Set Air Freight Shipper Preferences

To set Air Freight shipper preferences:

<table>
<thead>
<tr>
<th>Step</th>
<th>Window (if available)</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.</td>
<td>On the <strong>Tools</strong> tab in the <strong>Shipping</strong> or <strong>History</strong> window, select <strong>Shipper Editor</strong>.</td>
</tr>
<tr>
<td>2.</td>
<td>The <strong>Shipper Editor</strong> window appears.</td>
</tr>
<tr>
<td></td>
<td>- Select the shipper that you want to modify under <strong>Existing Shipper Numbers</strong>.</td>
</tr>
<tr>
<td></td>
<td>- Click <strong>Modify</strong>.</td>
</tr>
<tr>
<td>Step</td>
<td>Window (if available)</td>
</tr>
<tr>
<td>------</td>
<td>-----------------------</td>
</tr>
</tbody>
</table>
| 3.   | The **Modify Shipper** window appears.  
      | Click the **Freight** tab. |
| 4.   | The **Freight** tab appears.  
      | - Under **Number of Labels to Print**, type the number of labels to print (from 1 to 99) in the **Per Handling Unit** box.  
        - **Tip:** Four labels are currently required per shipment/pallet/handling unit.  
        - The following **Ground Freight** fields appear only for Ground Freight shippers eligible to consolidate and close out shipments:  
          - Select the **Consolidate Shipments** check box to consolidate shipments, or clear the check box if you do not want to consolidate shipments.  
          - If you select the **Consolidate Shipments** check box, click the down arrow in the **Based on Reference Number** box and select the reference number as a Ground Freight shipment consolidation criteria.  
        - Under **Number of Labels to Print (Worldwide Express Freight)**, type the number of labels to print in the **Per Pallet** box.  
        - Click **OK**. |

Process an Air Freight Shipment

To process an Air Freight shipment:

<table>
<thead>
<tr>
<th>Step</th>
<th>Window (if available)</th>
</tr>
</thead>
</table>
| 1.   | **Ship To** tab in the **Shipping** window:  
   a) Type the address of the person or company where the shipment is to be delivered.  
   b) Click **Service** tab.  
   c) Select the **Freight** check box. |
2. On the **Service** tab:
   a) Click the down arrow in the **UPS Service** box and select an Air Freight service type.
   b) Click the down arrow in the **Bill Transportation To** box and select who will pay for the transportation, duty, and taxes.

   **Note:** If you select **Third Party**, the **Third Party Address** window appears. In this window, type information about the third party and click **OK**. The **appears on the Service tab to the right of Third Party** indicating you have selected **Third Party**. Click the **to view or change the third-party information.**
   c) Click the **Commodity Search** and continue with step 4.

3. On the **Service** tab, specify the **Commodity** information using either of the following methods or a combination thereof:
   - Search commodities that you entered in the **Commodity Editor** and select those commodities that apply to the shipment that you are processing. To use this method, click the **Commodity Search** and continue with step 4.
   - Enter each commodity separately. To use this method, skip to step 7.
4. The Commodity Search window appears and shows all the commodities that you entered through the Commodity Editor.

Use the following methods to search for commodities:

- Use the side scroll bar to scroll through the Search Results list.
- Click the column heading to sort the list in ascending or descending order by that column.
- Use the fields in the Search box to narrow the Search Results and then click Search.

5. The Commodity Search window appears and shows all the commodities that match your search criteria.

- Select the check box in the Select Commodity column for each commodity that you want to add to the commodity list on the Service tab.
- To edit a number in the Pieces or Total Weight column for a particular commodity, double click the number and type the new number.
- Click Add.
6. The **Shipping** window appears and the commodity (or commodities) that you selected in the **Commodity Search** window appear in the commodity list on the **Service** tab.

For each commodity in the commodity list:

a) Select the commodity and review its attributes.

b) To update a commodity, update the fields and select the **Save/Update Commodities** check box.

c) To delete a commodity, select the commodity and click **Delete**.

d) To delete all of the commodities, click **Delete All**.
7. On the **Service** tab, specify the commodity information for a new commodity as follows:
   - Under **Description**, type the description.
   - Under **Packaging Type**, click the down arrow and select a packaging type.
   - Under **Pieces**, enter the number of pieces (up to and including 9,999).
   - Under **Total Weight**, type the weight.
   - Under **Length**, type the largest dimension.
   - Under **Width**, type the second largest dimension.
   - Under **Height**, type the third largest dimension.
   - Select the **Save/Update Commodities** check box to indicate if your entries should be saved to the Commodity Editor.

8. Do the following:
   - Repeat step 7 to add more commodities as needed.
   - Once you have added all of the commodities for this shipment, click the **Options** tab.
<table>
<thead>
<tr>
<th>Step</th>
<th>Window (if available)</th>
</tr>
</thead>
</table>
| 9.   | **The Options** tab appears.  

- Select a **Shipment Option** check box. Entry fields appropriate to that option appear at the right.  
- Type the needed information or select the needed options.  
  **Tip:** Information does not have to be typed immediately, but must be completed before you can process the shipment.  
- Repeat this step for each additional option.  
  **Tip:** To remove an option, clear the check box next to the selected option.  
- Click **Detail Cost**.  
| ![Options Tab](image1.png) |
| 10.  | **The Pieces Shipped As** window appears.  

- Enter details for **Describe the Handling Units (moveable pieces) in this shipment**.  
- Click **Continue**.  
| ![Pieces Shipped As](image2.png) |
| 11.  | **The Detail** tab appears.  

Continue as follows:  
- Under **Pieces Shipped As**, change the number of pieces for each handling unit as needed.  
- In the **Special Instructions for Handling** box, type up to 400 characters.  
- In the **Consignee Remarks** box, type up to 400 characters.  
- In the **Pickup Date** box, click the down arrow and select the pickup date on the calendar.  
- Click **Select Countries Of Original Manufacture**.  
| ![Detail Tab](image3.png) |
12. The **Select Countries Of Original Manufacture** window appears.
   - In each **Country Of Original Manufacture** box, click the down arrow and select a country as needed.
   - **Note**: You must select at least one country of manufacture for an **Air Freight** shipment with a Canada destination.
   - Click **OK**.

13. The **Detail** tab appears.

   Click the **Reference** tab.
14. The Reference tab appears.

Continue as follows:
- Select the Shipper Reference and/or Consignee Reference reference type and type the reference number in the Reference Number box.
- Click Add, Update, or Delete to select that action.
- Click the Documents tab.

15. The Documents tab appears.

Click Packing List.
16. The **Packing List** window appears and shows the commodities that you entered on the **Service** tab and the **Pieces Shipped As** that you entered on the **Detail** tab.

   a) Update the commodities list as needed using the fields under **Commodity** then click **Add**, **Delete**, or **Update**.

   b) In the **Memo** box, type the information to print on the **Packing List**.

   **Note:** When your shipment is processed, only this information is saved with the shipment for future repeat/reprint of the **Packing List**.

   c) Update the **Pieces Shipped As** boxes as needed.

   d) In the **Number of Copies** box, type the number of copies of the **Packing List** to print.

   e) In the **Language** box, click the down arrow and select the language in which to print the **Packing List**.

   f) Click **Print**. The displayed **Packing List** details print.

   g) Click **Close**. The **Packing List** window closes.

   **Note:** All updates are saved until the shipment is processed or discarded. If you save the shipment as a draft, however, the updates are not saved with the shipment.
<table>
<thead>
<tr>
<th>Step</th>
<th>Window (if available)</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Note:</strong> If the shipment is an international shipment, the <strong>Documents</strong> tab is replaced with the <strong>Customs Documentation</strong> tab. For a detailed description on this tab see the WorldShip Help, <strong>Shipping Window Overview</strong> topic, <strong>Customs Documentation</strong> tab section.</td>
<td></td>
</tr>
<tr>
<td>17. Select the <strong>SLI</strong> tab to set up printing of the Shipper’s Letter of Instruction (SLI).</td>
<td><img src="image1" alt="SLI tab" /></td>
</tr>
<tr>
<td>- Select the <strong>Ultimate Consignee Same as Ship To</strong> check box if the ultimate consignee is the same as the receiver. The <strong>Ultimate Consignee Address</strong> window appears. After you provide the ultimate consignee information, the ... appears on the <strong>SLI</strong> tab. Click the ... to edit the ultimate consignee information.</td>
<td><img src="image2" alt="Ultimate Consignee Address" /></td>
</tr>
<tr>
<td>- Select the <strong>Intermediate Consignee</strong> check box, as needed. The <strong>Intermediate Consignee Address</strong> window appears. After you provide the intermediate consignee information, the ... appears on the <strong>SLI</strong> tab. Click the ... to edit the intermediate consignee information.</td>
<td><img src="image3" alt="Intermediate Consignee Address" /></td>
</tr>
<tr>
<td>- Click the down arrow in the <strong>Routed Transaction</strong> box and select <strong>Yes</strong> or <strong>No</strong>. Yes means that the foreign principal party in interest authorizes a US forwarding or other agent to facilitate export of items from the US.</td>
<td><img src="image4" alt="Routed Transaction" /></td>
</tr>
<tr>
<td>- Click the down arrow in the <strong>Parties to Transaction</strong> box and select an item. Related means the shipper and ultimate receiver are with the same company; Non-Related means they are with different companies.</td>
<td><img src="image5" alt="Parties to Transaction" /></td>
</tr>
<tr>
<td>- Click <strong>Additional Information</strong> to display the <strong>SLI - Additional Information</strong> window options.</td>
<td><img src="image6" alt="Additional Information" /></td>
</tr>
<tr>
<td>- <strong>Under Documents</strong>, select the check boxes to indicate all documents to be attached and to be prepared.</td>
<td><img src="image7" alt="Documents" /></td>
</tr>
<tr>
<td><strong>Tip:</strong> You cannot select the <strong>Certificate of Origin</strong>, <strong>Banking (Sight Draft)</strong>, and <strong>Export License</strong> under both <strong>Attached</strong> and <strong>To Be Prepared</strong>.</td>
<td><img src="image8" alt="Certificate of Origin" /></td>
</tr>
<tr>
<td>- Complete the remaining fields as needed: <strong>Special Instructions</strong> for Shipment, <strong>Extra Description</strong>, <strong>Certificate of Origin Number</strong>, and <strong>Duty Authorized Officer or Employee</strong>.</td>
<td><img src="image9" alt="Special Instructions" /></td>
</tr>
<tr>
<td>- Under <strong>Goods</strong>, select the <strong>SLI</strong> check box for each commodity you want to include in the <strong>SLI</strong>.</td>
<td><img src="image10" alt="Goods" /></td>
</tr>
<tr>
<td>- Click <strong>OK</strong>.</td>
<td><img src="image11" alt="OK button" /></td>
</tr>
</tbody>
</table>
### Step 18

The **Shipping** window appears.

Click **Process (F10)**.

### Step 19

The **Pickup/Drop Off Request** window appears.

- Verify and update the information as needed.
- Click **OK**.

20. If no connection can be established with UPS, the Offline Processing window appears.
   - Follow the instructions.
   - Click Continue.

21. The Shipment ID Number window appears.
   - Type the Shipment ID number in the ShipmentID Number box if you have the number.
   - Click OK.

22. A blank Shipping window appears.
View Shipment History for an Air Freight Shipment

To view shipment history in WorldShip for an Air Freight shipment:

<table>
<thead>
<tr>
<th>Step</th>
<th>Window (if available)</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.</td>
<td>On the <strong>Home</strong> tab, select <strong>History</strong> or press the F3 key on the keyboard.</td>
</tr>
</tbody>
</table>
| 2.   | The Shipment History window shows the shipment under **Air Freight**.  
- If you typed the Shipment ID number in the **ShipmentID Number** window (see step 21 in the process procedure), the number is shown in parentheses. Select the number and continue to **Add Air Freight Commodities using Commodities Editor Step 1**. |
3. If you did not type the Shipment ID number in the **Shipment ID Number** window (see step 21 in the process procedure), the number is not shown in parenthesis.
   - Get the number from your UPS driver.
   - Type the number in the **Shipment ID** box on the **Shipment** tab.
   - Click **Save**.

The information for the Air Freight shipment appears on various tabs on the right side of this window.
Add Air Freight Commodities using Commodity Editor

You must add your commodity information into WorldShip using the Commodity Editor before you can search for Air Freight commodities during shipment processing.

To add Air Freight commodities using the Commodity Editor:

<table>
<thead>
<tr>
<th>Step</th>
<th>Window (if available)</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.</td>
<td>On the <strong>Tools</strong> tab, select <strong>Commodities</strong> and then <strong>Freight</strong>.</td>
</tr>
</tbody>
</table>
2. The **Freight Commodity Editor** window appears.

   Under **Commodity Common Data**:
   
   a) In the **Description** box, type a description of the commodity or click the down arrow and select an existing description for the commodity.
   
   b) In the **Packaging Type** box, click the down arrow and select an existing packaging type for the commodity.
   
   c) In the **Unit Weight** box, type the weight for the commodity.
   
   d) In the **Total Weight** box, type the total weight for the commodity.
   
   e) Select the **HAZMAT/Dangerous Goods** check box if the commodity is classified as a HAZMAT/Dangerous Good.

   Under **Air Freight Commodity**:
   
   a) In the **Length** box, type the largest dimension.
   
   b) In the **Width** box, type the second largest dimension.
   
   c) In the **Height** box, type the third largest dimension.
   
   d) Click **Add/Modify Commodity**.

3. A blank **Freight Commodity Editor** window appears.
   
   - Repeat step 2 as needed.
   
   - Click **Close**.
