#### **5. Restrictions.**

a. Transfer and Access. Client will not in any manner modify, adopt, translate, sublicense, assign, sell, lend, give, redistribute, resell, lease, license, market, transfer, grant access to, or otherwise disclose, including on a time-share basis, the Local Software Materials or any rights to the Local Software Materials to any other Person.

b. Copies. Client will not duplicate the Local Software Materials, except: (i) as required for Client to install the Local Software at the Premises to exercise the rights granted in Section 2, and (ii) to make one (1) back-up copy of the Local Software or Documentation for backup, disaster recovery, or business continuity where necessary. Such back-up copy must include UPS Customer Solutions' copyright and other proprietary notices, and is subject to all the terms of this Agreement. All copies of the Local Software Materials, whether production or back-up, must remain at the Premises.

c. Current Version. Client will use only the most recent version of the Local Software provided by UPS Customer Solutions. Upon any Update, Client will return to UPS Customer Solutions or destroy all copies (if applicable) of any previous versions of the Local Software superseded by the current version, including all backup copies. If Client fails to timely install an Update to any Local Software licensed to Client, the functionality, accuracy, and effectiveness of the Local Software may be adversely impacted and UPS Customer Solutions and its Third Party Licensors will have no liability to Client, whether for direct damages, indirect damages, or damages under any other theory to the extent resulting from errors in the Local Software that would not have occurred if Client had installed such Update in a timely manner.

d. Supported Carriers. Client acknowledges that UPS Customer Solutions may add or subtract carriers from the Supported Carriers accessible through the Local Software at any time. UPS Customer Solutions will take commercially reasonable efforts to provide written notice to Client before the addition or deletion of any carrier as a Supported Carrier. If UPS Customer Solutions deletes a carrier from the Supported Carriers, Client may no longer use the Local Software, including the applicable Carrier Component, to access such carrier's Carrier Information or Supported Carrier System. Client will not be due any refund of Local Software Fees and hereby waives any claim against UPS Customer Solutions in respect to damages or liability arising from the deletion of a carrier as a Supported Carrier. Client's use of Carrier Information, and access to Supported Carrier Systems is further subject to any other terms and conditions that UPS Customer Solutions may provide to Client in writing or in electronic format, as so required by the applicable Supported Carrier, including, but not limited to the terms and conditions of Supported Carriers attached hereto as Schedule 2. Client's execution of an Order Form including Local Software that accesses a Supporter Carrier constitutes Client's acceptance of the Supported Carrier's terms and conditions contained in Schedule 2 or otherwise provided by UPS Customer Solutions to Client and that such Supported Carriers will be third party beneficiaries to such terms and conditions, as applicable.

e. Third Party Licensors. Client acknowledges that the Local Software includes intellectual property provided to UPS Customer Solutions by Third Party Licensors. Such Third Party Licensors are intended third party beneficiaries of Client's obligations under this Client Agreement as regards a Third Party Licensor's intellectual property, and a Third Party Licensor may enforce any provision of this Client Agreement as regards a Third Party Licensor's intellectual property.

f. Planning Purposes. Client acknowledges that the Carrier Information is provided for planning purposes only, and may be insufficient to determine whether adjustments or service refunds are due from a Supported Carrier. Client may consult each Supported Carrier for further information on the procedures and data required for a service refund from such Supported Carrier.

g. Harmful Code. Client will not input, upload, transmit, or otherwise provide to or through the Local Software any information or material that is unlawful or injurious, or activate any harmful code, virus, worm, malware or other malicious computer code intended to affect the Local Software, or damage, destroy, disrupt, disable, impair, interfere with or otherwise impede or harm in any manner the Local Software.

h. Reverse Engineering. Client will not modify, translate, reverse engineer, disassemble, reverse compile, replicate or create derivative works based upon the Local Software, or otherwise attempt to discover the underlying source code of the Local Software for any purpose, and will not knowingly circumvent or defeat (or attempt to circumvent or defeat) any technological measures implemented by UPS Customer Solutions to protect the copyright, trade secrets, or other intellectual property rights subsisting in the Local Software. Except and only to the extent that such action described in the previous sentence is permitted by Applicable Law and cannot be waived in the Permitted Territory where Client is established or "Jurisdiction of Performance" on an executed Order Form, Client may exercise such rights to the extent necessary (i) to achieve interoperability of the Local Software with an independently created program, but only in the event and to the extent that such information has not been made available to Client by UPS Customer Solutions within a reasonable time upon Client's written request; and (ii) to correct any defects of the Local Software preventing the Client from the lawful use of the Local Software, but only in the event and to the extent that UPS Customer Solutions has not corrected such defects within a reasonable time after Client's written request. The exercise of such rights and the use of the provided information by Client is restricted to the parts of the Local Software necessary to achieve items (i) or (ii) of this subsection. Client will not disclose any information obtained from UPS Customer Solutions in order to exercise the rights under item (i) of this subsection to any other person or entity unless necessary to achieve the interoperability of the independently created program as required by Applicable Law, and will not use such information for any purposes other than to achieve the interoperability

of the independently created program. Client will not use such information for development, production, or other commercial use of a computer program similar to the Local Software, or for any other activity in breach of UPS Customer Solutions' intellectual property rights.

**6. Term of License; Non-Renewal.**

a. Term. For each Order Form including Local Software, the license to such Software will be in effect for a period of twelve (12) months from the effective date of such Order Form (the "**Local Software Initial Term**"), but will renew automatically for additional subsequent twelve (12) month terms (each a "**Local Software Renewal Term**," and cumulatively, the Local Software Initial Term and all Local Software Renewal Terms applicable to a given subscription, the "**Local Software Term**"), unless terminated earlier pursuant to the terms of the Client Agreement. Client will return the Local Software Materials and all copies thereof for Local Software included in the Order Form to UPS Customer Solutions within thirty (30) days after termination or expiration of these Local Software Terms for such Order Form for any reason. Upon termination or expiration of the Local Software Terms for an Order Form, all consents and other rights granted to Client hereunder for Local Software included in such Order Form will immediately terminate. UPS Customer Solutions and its licensors reserve all rights not specifically granted to Client herein. Upon termination or expiration of these Local Software Terms for an Order Form, the rights granted to Client under these Local Software Terms will automatically terminate and UPS Customer Solutions will have no further obligation to provide the Local Software.

b. Non-Renewal or Termination for Convenience. If either party desires that these Local Software Terms should not renew, it must provide the other with sixty (60) days' written notice of non-renewal prior to the end of the Initial Term or any Renewal Term. Either party may, at its election, upon sixty (60) days' prior written notice, terminate these Local Software Terms for an Order Form including Local Software. For clarity, the non-renewal or termination of a license for Local Software will not affect in any way any right or claim of any party hereto incurred or accruing prior to the date of termination, including without limitation, any right or claim of UPS Customer Solutions for compensation payable for Local Software rendered or reimbursable expenses incurred prior to such termination date. In the case of termination by Client prior to the end of the Initial Term, Client will be responsible for paying the full amount of the Local Software Fees, including taxes, due through the end of the Initial Term.

c. Termination for Cause. If UPS Customer Solutions in its sole judgment believes that (i) the Local Software Materials included in an Order Form are being used for a purpose not approved by UPS Customer Solutions, or in violation of Applicable Law; (ii) UPS Customer Solutions' or any third party's rights are jeopardized or potentially exposed to liability or damage; or (iii) Client is in default under these Local Software Terms or any other agreement between Client and UPS Customer Solutions, then UPS Customer Solutions may immediately terminate any subscriptions for Local Software without UPS Customer Solutions having to take any additional action.

**7. Client Indemnification.** Client will indemnify and hold harmless the UPS Indemnities and Supported Carriers and the directors, officers, employees, and agents of each of them, (each, an "**Indemnitee**") from and against any and all losses, damages, fees, judgments, costs and expenses (including attorneys' fees) which the Indemnitee may suffer or incur arising out of or in connection with any claim, demand, suit or cause of action arising from or alleging Client's use of the Local Software other than in accordance with this Agreement. UPS Customer Solutions will provide prompt notice to Client of any such claim for which an Indemnitee seeks to invoke Client's indemnity obligations

**8. Survival.** Notwithstanding anything to the contrary contained in the Client Agreement, the provisions of Sections 1, 3, 5(e), 6(a) (second sentence), 7 and 8 of these Local Software Terms will survive the termination or expiration of the Client Agreement or these Local Software Terms.

**9. Modifications.** Notwithstanding anything to the contrary in the General Terms, UPS Customer Solutions may modify these Local Software Terms in its sole discretion by posting such modified terms and conditions at <https://www.ups.com/assets/resources/media/local-software-terms-and-conditions.pdf>, and any such changes will supersede the prior terms after the effective date of such changes, and Client's continued use of the UPS-CS Solutions after the effective date of such changes constitutes Client's agreement to the modified Local Software Terms. However, Client may reject such changes and terminate the Client Agreement in accordance with Section 4 of the General Terms without penalty if it objects to such changes.

**Schedule 2**  
**Restrictions on use of Carrier Information and  
Access to Supported Carrier Systems**

**A. United Parcel Service.**

One Carrier Component of the Local Software allows a communication interface with United Parcel Service, Inc. and its Affiliates (“UPS”) as the Supported Carrier.

(a) Use of Information. Client may use UPS Carrier Information for Client’s own personal or internal business purposes (as appropriate) associated with (i) shipping for Client’s own benefit, (ii) instructing a supplier to ship for Client’s benefit, or (iii) receiving packages through transportation services provided by UPS. This right to use includes the right for Client to use UPS Carrier Information (A) to establish delivery dates, (B) provide delivery information to Client’s customers, (C) in the operation of Client’s customer support service centers and (D) to make payments to UPS. Client acknowledges and agrees that the UPS Carrier Information is for planning purposes only and may not be used to short pay UPS and is insufficient for purposes of determining whether adjustments or service refunds are due. Accordingly, Client acknowledges that data in addition to the UPS Carrier Information will be required in order for Client or any third party to obtain a guaranteed service refund, any other adjustment, or refunds against service fees or for reconciliation of invoices for services.

(b) Restrictions on Disclosure. Client will treat as confidential all UPS Carrier Information and to only disclose UPS Carrier Information to parties having a bona fide interest in such UPS Carrier Information (e.g., the shipper, consignee or third party payor), on a need-to-know basis and only to the extent reasonably required for the performance of this Agreement, provided Client ensures such parties use the UPS Carrier Information in accordance with all restrictions of this Agreement.

(c) Negotiated Rate Information. The Local Software may provide access to specific pricing terms and charges resulting from confidential negotiations between Client and UPS (“**Negotiated Rate Information**”). Client may use Negotiated Rate Information solely in Client’s internal accounting and billing operations to facilitate payment of charges associated with Client’s UPS account and Client may not disclose Negotiated Rate Information other than to a third party that controls, is controlled by, or under common control with, whether directly or indirectly, Client.

(d) Reference Rates. Client acknowledges and agrees that actual shipping charges invoiced by UPS may differ from rates provided as UPS Carrier Information by the Local Software even when the Local Software provides Negotiated Rate Information. Factors that may affect Client’s actual invoice include but are not limited to the following: actual package characteristics are different than as described; the information set out on the shipping label is incomplete or inaccurate; negotiated rates require calculation based on volume and additional charges are incurred during shipment of the package which are unforeseen or incalculable prior to tendering.

(e) Tracking. Client may only use the tracking functionality of the Local Software to retrieve UPS Carrier Information related to shipments tendered by Client, a third party for delivery to Client, or on Client’s behalf (“**Tendered Shipment**”). Certain tracking functionality of the Local Software may allow Client to direct UPS to provide tracking results to an e-mail address Client provides. Client will direct the Local Software to send tracking results for a Tendered Shipment only to an e-mail address controlled by a person affiliated with such Tendered Shipment. In the event an addressee indicates to Client that such addressee no longer desires to receive e-mail messages relating to Tendered Shipments, Client will immediately cease using the Local Software to direct UPS to send e-mail messages to such addressee. In no event will UPS be liable for any failure or delay in the transmission or receipt of any tracking results e-mail. Client is solely responsible for the content of any text provided by Client and transmitted as part of a tracking results e-mail. Client will not include in any tracking results e-mail any content which may be harassing, defamatory, libelous, or injurious to any other person.

(f) UPS Hazardous Materials Functionality.

(i) Restrictions. Client agrees to use the UPS Hazardous Materials Functionality of the UPS Supported Carrier System (1) to facilitate the shipment of those dangerous goods and hazardous materials identified in Client’s Hazmat Service Agreement during the period such Hazmat Service Agreement is in effect and then (2) only in those countries set forth in Client’s Hazmat Service Agreement where hazardous materials service is available.

(ii) Disclaimer. UPS MAKES NO WARRANTY OR REPRESENTATION OF ANY KIND THAT: (1) THE UPS HAZARDOUS MATERIALS FUNCTIONALITY WILL TRANSMIT THE NECESSARY INFORMATION TO UPS OR GENERATE THE NECESSARY DOCUMENTATION ERROR-FREE OR INTERRUPTION-FREE OR (2) THE UPS HAZARDOUS MATERIALS FUNCTIONALITY COMPLIES WITH ANY APPLICABLE CONVENTIONS, MULTILATERAL AGREEMENTS, BILATERAL AGREEMENTS, DIRECTIVES, LAWS OR REGULATIONS PERTAINING TO THE TRANSPORT OF DANGEROUS GOODS BY AIR AND GROUND, INCLUDING BUT NOT LIMITED TO CURRENT VERSIONS OF THE FOLLOWING LAWS:
