

UPS is ready for the holidays

You've been busy preparing for the festive season – just like us!

We take care of our community

We're hiring seasonal workers across Europe, including temporary workers in our sorting hubs, **1,000 helpers**, **370 more drivers** and **over 1,000 subcontractor** delivery routes.

We'll continue to provide customers with the excellent service we are known for, and prioritise the **safety** of our people and the communities we serve

For the safety of our customers and consignees, **contactless delivery** and **cashless collection** will continue during the holiday season

As your business grows, so do we

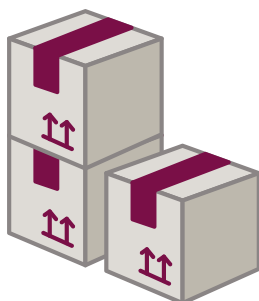

We've added **727** additional vehicles to our fleet of over 9,000

Plus **12** additional flights for when you need to reach your customers faster

We've opened **new hubs** this year in Zurich, Ljubljana, Barcelona and Istanbul

Now we have the capacity to handle **32,000** more parcels per hour

More volume, same UPS reliability and quality of service.

Extended operational hours and more weekend operations.

While your customers shop online, **we get ready to deliver**

On Saturdays you can now deliver to **UPS Access Point™** locations across eight top European e-commerce markets at your normal Standard weekday rate

We're ready for those **Monday delivery spikes** after weekend orders, thanks to extra weekend sorts in all of our major European hubs

Our network of **17,500 UPS Access Point locations** across Europe means fewer missed deliveries and more convenience for your customers

We expect our busiest day to be Wednesday **2 December**, following the surge in online orders on Black Friday and Cyber Monday

Our know-how

Our service is second to none – we're renowned for our reliability and safety record.

We have over 48,000 dedicated and proud UPSers in Europe!

UPS wishes you a happy and prosperous holiday season!
