

UPS[®] Peak/Demand Surcharges

November 4, 2022 Update

UPS will continue service amid the ongoing coronavirus pandemic and upcoming holiday season to support the demand and needs of our customers. Our goal is to ensure businesses and customers are able to meet their shipping needs as the demand for air cargo capacity increases.

To better manage the surge in demand for air cargo capacity and the increased costs to maintain service, UPS will continue to implement a temporary peak/demand surcharge on shipments worldwide. At the same time, we will also make service adjustments to manage increased demand over the holiday season. For information on service adjustments, please refer to the [gold service alert ribbon](#) on UPS.com.

UPS Peak/Demand Surcharge

Effective September 25, 2022, UPS will revise peak/demand surcharge rates for selected shipments in response to market conditions. See tables below for more information.

Peak/Demand Surcharges¹ are subject to change and peak or high demand periods may be extended or otherwise changed. Shippers should continue to check [ups.com/rates/jp](#) for updates prior to tendering shipments.

¹Applicable to shipments billed on a Freight Collect, Prepaid and Third Party basis. Those billed on a Freight Collect and Third Party basis will be charged in the currency where payors are located. Charges to a Third Party payor's account in a foreign currency will be converted to the payor's currency using a weekly exchange rate secured through Major Money Centre Banks, plus an exchange fee equal to 0.75% of the amount converted.

Note: Peak/Demand Surcharge applies in addition to existing rates, charges, fees and surcharges including UPS Fuel Surcharge.

A. Peak/Demand Surcharge – Applied to shipments from Asia Pacific to global destinations excluding those listed in Section B

The peak/demand surcharge under this section will apply to shipments from Asia Pacific to specified destinations for the service levels and peak or high demand periods set forth below. This peak/demand surcharge will be applied as a rate per kilogram based upon the billable weight of the shipment, at increments of 0.5kg.
