UPS CARBON NEUTRAL SHIPPING IS EASY

If you’re concerned about the impact shipping has on the environment, we have the perfect program for you. Our Carbon Neutral Shipping option allows you to offset the carbon emissions from the packages you ship. You can rest easy knowing you’re doing more to help the environment. How does Carbon Neutral Shipping work? It’s easy!

You can ship carbon neutral from 36 countries to anywhere in the world!

Whenever you create a shipment, select “UPS carbon neutral” for a small fee.

Your package ships as usual and we purchase carbon offsets on your behalf. The offsets support carbon-reducing activities like:

- Reforestation
- Renewable Energy
- Methane & Landfill Gas Destruction
- Wastewater Treatment
