Overview

Introduction

Quantum View is a portfolio of services designed to provide increased visibility into the movement of goods. Visibility can help you improve the performance of virtually every function in your business — customer service, sales, accounts receivable, inventory management, and more.

Quantum View® Manage:

Quantum View Manage is a free Web-based application that enables multiple users within your organization to quickly and easily view, download, and share up-to-date information about the status of all your UPS shipments from any computer connected to the Internet.

Quantum View Manage supports all UPS domestic and international modes of transportation, including small package and ground, air, and ocean freight services. It is available in the following countries: Australia, Austria, Belgium, Brazil, Canada, China, Czech Republic, Denmark, Finland, France, Germany, Hong Kong, Hungary, India, Ireland, Italy, Japan, Malaysia, Mexico, Netherlands, Norway, Philippines, Poland, Portugal, Puerto Rico, Romania, Russia, Singapore, South Korea, Spain, Sweden, Switzerland, Taiwan, Thailand, Turkey, United Kingdom and the United States.

Quantum View® Data:

Quantum View Data is ideal for businesses that want to integrate visibility information into internal software applications and databases. Information about your inbound and outbound shipments is updated hourly. Files are available in popular data formats such as CSV, flat file, or XML for easy importing.

Quantum View Data supports Small Package shipment visibility and is available in the following countries: Australia, Belgium, Brazil, Canada, China, Czech Republic, France, Germany, Hong Kong, Hungary, India, Ireland, Italy, Japan, Malaysia, Mexico, Netherlands, Poland, Romania, Russia, Singapore, South Korea, Spain, Sweden, Switzerland, Taiwan, Thailand, Turkey, United Kingdom, and the United States.

Quantum View Notify®:

Quantum View Notify can be used by anyone using an automated UPS or UPS-compatible shipping system. It can also be requested through Tracking on UPS.com or Quantum View Manage. This proactive e-mail service allows you to send and receive critical shipment updates from UPS.

The *Quantum View Administration Guide* will help you and your company get set up and manage your visibility services.

Important:

All information contained within Quantum View Manage is confidential and proprietary information, which is the property of UPS. As a result, the Quantum View Manage Company Administrator for whom you request access must be an employee of the company (or its subsidiaries).

System Requirements

To access Quantum View Manage, you will need a computer connected to the Internet. Quantum View Manage works entirely through your Web browser, so you do not need any separate software. However, you will need to install Adobe Flash Player to your browser. If you have not previously installed Flash Player, go to the site below to get the latest plug-in for your internet browser.

<http://www.adobe.com>

Firefox and Microsoft® Internet Explorer Web browsers are both supported for Microsoft Windows® 2000, Windows® XP, and Windows Vista™. Firefox and Safari Web browsers are both supported for Mac OS X 10.3+. Other browsers and platforms are not officially supported.

Enrollment

You will need to assign a Company Administrator for Quantum View Manage. They will be the point of contact for the UPS Account Executive for setting up and maintaining your account.

The Company Administrators will have visibility on all UPS account numbers or locations that were provided to your Account Executive at the time you enrolled. Quantum View users will have access to only the account numbers or locations assigned to them by the Company Administrator. To add any additional UPS account numbers or locations for visibility within Quantum View Manage, the Company Administrator should contact the UPS Account Executive for assistance.

Logging In

Upon enrollment, the Company Administrator will receive two separate e-mails containing a link to the Quantum View Manage site:

- The first provides your User ID
- The second provides your temporary password

Company Administrators have the ability to add, maintain or delete users. Each additional user that the Company Administrator adds will also receive two e-mails automatically from the Quantum View administration system. See the Quantum View Administrators' Guide for additional information.

New users will be prompted to change their temporary password, agree to the UPS Terms and Conditions for Quantum View and My UPS, and enter additional profile information. Users will then be able to update their preferences by selecting the Preferences button on the right between the Custom Views and Alerts buttons.

If you forget your password, click Forgot User ID or Password on the login page for Quantum View. You will be sent a temporary password to the registered e-mail address.

Note:

User IDs and passwords are case sensitive. Multiple failed attempts to log in will cause your ID to be locked out for a period of 20 minutes.

Overview

Navigation

Quantum View Manage is located under the Tracking tab on UPS.com. The application uses Tabs to organize different types of shipping data. You can view Outbound, Inbound, Third Party, and Imports data on separate tabs. Additionally, a Combined tab aggregates all available transportation shipment data, including Outbound, Inbound, and Third Party shipments based on your privileges. The navigation for each of the tabs is located in the top portion of the screen.

