

# UPS<sup>®</sup> Peak Surcharge

## July 4, 2021 Update

UPS continues to ensure businesses and customers are able to meet their shipping needs as the demand for air cargo capacity changes. UPS reviews and adjusts the temporary peak surcharge as necessary to respond to market conditions. The peak surcharge balances the challenges of a dynamic market to best move shipments in a timely manner as well as manage the increased costs to maintain service. Our ultimate goal is to ensure every customer obtains the delivery capacity they need along with predictable and timely service.

## UPS Peak Surcharges

As previously announced, peak surcharges apply to certain international shipments. Effective July 4, 2021 until further notice, the following change will apply to some of these peak surcharges in response to evolving market conditions:

- The amount of the peak surcharges applied to shipments from China Mainland and Hong Kong SAR to Europe, last revised on February 28, 2021, will decrease (See section A below)

The previously announced peak surcharges for all other international shipments from, or paid in, the 19 countries in Europe<sup>1</sup> will continue to apply.

Peak surcharges are subject to change without notice and peak periods may be extended or otherwise changed. Shippers should continue to check [ups.com](https://www.ups.com) for updates prior to tendering shipments.

The surcharges will apply to packages shipped during the specified peak periods for the origins, destinations, and service levels in the amounts set forth below. Peak surcharges apply in addition to all other applicable charges.

## **A. Peak Surcharge – Applied to shipments from China Mainland or Hong Kong SAR to Europe**

A peak surcharge applies to any shipment originating from China Mainland or Hong Kong SAR to 19 countries in Europe<sup>1</sup> for the service levels and peak periods set forth below.

Effective July 4, 2021, until further notice, the surcharge amounts applied to these shipments will decrease. It will be calculated as a rate per kilogram based upon the billable weight of the shipment.
