### Noting UPS Trademarks

- The notice symbol “®” should appear in the first or most prominent mention of the trademark (preferably the title or heading) in any informational or promotional materials (brochures, sales sheets, websites) in the U.S. and countries where the mark is registered (i.e. UPS®).
- The notice symbol “TM” and not “®” must be used in all other markets where the trademark is not registered.
- Additional mentions of the trademark within the same document or web page may be shown without including the “®” or “TM” notice symbol.
- Please check with Legal to verify registration status for additional countries.
