibly, efficiently and economically.

Choose the pickup option that fits your business, and help reduce CO₂ emissions, too.

Start with **UPS Smart Pickup**[®] which gives you the dependability of a scheduled pickup time at a low weekly rate, but only when you need it. This eliminates unnecessary trips on days you don't have a pickup, saving fuel and reducing carbon emissions. No other carrier can say that.

Plus our one-driver advantage means your ground, air and international packages are all picked up at the same time. More convenient for you, fewer trips for us, which means less fuel consumption. And that's good for everyone.
