

# UPS® Demand Surcharge

January 17, 2023 Update

UPS will continue service amid the ongoing coronavirus pandemic and upcoming holiday season to support the demand and needs of our customers. Our goal is to ensure businesses and customers are able to meet their shipping needs as the demand for air cargo capacity increases.

To better manage the surge in demand for air cargo capacity and the increased costs to maintain service, UPS will continue to implement a temporary demand surcharge on selected shipments worldwide. For information on service adjustments, please refer to the [gold service alert ribbon](#) on UPS.com.

## UPS Demand Surcharge

Effective December 25, 2022, UPS will revise demand surcharge rates for selected shipments in response to market conditions. See tables below for more information.

Demand Surcharges<sup>1</sup> are subject to change and peak or high demand periods may be extended or otherwise changed. Shippers should continue to check [ups.com/rates/mo](#) for updates prior to tendering shipments.

For more information on demand surcharges applicable on shipments to or from other countries or territories, please visit the respective countries or territories UPS.com rate pages.
