How to Process Your Shipments

UPS offers a wide variety of door-to-door services with guaranteed delivery time and customs clearance.

1. Select the Service

1 TO 3 DAYS

UPS Worldwide ExpressSM Guaranteed delivery within one or two business days before 12 p.m. in the United States and Canada, and within two or three business days usually before 12:00 p.m. to main metropolitan areas in Europe, Asia and Latin America. This service is not available for your imports.

UPS Worldwide Express SaverSM Guaranteed delivery for export within one or two business days, before the end of day, in the United States and Canada, and before end of the second or third business day to main metropolitan areas in Europe, Asia, Latin America, Africa and other destinations. For your imports, the delivery is guaranteed before end of business day from more than 186 countries and territories worldwide.

2. Determine the Weight

Rates are based on the total actual weight or the total dimensional weight of all packages in a shipment, whichever is greater.

Dimensional Weight

Dimensional Weight is determined by using the International Air Transport Association (IATA) volumetric standard, which is subject to change without prior notice.

1st step

Calculate the Volume

Multiply the length by the width by the height (each rounded to the nearest whole centimeters) of each package. For a multiple piece shipment, add the results for all the packages together. The total is the cubic size of the shipment.

2nd step

Determine the Dimensional Weight

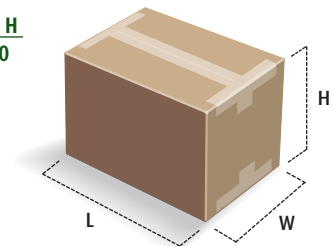

Divide the cubic size of the shipment by 6,000 to determine the dimensional weight in kilograms. Increase fractions of a weight to the next full kilogram. If the resulting dimensional weight is larger than the actual weight of the shipment, use the dimensional weight to calculate the rate.

$$\text{Dimensional Weight} = \frac{L \times W \times H}{6,000}$$

L = Length in centimeters

W = Width in centimeters

H = Height in centimeters

Shipment Pricing

Shipment Pricing applies when shipping multiple packages to one destination on the same day and the packages are listed on the same UPS Air WayBill or Shipping Label. The sum of the weight of all packages is considered as one shipment.

Shipment Pricing does not apply to UPS Express Envelopes, as these cannot be part of a multiple-package shipment. Shipment Pricing applies for all your exports and imports.

3. Determine the Zone

To determine the applicable zone for the country of destination of your exports for UPS Worldwide Express and UPS Worldwide Express Saver, please refer to the Zone Chart on page 3.

To determine the applicable zone for the country of origin of your imports for UPS Worldwide Express Saver, please refer to the Zone Chart on page 6.

Note: If a zone number is not indicated in the corresponding column for the service you want to use, then UPS does not offer this service to that origin and/or destination country.

4. Determine the Rate

The rate is based on the service, the weight and zone.

5. Determine Additional Charges

To determine if your shipment will incur any additional charges based on UPS additional services, please refer to the Additional Charges section on page 8 of this Rate Guide.

Any fraction of a kilogram is rounded up to the next full kilograms.

For shipments over 31.5 Kg.

For shipments weighing over 31.5 kilograms, the rate is calculated by multiplying the total shipment weight (rounding up to the next full kilogram) by the price per kilograms shown at the bottom of the Rate Chart. UPS will bill the result of this calculation or the Minimum Rate that is indicated, whichever is greater.

Any fraction of a kilogram is rounded up to the next full kilograms.

For shipments over 31.5 Kg.

For shipments weighing over 31.5 kilograms, the rate is calculated by multiplying the total shipment weight (rounding up to the next full kilogram) by the price per kilograms shown at the bottom of the Rate Chart. UPS will bill the result of this calculation or the Minimum Rate that is indicated, whichever is greater.

International air shipments may be subject to the Warsaw Convention, including its limitations and responsibilities.

* All charges will be billed to the consignee.

When the payer is located in a third country (not origin country nor destination country), the prepaid rates of the origin country will apply, unless otherwise agreed upon between UPS and the customer.

Additional Charges

EXPORT AND IMPORT

Additional charges are subject to UPS Terms and Conditions. For more information about the availability of these Additional Charges, please contact your local UPS office.

Fuel Surcharge

UPS reserves the right to charge a fuel surcharge for all deliveries without prior notification.

Address Correction

A fee of US\$8.75 will apply for each package that requires an address correction. The maximum address fee will never exceed US\$35.00 per shipment.

Duty and Tax Forwarding Surcharge

This charge applies when duties and taxes are charged to the shipper or a third party that is not located in the destination country. This fee covers the cost incurred to bill the duties and taxes outside of the destination country.

When you choose this billing option, a fee of US\$16.00 will apply per shipment.

Extended Areas

For each shipment to an extended area, UPS will charge US\$20.00 per shipment or US\$0.50 per kilogram, whichever is greater. For more information, refer to the Extended Areas Guide in www.ups.com.

Shipping Charges Refusal by Consignee

If the consignee refuses to pay the shipping charges, an administrative fee of US\$10.75 will be charged per shipment to the shipper, in addition to the return shipping charges and any other fee that is incurred during the return process.

Missing or Invalid UPS Account Number

A fee of US\$6.25 per shipment will be applied for a missing or invalid account number when the account number is missing, the account number is not the correct number for the bill-to party, or if it is the account number for a receiver or third party who fails to pay the shipping charges.

Declared Value

A shipment is automatically protected against loss or damage up to US\$100.00 per package. For each shipment with a declared value over US\$100.00, US\$0.40 will be charged for each additional US\$100.00 or fraction thereof, with a minimum of US\$1.20.

Protection against loss or damage excludes or does not provide protection to items that have been incorrectly packed, that have been packed with inadequate materials or with adhesive tape that does not meet the requirements established by UPS. It is the shipper's responsibility to make sure that the shipping materials used are adequate.

The declared value fee can be charged to the shipper, consignee or a third party.

The maximum declared value and the maximum legal responsibility of UPS for international service is US \$50,000.00 per shipment.