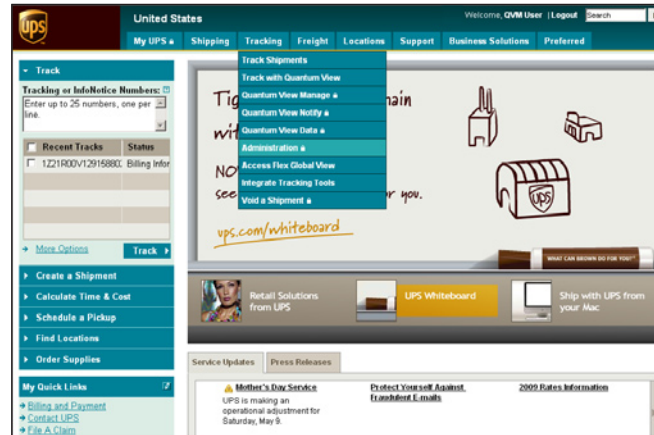

To view your Outbound, Inbound, Third Party, and Imports shipping data, click the appropriate tab.

Each of these tabs provides standard features such as Search, Filters, Custom Views, and Alerts (more information on this functionality is provided later in this guide).

A comprehensive Help section is also available by selecting the Help button on the top right side of the application screen.

You can navigate to other parts of UPS.com at all times by selecting any of the UPS.com tabs located in the top portion of your screen.

We encourage you to add Quantum View Manage to your Internet browser's Favorites or Bookmarks list in order to quickly navigate and find the Quantum View Manage login screen.

Quantum View Administration

With the administration section of Quantum View, Company Administrators can:

- Create a User(s) and/or Administrator(s)
- Search for a User and/or Administrator
- Update Company Information
- Manage service information by assigning privileges or subscriptions to control access to the information available
- Edit account location nicknames
- Invite a User to Join your QV Company
- Transfer User Privileges

Create a User and/or Administrator

1. Select Create User.
2. Fill in the User/Administrator information.
3. In the User Access section, check Quantum View Manage.
4. You may also want to check the UPS Delivery InterceptSM User box which will grant the user rights to request a UPS Delivery Intercept for shipments within and between the United States and Puerto Rico.
5. In the Administrator Access section, check the box if you would like to grant administrative-level authority to the user.

This will allow the user to view all available services and add, edit, or delete users.

6. Click Create. A Create User Confirmation will display. Verify all the information for the user/administrator just created.
7. Click the hyperlink Go to Manage User Services to assign the privileges for this user.

Note:

Indicate a Company Administrator by checking the box at the bottom of the screen to assign all privileges and all services.

Note:

Each user will receive two separate e-mails containing a link to the Quantum View site:

- The first provides the user ID
- The second provides the temporary password

Assign Privileges

Once the Company Administrator has created users, the next step is to assign privileges. In other words, what services (Outbound, Inbound, Third Party, Imports and/or Claims) should each user have access to and for which accounts or locations.

You assign privileges from the User Administration page. You can access this page by:

- Clicking the Go to User Administration hyperlink when you create a new user.
 - Or, selecting the Search for a User hyperlink on the Administration home page. (Go to page 9 for instructions on “Search for a User.”)
1. Click Manage User Services.

Administration

User Administration

User Information

Name: 092209 Migrated User
User ID: eQVM_092209

User Administration

Select the administrative function below.

- [Manage User Services](#)
- [Edit Quantum View Data Subscriptions](#)
- [Update User Information](#)
- [Reset User Password](#)
- [Delete User](#)
- [Transfer User Privileges](#)
- [Modify Search](#)
- ← [Back to Company Administration](#)

Shortcut(s)

- [Access Quantum ViewSM Data](#)
- [Access Quantum ViewSM Manage](#)
- [View Claims](#)

Note:

Company Administrators will have access to all privileges within the company, upon initial company creation.

For subsequent service and privilege additions, each user must be assigned the added service/privileges for them to be viewable.

After suspending a privilege, the privilege for this user and service become Inactive and the link to suspend privileges now reads Unsuspend Privileges view (Outbound, Inbound Location ID, Third Party).

Quantum View Administration

2. Click **Edit** next to the applicable service.
3. On the next page, select only the account number(s) or location(s) you wish the user to have access to.
4. Select UPDATE.
5. Repeat these steps to assign privileges for each service.

The Manage User Services screen will confirm that the privileges assigned to the user are active.

Search for a User and/or Administrator

1. Select the criteria you would like to search by using the pull-down menu to select Name or User ID.
2. Select the search criteria by using the pull-down menu to select Contains, Starts With or Equals.
3. Enter the Name or User ID you are searching.
4. Select SEARCH.

Optional search criteria are available on the lower portion of the screen. Search for All Users, Administrators Only or Non-privileged Users Only in a selected view.

Delete a User

1. Search for the user's profile as described above.
2. If the user is an administrator, click the Update User Information link and remove Company Administrator authority and select UPDATE.
3. Click Delete User.
4. Select Delete.
5. You may skip step 2 if the user is not an administrator.

Note:

Anytime you want to make changes to a particular user's privilege set, you must use the search functionality to find that user's information within the system.

Deleting a user removes their Quantum View privileges as well as any My UPS privileges for that User ID.

Update Company Information

This section allows you to edit information such as your company name, address, and primary company contact information.

1. Select Update Company Information.
2. Enter the appropriate changes then select UPDATE.

Manage Company Services

The Manage Company Services section provides Company Administrators with an overview of subscribed services (Outbound, Inbound, Third Party, Imports and/or Claims) and a listing of your company accounts or locations (privileges) associated with those services.

To view:

1. Click the Manage Company Services hyperlink.
2. Click View next to the service you wish to review.

If you would like to add or remove an account or location, please contact your UPS Account Representative.

Quantum View Administration allows you to edit your Inbound Receiving Address nicknames, in addition to your LTL, air, and ocean freight account nicknames.

To edit an Inbound Receiving Address or Freight nickname:

1. Select View from the Manage Company Services screen to view the details about a service/privilege.
2. Select the nickname you wish to edit.
3. Enter a new nickname and select UPDATE.

Administration

Manage Company Services

Company Information

Company Name: ABC Company
Company Nickname: abccompany

The services available for your **company** are listed below. Select the appropriate link to view the details about a service.

Quantum View

Create Inbound Location IDs (LIDs)

Location IDs are a unique set of characters that are assigned to each of your vendors so that your inbound packages can be monitored.

You create a LID from the Manage Company Services section.

To create:

1. Select the Manage Company Services hyperlink.
2. Select Create next to Inbound Location IDs.

Administration

Manage Company Services

Company Information
Company Name: ABC Company
Company Nickname: abccompany

The services available for your **company** are listed below. Select the appropriate link to view the details about a service.

Quantum View

Service	Status	Action

Inbound Location IDs	Active	View Create
Inbound Receiving Addresses	Active	View
Third Party	Active	View
Imports	Active	View

Claims

Service	Status	Action
Claims	None	

[← Back to Company Administration](#)

3. Enter the desired list for the vendor, Click NEXT.
Note: It must be 3-10 characters, all capital letters and no periods or dashes.

Administration

Add Inbound Location ID

Company Information
Company Name: ABC Company
Company Nickname: abccompany

To create a new Inbound Location ID for your company, enter a unique name below (between 3 to 10 alphanumeric characters long and ALL CAPS), and select **Next**.

Location ID:

Cancel
Next →

4. Enter the vendor's contact information, and then click SUBMIT.

Now e-mail this LID to your vendor(s) so they can include it on all your shipments.

There is a Location ID field already integrated into the address book of UPS Internet Shipping, UPS CampusShip®, and UPS WorldShip™.

Administration

Inbound Location ID Details

To add this Inbound Location ID, provide the following information and select **Submit**. Required fields are shown in **bold**.

Inbound Location ID Details

Location ID:
ABCCOLO1

Company Name:

Address:

City:

State/Province/County
(US/Canada/Ireland): Other:

Postal/ZIP Code (Required for countries with an *):

Country:

Invite User to Join Company

Quantum View Administration allows you to invite a registered My UPS user that is not currently a user within your Quantum View Company registration. Once the user accepts the invitation, the Company Administrator will be able to grant access to shipment status information on your privileged accounts and/or locations.

To invite a user:

1. Select Invite User to Join Company.
2. Complete the invitation by providing the User ID and e-mail address.
3. Select SUBMIT.

The screenshot shows the 'Administration' menu. Under the 'Company Administration' section, the 'Invite User to Join Company' option is highlighted. The 'Shortcuts' section includes 'Access Quantum ViewSM Data', 'Access Quantum ViewSM Manage', and 'View Claims'.

The screenshot shows the 'Complete Invitation' form. It contains the following text: 'To invite a user that is not currently a company user to join your company, provide the following user information. User ID is case sensitive. Required fields are shown with bold.' Below this text are two input fields: 'User ID:' and 'E-mail:'. At the bottom right, there are 'Cancel' and 'Submit →' buttons.

Transfer User Privileges

Quantum View Administration will allow you to transfer all Quantum View rights and/or administrative authority to a User ID that has only CampusShip privileges.

Note: Both users must exist within the same UPS company registration.

To transfer privileges:

1. Select Transfer User Privileges.
2. In the User ID 1 field, enter the User ID that has only privileges for Quantum View and/or Claims.
3. In the User ID 2 field, enter the User ID that has only privileges for CampusShip.
4. Select NEXT.
5. Review the confirmation of the transfer request.

Administration
