

UPS® Fuel Surcharge

UPS® Standard Fuel Surcharge

The Standard Service Fuel Surcharge applies to all UPS Standard shipments. Changes to the surcharge will be effective on Monday of each week, and are based on the consumer prices of diesel fuel set by the European Commission Directorate General (ECDG), inclusive of duties and taxes from two weeks prior, rounded to the nearest cent. For example the surcharge for the week of November 14, 2022 is based on the diesel fuel price for the week of October 31, 2022. Weekly updates are published by the European Commission Directorate General (ECDG) for Energy and Transport in the Oil Bulletin.

The Standard Service Fuel Surcharge will be set in relation to the following table:

UPS® All Express Services and Expedited Service Fuel Surcharges

UPS uses an index-based surcharge that is adjusted weekly. Changes to the surcharge will be effective on Monday of each week. The surcharge will be based on the U.S. Gulf Coast (USGC) price for kerosene-type jet fuel as reported by the U.S. Energy Information Administration (EIA) for the week that is two weeks prior to the adjustment, rounded to the nearest cent. For example, the surcharge for the week of November 14, 2022 is based on the U.S. Gulf Coast (USGC) Jet Fuel Price for the week of October 31, 2022.

The Europe Domestic Air/International Air will be set in relation to the following table:
