## UPS® WORLDWIDE ECONOMY

UPS® Worldwide Economy is a low-cost, deferred international small package contract-only service. It is designed for low-weight, low-value, business to consumer, cross-border shipments.

The service is available only with Delivered Duties Paid (DDP) terms:

- Duties and taxes are paid by the shipper on their UPS invoice

UPS® Worldwide Economy service involves the manifesting of international shipments to many export countries. These shipments are then consolidated at the shipper location into Master Cartons (also referred to as "Master Container") for consolidated movement to an Export Site. Master Cartons are opened and emptied at the Export Site with contents being sorted and consolidated by destination country for export.

UPS® Worldwide Economy can be thought of as a movement in two parts.

First Mile: Movement from the merchant shipper to the Export Site

- The merchant shipper consolidates their UPS® Worldwide Economy packages to a Master Carton
- The Master Carton is shipped to the Export Site where the UPS® Worldwide Economy packages are deconsolidated and prepared for export to the destination country
- The cost of shipping for the First Mile movement to the Export Site is not included in the UPS® Worldwide Economy rates

Last Mile: Movement from the Export Site to the recipient

- UPS® Worldwide Economy shipments will be tendered to a network of trusted partners for delivery to the consignee address

## Service Guidelines

### UPS® WORLDWIDE ECONOMY

The time and date of delivery is not guaranteed.

UPS® Worldwide Economy rates do not include duties or taxes. Rates apply to the international transportation move from the Worldwide Economy export site to the end consignee. Movement of the packages to the export site is not included in the Worldwide Economy rates.

Unless agreed otherwise in writing, package size and weight limits are as follows:

- Maximum one side = 122 cm (48 in)
- Maximum Length and Girth ( $L+(2 \times W+2 \times H)$ ) = 330 cm (130 in)
- Maximum Weight = 30 kg

Packages exceeding these maximum size or weight limits will be returned to the shipper at the shipper's expense and may be assessed a large package surcharge.

Unless otherwise agreed in writing, all packages are subject to the dimensional weight formula (using centimeters and kilograms) of  $L \times W \times H / 5000$

The estimated time-in-transit is an average of 5-8 business days from the Worldwide Economy export site to the end consignee.
